## OCCURRENCES THEREIN FOR A WEEK.

### WHEAT TAKES A DROP

QUICKLY GOES DOWN TO 95 CENTS MONDAY MORNING.

Price Forced Back to Nearly a Dollar When It Breaks Again and Closing Figures for September Are 3 1-2 Cents Lower Than Saturday

### Wheat Takes a Drop Monday.

Chicago, Aug. 23: "Up like a rocket, down like a stick," characterizes the action of the wheat market Monday morning. The first quotation for September on the curb was \$1.02 1/2, an advance of 3 cents over Saturday's close, and September corn brought 33 1/2 cents, an advance of 2 cents. Liverpool opening cables showed an advance of 4 1/2 cents over Saturday's close, against Chicago's Saturday advance of 7 cents; and corn at Liverpool was up 2 1/2-3 1/2 cents, or considerably more than Chicago's advance of Saturday, and the world's shipments statement showed 5,000,000 of the 7,000,000 were contributed by the United States.

The opening on the regular board found no higher quotation than 95 1/2 cents, or the same figure as Saturday's close, and there were simultaneous sales all the way down to 93 1/2 cents, with a quick drop to 97 cents, and some sales even at 95 1/2 cents, or 7 cents below the top price on the curb. Enormous quantities were for sale, with few buyers. Many holders were evidently realizing profits. This finally carried the price down to 95c. A recovery followed, the bull crowd taking up the market again, the price going to 99 1/2 cents, fluctuating between that and 98 cents.

Around 11 o'clock the price sagged, going off later to 96 1/2 cents, then for a long time fluctuated within a range of 96 1/2-97 1/2, holding most of the time near the higher figure. Half an hour before the close September was quoted at 96 1/2 cents and December at 96 1/2 cents.

The market remained weak to the end, September closing at 96 cents and December at 95 1/2 cents. September shows a net loss of 3 1/2 cents compared with Saturday's close.

### WORSE THAN SIBERIA.

#### Georgia Commission Reports on Condition of Convict Camps.

The special commission which Gov. Atkinson of Georgia appointed last spring to investigate the condition of the convict camps of Georgia has made its report, and the publication thereof has astounded not only the governor, but even those members of the legislature who thought that such an investigation was needed. It declares that the convict camps of the state are worse than Siberia, and its findings show a condition so horrible, revolting and inhuman as to be almost beyond belief. Men and women of both colors are forced to sleep together in outhouses and women compelled to don men's clothes and work in the ditches with the men.

The reports descriptive of the treatment of women are unprintable. In one camp the commission found sixteen colored men and a white woman quartered in a barn with cows, and a guano store room above them.

It was only when the schooner was in flames that the rest of the crew knew anything of the tragedy, and when the alarm was given they had barely time to escape, the captain and first mate being missed only as the party left the burning vessel.

### POINTER THE WINNER

#### DEFEATS PATCHEN IN STRAIGHT HEATS IN CHICAGO.

The First Heat Was Made in 2:02, the Second in 2:04 1-4 and the Third in 2:04-Trouble Among Cherokees in Indian Territory.

Star Pointer Beats Patchen. There were 15,000 people at Washington Park, Chicago, Saturday afternoon who saw the fastest first heat ever paced and perhaps the fastest fourth quarter. The chief event on the card was the match between Joe Patchen, 2:01 1/2 and Star Pointer, 2:01 1/2. The toss of a coin gave Patchen the pole for the first and third heats. Star Pointer, notwithstanding this advantage, won all three heats handily, outfooting the black horse.

First Heat—They went away together. Rounding the first turn Patchen was a length ahead. The first quarter was covered in :30 1/2, a 2:02 gait. The half was done in 1:00 flat, and the three-quarters was passed in 1:32 1/2. At that point Pointer, traveling on the outside, had fallen an open length behind Patchen. Swinging into the stretch McCleary called on the bay horse, and he responded gamely with one of the greatest bursts of speed ever seen on a trotting track. Steadily, inch by inch, he crept up on Patchen. Curry shook up his horse and laid the lash on hard. He responded nobly and let out another link, pacing like a well balanced piece of machinery, but he could not shake off his antagonist. Pointer crept up slowly and finally past Joe in the last half dozen strides, going under the wire a winner of the heat by a nose. The time for the mile was 2:02 flat, and a first heat record was marked up.

The strength with which Pointer finished in this heat made it almost a foregone conclusion that he would win the second heat and the race. When they were given the word they went away at even, but Pointer was never headed, winning by two open lengths in 2:04 1/4. The third heat was a repetition of the second and was made in 2:04.

Cotton declined an eighth because of estimate promising the largest crop ever grown, but the dry goods market is decidedly improving and some of the large mills, after a few weeks of suspension, have resumed work. Most farm products are doing well, but wheat has advanced 1 1/2 for the week on actual transactions, with heavy purchases for export.

The answers of the companies were filed a few days later, in several of which the motion was made that the complainant be required to make his complaint more specific. After the arguments were finished the board retired a few moments for deliberation and arrived at the decision that the motion should be sustained, and the complaint be required to state the amount or per cent. of reduction asked for. The necessary amendment will be made and filed and copies of the amended complaint will be furnished the railroad companies, after which they will have ten days to file answers. Early this year when hogs began dying by the dozens in that community he went to work determined to find a remedy which would prevent if not cure the fatal disease, and he believes now he has succeeded. The business has only been in operation a short time, but has saved thousands of dollars worth of hogs. He has several men in the field, and has cured a larger percentage of hogs treated than has been done by any other known remedy.
