##### Mr. Weyler Talks.

In an interview Gen. Weyler, in reference to Morgan's Cuban resolution, said: "I am not surprised at the action thus far taken nor shall I be if the house concurs in the senate resolution and sends it to the president. Your jingoes are in the saddle and are evidently bent upon forcing the country into some foreign complications in order to distract attention from the fast approaching international crisis. In brief, recognition may aid the Cuban junta in placing a few bonds in the United States, but it will at the same time assure the successful issue of our proposed new Spanish loan in Paris, London and Vienna, and enable us to carry on the war with renewed vigor. Personally I would be glad if recognition comes; our position will then be more clearly defined."

### Ahuvoto, the Piute Assassin, Slain by Member of His Own Tribe.

A dispatch from Kingman, Ariz., says: Ahuvoto, the notorious Piute Indian, who has in the last three days murdered not less than ten white men, is dead. He met his fate at the hands of members of his own tribe, who were compelled by miners in Eldorado canon to trail the murderer to death, the penalty for their failure to do so being fixed at the annihilation of every Piute the miners could reach.

The miners congregated in Eldorado canon and told the Piutes that if they did not bring or kill Ahuvoto they would kill every Piute they could reach. The Indians followed him down the river, found where he made his last landing and trailed him ten miles up the canon into the mountains, where they crept up and shot him as he was going over the range.

The board of supervisors of Mojave County, Arizona, offered a reward of \$250 for Ahuvoto and Mouse, who murdered Davis and Sterns last February.

Over 100 white men and Indians joined in the chase for the murderer. There were about thirty-five wounded insurgents in the buildings, attended by four physicians and several women nurses. The Spanish guerrillas came upon the place at the dead of night and without warning set the buildings on fire. The physicians and convalescent men about the place rushed to the doors and windows to save the more severely injured of the inmates. The guerrillas fired on them, killing the insurgents, and as the wounded insurgents staggered and crept to the doors and windows they were ruthlessly shot down. The women nurses were all saved from instant death, but no trace has been found of them since. A courier brought the news to Santa Clara, from whence it reached the Havana junta. It is said that the scene was one of the utmost horror.

A single robber held up and attempted to rob an incoming car on the Stellacoom electric road at Tacoma, Wash., Sunday. As he got on the platform he pulled a blue dotted calico mask, having holes cut through for eyes, down over his face, produced a revolver and ordered Superintendent Dame, of the line, and the motorman to the rear of the car. The robber evidently thought they were safely disposed of, for he paid no more attention to them, but commenced relieving the passengers of their valuables.

Superintendent Dame drew his gun and fired at the robber, who returned the fire. Dame fired two shots and the robber three. Two minutes later the robber was lying beside the car dead, while Dame had been shot in the arm and Jewett Smith, a passenger, in the leg. One of Dame's bullets passed through the right arm of the robber and the other through the left arm, both entering his body, striking the lungs or heart.

## THE WEEK IN TRADE

### The Business World as Seen by Dun & Co.

R. G. Dun & Co.'s Weekly Review of Trade says: Unmistakable evidence of improvement comes in the general increase of commercial loans, mostly for eastern merchants or companies, though some well known houses in the middle west appear with considerable rediscunts from the south. Western wheat receipts exceed last year's for the week 2,384,189 bushels, against 1,738,983 and Atlantic exports were 1,570,813 bushels, flour included, against 1,302,491 last year. Western receipts of corn were 1,655,677 bushels, against 1,495,670, and Atlantic exports 2,188,825 against 1,608,784 last year, notwithstanding the enormous increase hitherto. Wheat again cheated hopeful buyers and fell nearly 4 cents, closing 8 3/4 cents lower for the week. Corn was a shade weaker. Cotton went more hopefully advanced to 7 1/2 cents, but fell back to 7 1/4 cents with poor support here or abroad. The iron industry has quite an increase in new business, though not in all branches. Sales of wool decrease, though still greater than when all the mills were busy, but manufacturers are doing scarcely anything, most of their possible demand for months ahead having been supplied.

##### ASKS FOR RECIPROCITY.

#### Winter Wheat Millers' League Make an Appeal to Congress.

Resolutions were adopted reciting that the action of congress upon the reciprocity idea had been of a negative character and absolutely fails to recognize the pressing need of new and wider markets. The resolution then declares:

"That the Winter Wheat Millers' League, representing the flour manufacturers of the central wheat producing states, most earnestly reminds the party in power of its failure to redeem the pledges upon which so much political and material prosperity depends. We submit there is nothing in the tariff measure to add one dollar to the value of our exports."

The organization will furnish money for which the commission men and stockmen have hitherto gone to St. Louis or east.

## STATE OF NEBRASKA

### NEWS OF THE WEEK IN A CONDENSED FORM.

**John Hoffman of Falls City Saves a Boy from Drowning in the Nemaha, but Loses His Own Life—Other Items of Interest.**

##### Saves the Boy and Drowns Himself

John Hoffman was drowned in the Nemaha River at Falls City. He had been trying to clear the river of drifts, etc., caused by the late high water. He had been down stream and was coming back and came close to the dam. When his boat struck the dam it filled with water and sunk. Hoffman and a young son of W. G. Brannin, who were in the boat, were thrown into the river. Hoffman pushed the boy so he could get hold of the boat and was thus saved. Hoffman had on heavy rubber boots and could not handle himself very well. The river was dragged and the body was found about twenty feet from where it went under.

##### Tramps Set the Air Brakes.

Three tramps made it exceedingly interesting for the crew on the westbound Union Pacific freight train the other day two miles east of Elkhorn. The tourists were discovered in a box car by a brakeman, and by dint of considerable strong-arm work he persuaded the stowaways that talking was preferable to riding. As the train was ascending a heavy grade and running very slowly the tramps were able to get off without endangering their lives or limbs. They dropped off and waited until the rear end of the train came up to them and then two members of the party, to attract the attention of the conductor and rear brakeman, made a bluff at jumping on the front end of the caboose while their partner ran to the rear end of the way car and set the air brakes on every car in the train. The result was disastrous. Four or five drawers were pulled out, causing a delay of two hours. As soon as the mischief was accomplished the tramps started across the country at a rapid gait.

##### Intimidated a Witness.

Charles M. Chamberlain, cashier of the Chamberlain Banking Company, was arrested at Tecumseh the other day by order of District Judge Stull of Lincoln on the charge of intimidating a witness. Mike Yorty, charged with burning a mill at Tecumseh, pleaded guilty, having in a previous confession implicated D. R. Osgood, a Lincoln attorney, whom he said had hired him to do the work. Yorty in his plea went farther and charged that Chamberlain some time since visited him and warned him not to testify against Osgood, saying if he did so he would never leave the court house alive. At the close of his recital Judge Stull ordered Chamberlain's arrest.

##### Tries to Burn the Jail.

A tramp was locked up at Pierce by Marshal Goff for being drunk. He became enraged at this and set fire to a quilt that was on the bed in his cell. The alarm was given by the other occupants of the jail and quite a crowd gathered. The quilt was thrown out into the road and did no damage. The cell was of iron and nothing was in it that would burn but the bed clothes and the tramp himself. He was searched and matches were found in his pockets, and his shoes were removed and matches were found there also.

##### Tramp Is Murdered by Tramps.

The man found in a dying condition near the tracks of the B. & M., one mile west of Hampton a few mornings since, is dead. It was found at the inquest that he was one of a party of five tramps who had two kegs of beer in a vacant house near where he was found, and it was the opinion of the jury that he had been foully dealt with by his companions and placed near the track to create the impression that he had been killed by the cars. His name was found to be Frank Hayes, and his residence at Gridley, Kan.

##### Woman Sues a Saloonkeeper.

Mr. Broughman thinks \$1,450 will square things.

##### Elopes with His Wife's Sister.

The pair drove to Lincoln from Hampton and were found there by the father of the girl, who returned to Aurora with his daughter.

### Chase County Farmers Jubilant Over the Outlook.

Chase County was again blessed with a timely rain the other night. The fall was uniform and general all over the county. Everybody feels highly elated at the splendid prospects for a good crop this year. The grass on the prairies was never better, and stock of all kinds is growing fat on it. The splendid range and healthy climate and pure water has so highly recommended itself in the past that there have been shipped into the county this spring for grazing and keeping purposes over 2,000 head of cattle. Kilpatrick Bros. a few days ago shipped a trainload from the south. The train consisted of nineteen large palace stock cars, averaging forty-three head to the car. The farmers of the county are largely turning their attention to stock raising, and are rapidly gathering around them small herds. There are some thirty or forty farmers in Chase County who have, within the past few years, accumulated small droves, from fifty to one hundred head, and thereby are growing rich.
