

LIZZIE M. BREWER,

Well Known for Deeds of Kindness and Philanthropy,

AN ARDENT ADVOCATE OF PE-RU-NA.

The Home of Mrs. Lizzie M. Brewer at Westerly, R. I.

In a letter to Dr. Hartman, concerning the merits of Pe-ru-na, Mrs. Brewer writes, among other things:

"Dear Dr. Hartman—I find Pe-ru-na a sure cure for all catarrhal affections so common in this part of the country. It cures a cold at once. There is no cough medicine that can do all equal Pe-ru-na. As for a gripe, there is no other remedy that can do all equal Pe-ru-na. I notice in medical journals, and from the testimony of my neighbors, that the doctors seem quite unsuccessful in treating a gripe, especially in removing the after-effects of a gripe. From personal observation in many cases I know that Pe-ru-na is a sure specific for these cases. I am among the sick a great deal in our city and have supplied many invalids with Pe-ru-na, simply because I am enthusiastic

in my faith as to its results. I have never known it to fail to quickly and permanently remove that demoralized state of the human system which follows a gripe.

"In all cases of extreme weakness I use Pe-ru-na with perfect confidence of a good result. In cases of weakness peculiar to my sex, I am sure that no other remedy can approach in good results the action of Pe-ru-na. It meets all the bad symptoms to which females are subject. The irregularities and nervousness, the debility and miseries which afflict more or less the women from girlhood to change of life, are one and all met and overcome by this excellent remedy. I wish every young lady in our city could read your book, 'Health and Beauty.'"

"Mrs. Lizzie M. Brewer."

The Laborer and His Hire.

"Run back to the hotel and see if I left my watch in my room. Here's half a dollar if you're back with it before the train starts."

The intelligent messenger boy was off like a shot.

He was back just as the train was pulling out.

"Yes, sir," he cried; "you left it there. I saw it myself. Gimme my half dollar!"—New York Journal.

COMBINATION OF HEALTH AND WEALTH.

New Districts in Western Canada Adapted to Ranching and Mixed Farming.

Calgary, Alberta, Nov. 4, 1898. To the Editor of the Duluth Evening Herald, Duluth, Minn.:

Dear Sir—As to many replies to the some-seeker of Minnesota, I can cheerfully say this country is better for a poor man than Minnesota if he wants to farm and raise stock. I have spent one winter and two summers which I find more pleasant than any winter I have seen in Minnesota for eight years. The seasons are short, but the effects of long bright sunshine produce a very

growth of vegetation. There is money in raising coarse grains and to hogs and cattle, for pork and ways bring a good price here. The wheat worth from \$4 to \$4.50 live weight, and beef about the same.

There is plenty of railroad land to be had very cheap and on long time payments. A man does not want to think he can pick up money on the ground here, but there is lots of it in the ground and labor will take it out.

There is a vast scope of country north of Edmonton, Alberta, which can be settled and a large scope of country west of Edmonton adapted to ranching and mixed farming.

This country is the best place I have ever seen for the cure of consumption. I could refer you to different people here who were in the last stages of consumption, who are now in perfect health and able to do any kind of hard work and are very prosperous.

Hoping this may benefit home-seekers who are willing to work for an honest living, I remain yours very truly,

(Signed) CHARLES M. SCOTT. Any agent of the Canadian Government will gladly give information as to settlement, terms and rates.

Insulted.

"I suffered nearly all night from insomnia," said the drummer.

"I'll bet you \$2," roared the country landlord, "that they ain't one of 'em in my house."—Indianapolis Journal.

Good Reason.

He—Why are you so cold? She—It may be because you are something of a frost.—Indianapolis Journal.

Easily Gotten Over.

A cripple from a sprain is one who neglects to use St. Jacobs Oil to cure it. Prompt use of it brings prompt cure, and the trouble is gotten over easily.

An Unhindered Mind.

WOMAN AT HOME

MISTRESS AND MAID.

MISTRESSES stand in need of reform as well as maids, and the time has come when housewives must realize that the relations between them and their servants cannot be those of slave and his owner. Moreover, the sooner it is realized by every mistress that all the cardinal virtues are not to be found in a single individual, the sooner will she establish the domestic peace of her household. Even were it possible to find young women so richly endowed by nature, that no fault could be found with them, they would be worth more than a few pounds per annum to any family. Directly we produce servants with angelic tempers and an abnormal love for work, who never want rest or holidays, or a watchful eye over them, they will be worth whatever they demand. But until the millennium comes we have no hope of finding domestics of this type, and meanwhile our best chance of securing better service is to realize that, as the mistress is the pivot of the whole domestic machinery, she ought to come much nearer to perfection than those she governs, says the Lady's Pictorial. And the best mistresses are those who do not look for perfection in servants, and yet strive to bring them by easy stages to that ideal state. What is more and of the utmost importance is that mistresses should not blind themselves to the fact that their maids are of like passions with themselves. They need to be considered in little matters sometimes. Their work is monotonous, their hours long, their duties many, and their temptations often very great. All these things are frequently forgotten by those who employ them, with the result that domestics resent being treated as machines, and rebellion ensues. There is, however, a wide distinction between showing consideration to employes and pampering them. There is no need whatever to treat one's servants as if they were distinguished guests; but, on the other hand, it is a fatal policy to show them less consideration than one's dogs, and to act towards them on the principle that as much value as possible is to be got out of them for the lowest possible remuneration.

meet contingencies of life than for boys, since there are more occupations wherein young men can succeed in the world than young women. Apart from possible professional or business life, the future home-and-society-makers of America go to college for love of study, and for the broader and better culture which college training gives them. If the great need of a nation is mothers, as Napoleon said, it looks as if twentieth-century Americans are to have healthy and well-educated mothers, to give the best possible start in life. There is no more nonsense talked about the health of college girls. Most of them improve in strength and in poise of nerves, during their years with their books. Early hours, regular tasks and all the forms of modern girls' athletics keep up the standard of good health during the years of special intellectual training of the daughters of America, in all her colleges and universities."

Woman's Watch Pocket. The originators of late fashions have solved a problem which has puzzled women ever since women's watches were first made. They have decreed a new pocket for dresses. That pocket is a watch pocket, and it is located on the inner part of the left sleeve, midway between the wrist and the elbow. The little pocket, from the outside of which a circular piece the size of the

watch face has been cut, is conveniently seen and can be readily reached by the right hand. The flap of the pocket is padded with soft material, so there is practically no danger of breaking the watch. The watch is slipped into the pocket from the side and buttons secure it from falling out. As in the case of the wrist watches which were much worn several years ago, the face is always in plain sight, and the time of day may be seen by the wearer at a glance.

NEW WATCH POCKET.

Uncompanionable Wives. When you come to think of it, says Dorothy Dix, in the New Orleans Picayune, the situation is like this: For the great majority of women, their sole chance of happiness is bound up in their husbands and homes. If their homes are unpleasant; if, after the first fervor of love in the honeymoon passes, they fall to be companions and chums with their husbands, they have laid up for them a future of desolate wretchedness.

Now, this being the case, one would think that any woman with a single, solitary glimmering of reason would, it only for her own selfish benefit, make every effort to render herself so agreeable and so attractive that her husband would prefer her society to that of any one else. But do they? Gracious, no! There is nothing else in the world that fills me with as much amazement as the recklessness with which women deal with their husbands. I know plenty of women who never let their husbands make a statement without contradicting them, who parade their husband's failings before company, and who, if there is some one topic that can always bring on a family row, never miss a chance to lug it into the conversation. And these women actually complain when their husbands go off to seek congenial company elsewhere. Think of it!

When Tots Toe In. The little tots who are inclined to "toe in" when they begin to walk can have this fault quickly rectified if attended to in time, says the Philadelphia Times. The mother or nurse should rub (at least twice a day) the outer side of the little legs with a firm upward stroke. Hold the little foot in your hand in the correct position. Recollect, do not rub down, and not on the inner side of the leg. The object is to nourish and strengthen the outer muscles, which are proportionately weak. Begin below the ankle, and rub to the knee, slowly and quietly, but not too lightly. This treatment faithfully persevered in will soon correct the trouble.

TO BREAK UP A COLD.

It is much more difficult to break up a baby's cold than an older person's. Oiling the throat and chest with some penetrating oil every night and laying a warm flannel over it should be done as soon as a cold is visible. A few drops of pure olive oil should be given if there are any signs of a cough. It is wise to oil the bridge of the nose and over the eyebrows to loosen a cold in the head. Always be careful to keep a baby sufficiently warm. It is safer to have a hot water bag or jug at the feet. If the cold grows more severe give a hot bath in a warm room. Oil thoroughly the entire body and wrap in flannels and blankets.
