Court House Bonds.

A proposition to vote \$15,000 bonds tor a court house for Cherry County was submitted to the county commissioners. After two days' considerations the vote was taken. Commissioners Spratt and Hanchett voted for, and Burr against the proposition. The proposition carried and will be submitted to the people at the November election for a vote. This our people and it should be thoroughly discussed.

Came Near Dying

"For three days and nights I suffer- is being repaired. ed agony untold from an attack of cucumbers," says M. E. Lowther, clerk | Monday morning. of the district court, Centerville, Iowa. "I thought I should surely die, and Miss Cook's room. tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely. I went to sleep and did not awake for eight hours. On awakening a few hours ago I felt so gratified that the first work I do on going to the office is to write to the manufacturers of this remedy and offer them my grateful thanks and say, 'God bless you and the splendid medicine you make", For sale by Quigley & Chapman, druggists.

M'KINLEY PUT

Our Priceless Principles Do Not Always Go With the Flag.

In his address before the Home Market club at Boston on Feb. 16, 1899, President McKinley said:

Our priceless principles undergo no change under a tropical sun. They go with the flag. They are as are its shining stars.

That was only a year and a half ago, and now when the Democracy proposes to send our priceless principles along with our flag it is accused of treasenable encouragement to the

Some of our shining principles are embodied in the Declaration of Independence. But the Republican party holds that the Declaration of Independence is out of date. Some of them are contained in the constitution. But the Republican party maintains that the constitution does not follow

President McKinley's recently published instructions to the Philippine commission show that Judge Taft and his colleagues were directed to assume on the 1st of September the legislative powers of the military governor, leaving him still in full possession of the executive power. We have had then: First .- A military governor possess-

ing absolute legislative and executive Second.-A division of those powers between the governor and five appoint-

ed officials. Third.-All this by the fiat of a single man, the president, who has created this whole system of irresponsible government on his own unfettered au-

It is this that Secretary Long had in mind when he said at that same meeting of the Home Market club:

It is certain cause for congratulation that the extreme imperialists who resisted the treaty have been signally overthrown. By resisting its ratification they have been insisting upon the extremest imperialism and have out-Heroded Herod. They not only would have prolonged the war with Spain, but would not have taken out of the hands of one man, the president, absolute authority over the Philippines, limited only to the indefinite scope of what is called the war power, wielded by a purely military arm holding a naked sword. Think of that for imperialism! It is a great credit to the president that, like Julius Cæsar and George Washington, he has refused this offer of a kingly crown. On the contrary, the good old Democratic plan has been adopted of putting the disposition of these islands into the hands of the American people, who will duly express their will through their rep-

sentatives in congress assembled. The president put on that crown aft-

New Men In the Supreme Court. As for the "reorganization" of the supreme court, the only way to "reorganize" is to appoint new men to vacancies as the present judges retire or die off. If two judges should die next week, the president would "reorganize" it to that extent, and you may be sure that he would select only such men as he knew in advance would sustain his administration's interpretation of the constitution under the imperialistic policy. Why, then, the dreadful charge that Bryan would "assault" the supreme court by placing in it judges in favor of a national income tax? Would McKinley "assault" it by naming such men as Griggs?-Springfield (Mass.) Republican.

Whenever any Republican holds up before you the full dinner pail argument, ask him what he thinks of the anthracite coal region. Ask him what he thinks of less than \$1 a day, which is received by the men less than \$1 a day the year around. Under these circumstances what is there for the laboring man to improve his condition ?- W. J. Bryan.

Proceedings of the Anti-trust Conference.

The proceedings of the national antitrust conference in Chicago Feb. 12, 1900, have been published by George S. Bowen & Co., Unity building, Chicago, in a handsome volume containing numerous half tone portraits of the principal speakers and the chief addresses in full. It is a book full of points for all who are interested in the anti-trust cause.

The American workingman has a head as well as a stomach. Give him a fair chance to use the first and he will have no trouble to take care of the latter.

Prosperity Vindiented.

About 142,000 jobs are looking for men in the anthracite coal regions. Men willing to take the place of anthracite coal miners who struck against starvation wages will find plenty of work in Pennsylvania and Ohio. This is another vindication of the Republican claim of "plenty of work for men who want to work" under the McKinley administration.

The Republican trusts and free immigration are making tramps of hundreds of thousands of Americans, who, with a fair chance in life, would be first class citizens.-New York News.

173 PER CENT, ANNUALLY. That's the Prolit-Copper, the Article-Mexico, the Country.

"El Progresso" in its group of six mines has some of the rtchest copper ores in the richest nining country in the world Ore runs 12 per cent copper, 12oz. silver, a trace of gold, total value, about \$43 a ton, and in two of the mines, on addition to copper and silver, ore contains 3 percent to 51/2 per cent quicksilver or merculy, bout \$105 a ton. The great Lake Superior copper mines—Calumet, and Hecia, Wolverine and famarack, Quincy, etc.,—that annually return millions, run only from \$3 to \$13 a ton.

Boston and Montana six years ago sold for 315 a share, to-day, \$275, paying 240 per cent on the investment. United verde sold for 50c a share, today stock not in the market and pays 3,666 per cent on investment.

Calumet and Hecla sold for \$1 a share, to-day worth \$800, and pays on investment 10,000 Entire capital stock of United Verde was off-red for \$150,000 and refused. Senator Clark, ater, paid \$260,000, and to-day he has annual neome from this property of over \$13,000.000. If this is possible here with labor six times higher than in Mexico, with ore five times less valuable, wite fuel five times dearer, and every thing else in proportion, do you doubt that El Progress will return 173 per cent and more, anna lly, to original investors, to first stockholders who contribute the money to start "the ball

olling," who are on the "groun i floor?" Am experienced, know the country, the peoole, the language, lived there 18 years, and know the mines of this section of Mexico, and unhesitatingly state El Progreso is the best; have been worked for generations in a Mexican way, and supplied the copper for the surroundng country. No attempt was ever made to exract the gold, silver or quic silver.

A modern 40-ton concentrating and smelting plant—smelting only the \$43 ore—will return \$400,000 per annum; thus \$43, \$10 for treatment. quals \$33x40 tons equals \$1,320 a day, for 300 ays equals \$396,000. This will pay 26 per cent n \$1,500,000 total capitalization. Par value of mares \$1.00. 900,000 shares are treasury stock, and 400,000 of this to be sold very low to raise noney to start things when price will be greatly advanced -100,000 at 12c (all sold), 100,000 at 15c,
