John H. Shore, democratic and populist nominee for representative, has been a resident of Cherry county for the last 18 years, and is one of our most substantial and well known stockmen. He settled first about 25 miles west of Valentine, and six years ago moved to the Bordman county about six miles west of Kennedy, where he still lives. Before coming to Cherry he lived in Custer county, coming to that place in 1876. Mr. Shore's long residence in this county makes him qualified for the position to which he aspires because of his familiarity with the district's needs, but it is not upon this ground alone that we favor his election. He is a man of business, of worth and integrity. Plain spoken and open hearted, he is a friend to all who deserve friendship. He makes a splendid appearance, and this coupled with his good sense will retrieve the reputation of the 51st district which has at times been unfortunate in its selection of representatives. Our candidate is a free silver man and a friend of Senator Allen. This is, of course of paramount concern in the legislative campaign, but we are glad we do not have to stake our all upon it. Our people, regardless of party, can support John Shore because he is a man well qualified for the place.

The fusion forces of Cherry county are to be congratulated upon their candidate for county attorney—a better nomination could not have been made if they had all of northwest Nebraska from which to select a standard bearer. A. M. Morrissey is a young man, a good attorney, and a hard worker. Prior to taking up his residence in Valentine he worked with Capt. Allen G. Fisher, in Chadron. This alone is a guarantee of his ability. A New Yorker by birth, Morrissey is a Nebraskan by adoption, the major portion of his life having been spent in this state. He has proven his ability by working up a splendid law business in Valentine. His honesty has never been questioned, and his character is above suspicion. With no entanglements and no special friends among the law disturbing elements of society, trammled with no political schemes, having no connection with any criminal cases now in court, he will make an ideal prosecuting attorney. Full of energy, sober and industrious, the taxpayers will always have the satisfaction of knowing their interests are being cared for, if Morrissey is elected. He is a consistent free silver man, and his election will mean much to the friends of reform.

When Lillian Stoner resigned her office the county lost the best superintendent it ever had. To fill her place is a hard task, and this the democrat and populist convention realized when they nominated W. F. Morgareidge. This young man has upon many occasions demonstrated his ability as an educator, and it was merit alone that won him the nomination. Will is a Cherry county boy, and in addition to possessing a good education has a lot of hard common sense, and in the management of our schools this latter quality is a prime necessity. He received the major portion of his education in our county schools, secured a certificate and taught, and later finished his education with a course at the Nebraska Normal School, from which institution he graduated with high honor. His knowledge therefore of common school work is not merely technical, it is practical. He has had experience with not one grade alone, nor one kind of school, but all. This is a necessity in a superintendent, and taken alone should insure his election.

The democratic congressional convention meets in Broken Bow today. We understand that some of Greene's personal enemies will make a fight against his endorsement, but we believe he will receive the nomination just the same. It would be folly for democrats to play into the hands of the republicans in this congressional district this year. We have been told upon good authority that the republicans and their money "held up" the convention call for about 30 days.

An exchange tells of a merchant in a neighboring town who decided to spend every cent he made for one year in advertising. Long before the end of the year he found that this would be impossible, for the more he advertised the more he made. It wouldn't hurt some of our merchants to try the scheme anyway.

Dinner sets given away at T. C. Hornby's.

CLOTHING SALE

To make room for other goods we are going to close out all Men's, Youth's and Boys' Clothing regardless of cost
