J. W. Tillerson some time ago contested the Childers tree claim near Nenzel, and the contest having been decided in his favor, he was in town yesterday making homestead filing on same.

D. D. Dunn made this office a visit and stated that he just completed a very commodious dwelling on his home place on the north table. O. W. Hahn did the finishing, and the work speaks for him that of quite an expert.

Until C. C. Thompson put up his sign this week, the oldest livery sign we had ever seen was in Wilber, and read, "Hotel de Horse." Thompson's is a picture sign, and we understand a premium is offered to the one who will correctly read it.

A. T. White came over from Alliance last Friday morning to look after his Chesterfield mail route. He says he is doing a good business with his hotel, but this mail route is a corker. He has two new men driving though, now, and may make a success of it yet.

A Washington special, dated December 18, says that Dr. Walter G. Tucker has been appointed a physician at the Warm Springs, Oregon, Indian School. We are glad to chronicle this appointment, and wish Dr. Tucker success. We are told the position is a very good one.

Coursing has reached a very exciting stage in Valentine, and scarcely a week goes by without adding to the list of injured. Two weeks ago W. E. Haley was quite severely injured, and last Sunday John Simpson received a fall which almost broke his arm and Walter Meltendorf's horse almost killed itself.

J. A. Saults, of Gregory, was in town one day last week on business before the land office and made this office a pleasant call. He has been in this county several years, and is now one of our most substantial stockmen. He says he can make more money here in six months than he could in Iowa in ten years.

Wonder what has become of that \$1,000 coursing match Chadron had worked up against Valentine? Our sports have the dough to back their dogs and claim their dogs will win the dough, but we hear nothing more of the match. What's the matter with having a grand New Year's hunt and find out which town owns the best dogs?

The Knights of Pythias of Valentine will give a benefit mask carnival on Friday evening, January 20. The K. of P. have had a good many of their members in the Cuban campaign, and its exchequer has run low on account of caring for sick and wounded, they take this means of replenishing it. It will be advertised extensively and a large crowd is expected to attend.

The "Valentine Turkey Club" held an interesting session one day recently, five members being present. At the close of the meeting we are told one member was the proud possessor of six fine turkeys for Christmas. One had four and another three, while two forlorn members did not even get an invitation to eat dinner or stand at the window and smell the savory birds as they are carved next Sunday.

The F. E. & M. V. ice gang have up to date put up 305 cars of ice taken from the placid bosom of Lake Minnehaduzza. The ice averaged 16 inches in thickness, and was of the first quality. They intend leaving the car chute and spur track until next year, and are figuring on hauling the ice to the top of the hill on an endless belt next season. As a sample of what they did this year, 48 men and 18 teams cut and loaded 35 cars, Monday.

The Clara Hammer company closed a very successful week's engagement at Cornell Hall last Saturday night, playing Ole Oleson. The house was crowded to its utmost capacity, and even standing room was at a premium, although fifty extra seats had been provided. The company is an excellent one, and we have yet to hear a single word of harsh criticism regarding them. Being ladies and gentlemen they made friends when off the stage, as well as when on, and we predict crowded houses for them when they return from their western tour, some time in March or April.

It seems to be definitely settled now that the fast mail west from Chicago will arrive in Omaha after the first of the year at about 8 o'clock in the morning instead of three o'clock in the afternoon. If this change is made, the Elkhorn will necessarily leave Omaha in the morning instead of the afternoon as at present. Suppose the Elkhorn Black Hills train leaves Omaha at 8:30 a. m., the train will arrive in Valentine at 6 p. m., running at the same rate of speed it now does. This will be a great boon to all of the northwest, allowing us to get our mail the same day it is sent from the eastern part of the state, and giving us a daylight train.

Once in a while we hear a kicker who cusses the grain market at this place, but we are happy to say that these kickers are few in number. The mill here pays from 5 to 10 cents more for wheat than any other place in the state, and 3 to 5 cents more for corn. Corn is now worth 25 cents in Valentine, and in the eastern part of the state it brings but 20 cents. The price of oats is about as much higher than other points. We recently heard an amusing story which shows how the kickers fare. Three men of a thousand miles away came to town early in the season and asked what they could get for wheat. Forty-five cents was offered, and refused. The three loaded a car and shipped to a commission firm. After waiting for more than thirty days returns were received, and their wheat netted them just 30 cents per bushel. Farmers should bear in mind that market prices here are invariably higher than elsewhere.
