The Whole Truth!

There's nothing so bad for a cough as coughing.

There's nothing so good for a cough as Ayer's Cherry Pectoral.

The 25 cent size is just right for an ordinary, everyday cold. The 50 cent size is better for the cough of bronchitis, croup, grip, and hoarseness. The dollar size is the best for chronic coughs, as in consumption, chronic bronchitis, asthma, etc.

DOLLAR OF 1804 IS A MYTH.

This Is an Assertion of the American Journal of Numismatics.

Is there an American dollar of the date of 1804? If there is, it is worth a fortune, for it is one of the jack o' lanterns of numismatics. In a recent issue the American Journal of Numismatics goes into an interesting account of what it terms the "myth of 1804 dollars," and denies that any such coin, struck in that year, is in existence. Like comets, these alleged coins have been turning up in most unexpected places for nearly a century. Recently coin dealers were excited by a story from Racine, Wis., which told how a women went into a dry goods store to buy a spool of thread and tendered in payment a worn silver dollar, saying that she did not know whether it was good or not. The clerk saw the date "1804" on the coin, put it into his pocket, and threw a new silver dollar into the cash drawer. He was offered $1,500 for the old coin by a dealer, but refused to sell. In this way the story got out, and the clerk's employer put in a claim to the 1804 dollar. Both men have employed lawyers to defend their titles, and now the woman shopper is preparing to bring suit for the possession of it.

For years, Mr. Nexsen, an expert of Brooklyn, N. Y., has made a study of the subject. He has convinced himself and other competent judges that no genuine 1804 dollar was ever coined. He has become convinced that the alleged dollars of that date are alterations of Spanish, Mexican, Bank of England 5-shilling pieces, or some such fraud. It is believed that an experimental die with milled edges was made but not used in 1804. In 1842 some one, perhaps surreptitiously, struck a few dollars on this old, unused die, and it is these that are occasionally found.

A Means of Defense.

By the aid of an embryoscope or egg-glass, sealed letters may in many cases be read without opening the envelopes. Suppose the writer of a billet, the contents of which are known only to himself, lets it out of his hand and loses sight of it for five minutes, it may be readily carried either into the direct sunlight, into electric or magnesium light, and be read by the aid of the egg-glass. The placing of a piece of cartridge-paper in the envelope, or the coloring of it black, is a means of defense at hand. In their present form, telegrams cannot be protected from perusal, unless delivered at once into the hands of the addressees.

THOUSANDS OF PREMATURE DEATHS CAUSED BY NEGLECT.

Every Person Can Prolong Life and Enjoy Health and Happiness Who Will Listen to the Voice of Progress.

If you want to open a door, you don't smash it with a crowbar, but open it with a key.

It's easier and less destructive.

When you are costive, or bilious, or constipated, don't take an old-time dose of physic, throw your bowels into spasms and turn your liver inside out, as long as everything can be set right, in a nice, gentle, quiet, positive, natural way by Cascarets, the ideal laxative.

We have all found out that persuasion is stronger than violence.

Instead of trying to force your disordered organs to do their duty, Educate Your Bowels and make them act naturally by using Cascarets Candy Cathartic, so pleasant to the taste, so mild, so effective. They are guaranteed to cure any case of constipation or money refunded.

Buy and try Cascarets to-day. It's what they do, not what we say they'll do, that proves their merit. All druggists, 10c, 25c, 50c, or by mail for price. Send for booklet and free sample. Address Sterling Remedy Co., Chicago; Montreal, Can.; or New York.

A Pessimistic View.

"This," said the medical student, as the echo of the boarding-house gong resounded through the corridors, "is where we get our bone and sinew."

"Yes," observed the cynical boarder, "and it's considerable more bone than sinew."

MAILS FOR THE YEAR.

Annual Report of the Postmaster General Made Public.

Postmaster General Charles Emory Smith, in his annual report, devotes more space to the abuses in second-class mail matter than any other one subject. The most urgent need of the postal service, he declares, is the rectification of the enormous wrongs which have grown up in the perversion and abuse of the privilege accorded by law to that class of mail matter. This reform was paramount to all others.

"There are," he says, "many improvements and advances waiting development and application; there are opportunities for speedier transmission and delivery; there are fields for broadening the scope of the mail service and bringing it closer home to the people; there are possibilities of reduced postage; but above and beyond all of these measures of progress which experience and intelligence are working out, is the redemption of the special concession which Congress granted for a distinct and justifiable object from the fungus growths and the flagrant evils that have fastened upon it.

"For this costly abuse, which drags on the department and weighs down the service, trammels its power and means of effective advancement in every direction, it involves a waste of $20,000,000 or upward a year. The postal deficit for the current year is $6,610,776. But for this wrongful application of the second-class rate, instead of a deficit there would be a clear surplus of many millions.

Statistics of the different classes of matter carried in the past year are quoted in the report, from which an estimate is made that one-half the matter mailed at second-class rates (176,371,613 pounds) is improperly classified, and should justly be paid for at third-class rates. These figures, says the report, show:

1. That more than one-fourth of the entire volume of weight of matter carried through the mails is rated, and pays as second-class matter, when under the spirit and intent of the law it ought to be rated and to pay as third-class matter.

2. That while this wrongly classed matter amounts to more than one-quarter of the whole volume of mail transmitted, it furnishes only one fifty-fifth part of the postal revenue.

3. That the expense of transportation being reckoned at 8 cents a pound, the mere carrying of this matter costs $14,108,129, while the revenue from it was only $1,763,516, involving a loss to the Government of $12,344,613.

CLOSE AFTER "AGGIE."

Insurgent Leader Heading for Montoc Followed by Maccabebes.

Advices from Manila report that Wilder's Maccabebes are closely following the Filipino leader. Gen. Young, with a troop of cavalry and a battalion of the Thirty-third infantry, is cutting his way from Vigar to Bangued, where the American and Spanish prisoners are held by the Filipinos. Maccabebe scouts have been placed between Namagapacan and the mountains to prevent the rebel's retreat. Maj. Swigert, with three troops of cavalry, is patroling the coast and hopes to cut off Aguinaldo's escape by sea.

A dispatch from Hong Kong reports that Aguinaldo has been in communication with the Filipino junta in Hong Kong. The members, it is said, assured him of a safe haven in Hong Kong and advised him to throw himself on the mercy of the United States consul.

AGUINALDO'S COAT OF ARMS.

Vigan, the chief port of South Itocos, occupied by an American garrison, was attacked by a large body of insurgents with a loss to the defending forces. It is reported that eight Americans were killed and fifty wounded. The rebels were repulsed, however, after a hard fight, and were finally routed and fled through the mountains. The rebels are believed to have suffered severely.

BIG RATE WAR IS ON.

Involves All Railroads from New England to the Pacific Coast.

A passenger rate war has begun which threatens to become the greatest ever known. Already all the lines forming direct routes from New England to California are involved. From present indications the war will be between the Vanderbilt and Pennsylvania systems, and the Northwestern, Rock Island, Burlington and St. Paul roads on one side, and all the differential lines between Chicago and the Atlantic coast, with the South ern Pacific, Santa Fe and Illinois Central roads on the other side.

So far only rates on traffic to California are seriously affected, but signs of demoralization are apparent on all classes of traffic. The present trouble grows directly out of the old controversy of Eastern railroads over differential rates. Second-class tickets from Boston to San Francisco are being sold for about $10 less than the regular second-class rate from Chicago to San Francisco.

OLDEST MAN IN AMERICA

Tells How He Escaped the Terrors of Many Winters by Using Peruna.

Mr. Isaac Brock, the Oldest Man in the United States.

Mr. Isaac Brock, of McLennan County, Tex., has attained the great age of 111 years, having been born in 1788. He is an ardent friend to Peruna and speaks of it in the following terms:

"During my long life I have known a great many remedies for coughs, colds, catarrh and diarrhoea. I had always supposed these affections to be different diseases, but I have learned from Dr. Hartman's books that these affections are the same and are properly called catarrh.

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only remedy for these affections.

"Peruna has been my stand-by for many years, and I attribute my good health and my extreme age to this remedy. It exactly meets all my requirements.

"I have come to rely upon it almost entirely for the many little things for which I need medicine. I believe it to be especially valuable to old people."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

Ocean and Earth.

A bucket 743 miles deep and 743 miles from side to side would hold every drop of the ocean. This bucket could rest quite firmly on the British Isles. To fill the bucket one would need to work 10,000 steam pumps, each sucking up 1,000 tons of sea. But to get rid of the earth would be 4,555 times more difficult, requiring 2,000 great guns, each firing 1,000 projectiles a second, each projectile consisting of 100,000 tons of earth. At the end of 1,000 years this mundane sphere would be all shot away.

The John M. Smyth Co. Have No Agents.

The well-merited popularity of the great mail order establishment of the John M. Smyth Co. of Chicago seems to have induced unscrupulous parties to go through the country and falsely represent themselves as sales agents for this house. By thus representing themselves they have succeeded in imposing upon many by selling goods and taking cash and notes from victims who actually believed they were purchasing goods from the representatives of the firm direct. The John M. Smyth Co. have no agents and denounce as frauds all parties traveling through the country and claiming to represent the firm. The public should be on the lookout for such impostors.
