Louisville Girl Wed in New York

Our Lady of the Skies Chapel at New York International Airport, was the setting for the marriage of Sharon True, daughter of Mr. and Mrs. Fred True, Louisville, and Andrew Hommel, son of Mr. and Mrs. Andrew Hommel of Lindenhurst, Long Island.

The double-ring ceremony was performed by the Rev. Father McCabe, before an altar decorated with baskets of white gladiolus and pink chrysanthemums. The bride, given in marriage by her father, chose a gown of floor length imported white peau de crystal. The fitted bodice, with long tapered sleeves, fastened with tiny buttons. The scoop neckline tapered to a vee in back. The bell-shaped skirt was covered with an overlay of imported lace. The aisle-wide train of lace was caught at the back with a large rose. The bride's bouffant veil of imported French silk illusion was held in place with a tiny doll's cap of pearls and cut crystals. She wore a single strand of pearls and carried a bouquet of white roses and lily of the valley, centered with white orchids.

The maid of honor, Miss Anne Hosh of New York, and the bride-matron Mrs. Charlotte Driscoll, sister of the bridegroom, wore floor length gowns of gold peau de crystal fashioned like the bride's dress.

Bridesmaids Carol True, sister of the bride and Marilyn Mennengo of New York wore emerald green gowns. Best man was Mr. Barry Beach, nephew of the bridegroom.

Ushers were Pat Bauer, Edgar Beach and Robert Wellenbacher, relatives of the bridegroom. The bride's mother chose a beige dress with coffee tone accessories; the bridegroom's mother wore a blue dress with matching accessories. Both mothers wore a corsage of orchids. Following the ceremony a reception was held at the Hillside House in New York. After a wedding trip to Port-au-Prince, Haiti, the young couple will live in New York.

'Seal' Campaign Totals \$165,631 In State So Far

The Nebraska Tuberculosis Association released figures today on the 1962 Christmas Seal Campaign.

Contributions to the 93 county organizations now total \$165,631.46, which compares with \$160,445.12 this time in the campaign last year.

Additional contributions are expected to make the campaign total exceed \$170,000 before the close of the association's fiscal year on March 31. Delmar R. Serafy, executive secretary of the association, said today the TB association's expanded program into other respiratory diseases will put the funds to work immediately. "For the first time in their history, TB associations will put on an educational program this spring to alert people to chronic cough and shortness of breath as common symptoms of respiratory diseases — sicknesses of breathing," Mr. Serafy said. "The 1963 RD campaign will not be a drive for contributions. It is an educational service financed by Christmas Seal funds. The Nebraska campaign will coincide with similar campaigns run by the 2,100 TB associations throughout the country from May 1 to June 15."

Serafy said county TB agencies in Nebraska will announce their RD educational campaign chairmen at their spring meetings during March and April. They will invite local clubs and organizations to schedule film showings on tuberculosis, emphysema, and other respiratory diseases. They will distribute public information facts pamphlets prepared by the National Tuberculosis Association.

Several of these have been issued in the past year. They are: "TB—The Facts"; "Chronic Cough—The Facts"; "Shortness of Breath—The Facts"; "Air Pollution—The Facts." Others include emphysema, pleurisy, influenza, hay fever, chronic bronchitis, and pneumonia. Other materials will include outdoor posters, window posters, and special materials prepared for newspapers, radio and television.

Serafy said special material is being prepared for physicians to inform them of the public education campaign and to bring them medical information about respiratory illnesses. He said the medical material is being prepared by the American Thoracic Society, the medical section of the National Tuberculosis Association.

"In line with our program to eradicate tuberculosis, Christmas Seal funds will continue to support tuberculosis case finding through the chest X-ray survey and tuberculin testing programs. The program for other respiratory diseases will aid the tuberculosis program too," he said.
