

St. John's Cubs Have Meeting

St. John's Cub Scout Pack 368 held their November pack meeting last Tuesday evening in the school auditorium.

After the opening ceremony, there was group singing of Cub Scout songs and a musical skit by the "Beataak Hepcats" of Den 1.

Donald March and David Hula were elected as Bobcats by John Hertford, Cubmaster. Terry Long received a two-year service star; Greg Smith, a denner badge; and Steve Placek, assistant denner badge.

It was announced that the pack had received a first award Blue Ribbon at the Scout Exposition in Omaha the previous week, and that the pack project for December would be the collection of Butterum key strips and labels.

The meeting ended with an improvised basketball game between two teams of Cubs.

'High Risk Group' Advised To Seek Flu Protection

Are you going to have the flu this year? Health authorities are inclined to discount threats of another major outbreak which accounted for 153 deaths in Nebraska in 1960.

The Nebraska Tuberculosis Association, which opened its Christmas Seal Campaign on November 15, says that, outbreak or not, influenza remains a major public health problem, and no one should be complacent about it.

The tuberculosis association is interested in influenza, because it is a respiratory disease. A medical research team on the east coast is studying influenza with a Christmas Seal grant from the National Tuberculosis Association - American Thoracic Society. These investigators are trying to find out how respiratory viruses are transmitted. Just as other investigators are conducting research in tuberculosis with Christmas Seal funds.

Each year sees a number of deaths from influenza, the Nebraska association reports. Following the high number of deaths reported in 1960, only forty-two fatalities were reported in 1961. Last year seventy-seven deaths were reported in the state.

The association states that influenza is not usually fatal, but it strikes thousands of people, making them miserable for days, until the illness runs its course.

It is a serious illness for anybody, and is especially dangerous for certain persons which the tuberculosis association calls the "high risk group." These are people suffering from any chronic diseases, such as emphysema, tuberculosis, diabetes, heart trouble, or high blood pressure. Pregnant women and persons over forty five are also included in the "high risk group."

If this means you, the association warns, don't delay. Ask your doctor about a flu shot.

England's King James I appointed a "Keeper of the King's Otters" to look after the pack of tame aquatic mammals trained to catch fish for his table.

MOST FRESH
LINCOLN — Consumers still buy most of their potatoes fresh, according to the U. S. Department of Agriculture. However, one-fourth of the potatoes eaten last year were chips, frozen French fries, dehydrated and other forms of processed potatoes.

NEW DORM READY BY 1965—This is an artist's sketch of the new men's dormitory at the University of Nebraska which was approved by the Board of Regents Saturday. The 13-story facility will accommodate 1,056 students and is scheduled to be ready for use in the fall of 1965. The main dormitory building will be 140 feet high, 397 feet long and 61 feet wide. The low building beside the dormitory will include food service facilities and dining rooms as well as recreation areas and a snack bar. The structure will be built on North 17th Street, southeast of Nebraska Hall on the University's city campus. There will be 328, two occupant rooms measuring 14 by 17 feet with built-in closets. Davis and Wilson of Lincoln are the architects.

BLUE RIBBON EXHIBIT—Shown above is the exhibit of St. John's Cub Pack 368 which won a Blue Ribbon at the Scout Exposition in Omaha. Mrs. Marilyn Slater, den mother, is shown with Cubs Dan Gradoville and Mike Slater, right.

'Mail Early . . . There's Sure To Be Rush'

Faced with the certainty that Christmas 1963 will set an all-time record for mailings of Christmas cards and gifts, Postmaster Vern Hendricks today requested your cooperation in his annual "Mail Early For Christmas" Campaign.

The Postmaster said—"Here are the things to watch to be sure that every Christmas card and gift package will be delivered before Christmas Eve.

'Apple Eater' On Right Track

LINCOLN—Will an apple a day really keep the doctor away?

This contention would be hard to prove. However, a recent study showed that a group of apple eaters had fewer colds and similar illnesses than a group of non-apple eaters, according to Ethel Diederichsen, Extension foods and nutrition specialist at the University of Nebraska.

"People have believed in magical curative powers in apples throughout the ages. While these may not have medical support, apples do contribute food value important to maintaining good health. Apples contain small amounts of both vitamins A and C," the University specialist points out.

Apples are noted for being good "keepers," too. Firm apples of good color and flavor chosen from this year's abundant supplies will keep two weeks or more in a home refrigerator. The vegetable drawer, crisper or a plastic bag with holes in it are the best receptacles to keep these fine fruits fresh. Miss Diederichsen pointed out.

In a cold—about 32 degrees F.—fairly humid, well ventilated place for storage, apples can be kept up to three months for long-term "apple a day" use, the specialist concluded.

FIRST, check over your Christmas card and gift list very carefully—be certain each address is complete with full name, street and number, city, state and zone or ZIP Code number.

SECOND, stock up soon on sturdy packing materials for your gift packages, including heavy wrapping paper, corrugated cartons, strong cord and paper adhesive tape.

THIRD, buy your postage stamps now. Be sure to use the colorful new five cent Christmas Tree stamps on your cards.

FOURTH, procure free labels from your post office which read "ALL FOR LOCAL DELIVERY" and "ALL FOR OUT-OF-TOWN DELIVERY", so that you can sort your Christmas cards into two groups, with addresses all facing one way, thus insuring fast delivery.

FIFTH, be sure that your full name and address is on all of your Christmas card envelopes and shipping labels and be doubly sure to include your ZIP Code number in your return address.

The Postmaster especially requests that you schedule your Christmas mailings so that all of your cards and gift packages going to most distant points are mailed by December 10th. Those for local destinations should be mailed at least a week before Christmas.

AVOCA

Mrs. Henry Maseman

Supt. Floyd Burke was a delegate to an educator's meeting at Lincoln Monday and Tuesday.

Roger Smith left Tuesday for the armed services from Cass County and is at Ft. Leonard Wood, Mo.

The Avoca Woman's Club had a Thanksgiving dinner for their families Tuesday evening in the church parlors. Members showed several of their hobbies and pictures of Nebraska were shown from the State Game Commission.

John Stubbendick has returned from his vacation. Mrs. Elmer Kepler and Mrs. Clara Ruhge helped in the Rubge Grocery in his absence.

Louis Carsten came home Monday from the hospital where he had been under medical observation.

Mrs. Helen Noerlinger sold the cafe this week to Mrs. Vernon Dettmer on account of ill health. Mrs. Dettmer will take over January 1.

Several from Avoca attended the 50th anniversary banquet of Eastern Star Chapter 250 at Weeping Water Tuesday evening. Mrs. Emma Rawalt was honored for her membership of 50 years of an Eastern Star Chapter. Among them were Mrs. Paul Hillman, Mrs. Rawalt, Mr. and Mrs. Calvin Carsten and Mr. and Mrs. Henry Smith.

Elnah Allen was honored at a dinner recently at the home of Mrs. Betty Jacobsen, Syracuse. Also present were Mr. and Mrs. Otto Ludwig and Mrs. Allen and son. Mr. Allen has returned to duty in the Philippines after a 30-day furlough.

Miss Marylynn Hoback of Omaha spent her vacation with her parents, Mr. and Mrs. Lynn Hoback.

Mrs. Roger Ross was honored with a grocery shower by her aunts Sunday at the Parish Hall of First Lutheran Church.

Mr. and Mrs. Wm. Schmidt, Treynor, Iowa were Sunday dinner guests of Mr. and Mrs. Alfred Ebert. Other guests were Mr. and Mrs. Karl Uhhorn, Omaha. In the afternoon the Eberts and their guests visited with Mr. and Mrs. Henry Leefers.

Henry and Minnie Grafe visited Louis Grafe at Syracuse Hospital. Mr. Grafe is feeling much better and hopes to leave the hospital soon.

Hans Jensen attended the Danish Brotherhood meeting at Weeping Water of which he is President.

Lawns, Trees, Shrubs Need 'Winterizing'

LINCOLN—This is the time of year to protect lawns, shade trees and shrubs against winter weather and storms, says Wayne Whitney, University of Nebraska Extension horticulturist.

Lawns should be soaked and trees watered heavily, he advises. This is especially important now as subsoil moisture is deficient in many areas of Nebraska.

"Cool season grasses such as bluegrass, perennial rye and fescue will suffer if they do not have moisture this winter," he added.

Tree leaves should be removed from lawns as they will mat and smother the grass if not removed.

When packed snow or ice cover the grass it is important to crack the surface. Unless this is done the grass will smother. Cracking the ice cover permits air to circulate.

Whitney said trees and shrubs need a good supply of subsoil moisture during the winter. Water should be applied before the ground freezes. This is especially true for evergreen trees and shrubs.

The ancient Egyptian temple of Kalabsha, near Aswan, bears an inscription of about A.D. 249 sternly ordering herdsmen to keep pigs out of the holy place.
