—Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. For sale by Watson & Jackson.

—Rev. O. L. Ramsey preached to the little folks last Sabbath morning following up his discourse with a very beautiful and comprehensive illustration taking a glass of water to show how pure children are in the sight of God. Then as they begin to disobey their parents, he dropped a little ink into the water which was barely perceptible, but as little things pave the way for larger ones, so by adding a little black ink, for each little wrong, soon the water becomes as black as ink itself to show how the sinner appears in the sight of God. Then he took some kind of chemicals and poured into the glass containing the ink and water, when instantly as if by magic the black mixture became as clear as water again. "So with the spirit of the master, where it enters no matter how blackened the contents of the heart are from sin, all is at once made pure and white." The discourse was very interesting and profitable for even the adult portion of the congregation.

TO THE LADIES OF CHERRY COUNTY.

Mrs. E. A. Stewart, a member of the Women's Auxiliary Board to Nebr. Columbian Commission, spent Thursday, Dec. 1st in Valentine. Her designs was to form an Auxiliary in Cherry county. Each lady of the county is supposed to be a member, and it is desired that each shall so far as practicable take an active part in the work.

We desire that our county, the largest in the state, should be ably represented. To do this, we need the help of all. Let us show our zeal for our home county, by our united effort.

It was suggested that the women of each precinct or school district in the county form themselves into a little band to aid this work. Some of the things that are desired by the State Board are as follows:

i Copies of all books written by women in the county.

ii Copies of all newspapers edited by women in the county.

iii The best examples of women's work in all lines, either domestic, artistic, professional or industrial.

iv To ascertain the number of women employed in factories, in floriculture and horticulture, the number engaged in the trades, the professions, in art work and designing in literary work; also the number of authors, inventors and teachers.

Besides these it is desired that each county in the state aid in decorating and furnishing the Ladies reception room of our state building at Chicago.

Mrs. Stewart suggested that we donate a piece of furniture. Many things have been named, but none as yet have been fully decided upon. The most practicable seems to be a chair decorated with pine cones. It will be necessary to secure designs and workmen to make the frame work, and many other things. To do this a fund must be raised. In this especially all may help. The ladies of Valentine have thought of giving a supper, to aid the cause. Those of other districts will doubtless use their own devices.

The ladies of Valentine will be glad to hear from the ladies of other parts of the county, as soon as possible. They may address, ETTA STEELE, President, of Cherry Co. Auxiliary.
