

# THE VALENTINE DEMOCRAT

I. M. RICE EDITOR

This paper will be mailed regularly to its subscribers until a definite order to discontinue is received and all arrears are paid in full.

There is a great deal of talk about re-organizing the Democratic party by the Republican papers. However they also talk about getting up a new party for the Democrats so they can win in 1904.

We want to say right here that any Democrat who would let the Republican party advance the theory of what measures to win on is too much of a spoilsman to be a Democrat. If our principles are right now and over 7,000,000 people thought so on the 6th day of November in the face of offered bribes, coercion and intimidation which coupled with the desire to be with the popular monied class cost the Democratic party upward of two millions of votes, they are good enough to stand by for another four years unless new issues are forced upon the people by the Mark Hanna & Co. type. As to the future welfare of the Free Silver Republicans they will join the Democratic party if our principles remain for the interests of the masses. The Populists may maintain a separate organization just to compel the Republican party to contribute to the Middle of the road Populist party but as their principles are the same as that of the Democratic organization, the platform is in the interest of the common people and there will be no misunderstanding between them, as party organizations, and each will be in harmony with the other.

There are some fanatics who delight in being opposed to everything that has a chance for success unless they are recognized as leaders and they of course have some following and will try to organize a new party to take the place of the old, and get in on the ground floor as a leader. Their plan is to rule or ruin. They are not willing to cheerfully do the work that their hands find to do for the good of their country. In fact we often doubt if our country's good ever enters their minds except it comes through their own efforts, and to be lauded by their fellow men seems to be their chief desire.

There are too many men of this class in all parties, and if they are not willing to vote and work for Republican principles because of prejudice against the Democratic party they will unite with Social Labor or try to form a new party to suit their peculiar views and are encouraged by the party whose views are in direct opposition as a means of dividing the great party against them, thus assisting in their defeat.

The Democratic party has been divided into several divisions since 1856 while the Republican party stood alone until 1896 when it was divided, the branch being called Silver Republican, and an element known as the anti-trust, anti-imperialist and anti-militarism in 1900. Division in 1856 caused the downfall of the Democratic party; so this division of the Republican party is the beginning of the end provided Democratic party will unite their forces on one candidate with principles for the good of the common people.

### Six Frightful Failures.

Six terrible failures of six different doctors nearly sent Wm. H. Mullen of Lockland, O.; to an early grave. All said he had a fatal lung trouble and soon must die. But he was urged to try Dr. King's New Discovery for consumption. After taking five bottles he was entirely cured. It is positively guaranteed to cure all diseases of the Throat, Chest and Lungs, including Coughs, Colds, LaGrippe, Pneumonia, Bronchitis, Asthma, Hay Fever, Croup, Whooping Cough. 50c and \$1.00. Trial bottles free at Elliott's Drug Store. 1

Subscribers may begin at any time and paper will be discontinued when so ordered and accounts paid in full to date.

The DEMOCRAT has the largest circulation of any newspaper published in the northwest. Only \$1.00 a year in advance.

Levi Sparks came down from Cody today to spend a couple of days in town. Everybody likes to meet Levi and will enjoy his visit.

Wanted at once—A boy fifteen or sixteen years old to do chores in a private family—\$10 a month and board. Address Lock Box 277, Valentine Neb.

LOST—Black Gordon Setter dog, answers to the name of Nig, Sunday evening Nov. 11th, from Anson Newberry's place four miles north of Cody. \$10 reward for the return of dog to the owner. L. W. Handy 3t Valentine Neb.

Any typographical inaccuracies in this issue may be laid to C. E. Verity, a former publisher of this city, who struck town last night and threw up enough type to pay for a square meal. He now travels for the Western News paper Union of Omaha and Lincoln.

El L. Heath, formerly editor of the Rushville Standard, is starting a newspaper at Cody this week. Mr. Heath is a popular man and we predict a successful newspaper. Cody is a growing town and no doubt will appreciate Mr. Heath's efforts and give him their hearty support.

On and after this date, the regular Sessions of Minnehaduzda Lodge No. 192 A. F. and A. M. will be held on the Second Tuesday of each month and on the festival of St. John the Baptist. The next regular session will be held on the second Tuesday in December at 8 P. M. Work in the first and second degrees. Visiting brothers cordially invited.

### A Village Blacksmith saves His Little Son's Life.

Mr. H. H. Black, the well-known village blacksmith at Grahamsville, Sullivan Co., N. Y. says: "Our little son, five years old, has always been subjected to croup, and so bad have the attacks been that we feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale at Quigley & Chapman's. 1

### PULLED OUT.

Last Saturday evening our printer, Wm. Ennis, after drawing his week's pay, pulled out on next train for the west. No notice was given the Editor of his dissatisfaction nor of his intention to leave. Nor did we know that he was gone until a letter came Monday morning informing us that he had concluded to change pastures.

We have depended upon this young man to run the office since entering upon our duties as Editor, and at different times advanced money to contribute to the comfort and happiness of our helper. At one time put up several week's salary in advance, and now, for our pains, we are left without help and without notice of departure. There ought to be enough honor about a man to give notice that we might get some one to fill the place and for that matter, if Billy had told us that he wanted to quit Saturday evening instead of pulling out without a word, we would have felt better toward him. If the paper were a private concern it would also be different, but when subscriptions are received for the paper we are under obligations to furnish it and think too much of a trivial matter. Two printers are now wanted on the DEMOCRAT.

The boy quit came to work at eight but always quit at noon. He worked at ease whenever he pleased, but it hurt him after six. Throw in the type or leave it piled; leads, slugs and quads pick out. Let matter go to make a show, when week ago it died. A printer wanted for honest work to take the foremost place of printer's work, and not to shirk or leave us in disgrace. And if you find the work so hard you cannot hold your job, don't fly the coop without a word of warning to the boss.

There is a land where darkest night and printing troubles ne'er come; where men may know their office men and printers are not on the bum. They set the type, for better days will surely bring reward; don't fly your job when work is hard, or you'll repent your ways.

When Billy had things all his way to work or play at will, he kicked at every man he hired, they did not fill the bill. But when the rush on press day came, and forms were not made up, he blamed the boss, we took it all, but the paper came out late.

### Big Figures

Supplementing articles we recently published concerning the production and consumption of copper, the following table shows the value of copper manufactures of all kinds, including copper in bars, plates and ingots, exported in each year from 1890 to 1899:

1890	\$2,349,392	1895	\$14,463,703
1891	4,614,597	1896	19,720,104
1892	7,226,392	1897	31,621,125
1893	4,525,573	1898	32,180,872
1894	19,697,140	1899	35,983,529

Copper mining is probably the most profitable enterprise of the day, and it is more stable than any other class of mining. Given a property where ore exists in sufficient abundance it can be made to pay well. The uncertainties of gold mining are not present in the mining of copper. The outlook at present for profitable copper mining was never as bright as it is today. An unusual opportunity is afforded of becoming interested in an enterprise of that character is presented by El Progreso Copper Mining Co. The Company's advertisement in this issue concisely states the case. As the property has been worked for generations there can be no speculation about it, and it seems to be a project where only capital is needed to very profitably develop its great resources.

### Chamberlain's Cough Remedy in Chicago

Higgin Bros., the popular South Side druggists, corner 69th street and Wentworth avenue, say: "We sell a great deal of Chamberlain's Cough Remedy, and find that it gives the most satisfactory results, especially among children for severe colds and croup."

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then press it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily; rubbing vigorously for five or ten minutes at each application. A corn plaster should be worn for a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by Quigley & Chapman. 1

### LEGAL NOTICE

Order for Hearing of Final Account. In the County Court of Cherry County, Nebraska, in the matter of the Estate of Thomas P. Johns, deceased.

Now on this 24th day of November, 1900, came Nellie L. Johns, executrix in said Estate and prays for leave to render account of such executrix.

It is, therefore, ordered that the 24th day of December, 1900, at 10 o'clock a. m. at my office in Valentine, be fixed as the time and place for examining and allowing such account, and the heirs of said deceased and all persons interested in said Estate are required to appear at the time and place so designated, and show cause, if any such exists, why said account should not be allowed. It is therefore ordered that said Nellie L. Johns, executrix give notice to all persons interested in said Estate by causing a copy of this order to be published in the Valentine Democrat, a newspaper printed and in general circulation in said county, for 3 weeks, prior to the day set for hearing. W. B. TOWNE, County Judge. 42 3t Dated November 8, 1900.

### Order to Show Cause.

In the District Court of the 16th Judicial District in and for Cherry County, Nebraska.

In the matter of the estate of Annie E. Hand, deceased. This cause came on for hearing upon the petition of Alfred Lewis and Lewis W. Handy, executors of the estate of Annie E. Hand, deceased, praying for license to sell lots 1, 4, 8, 9, and 10, and also the 3/4 NW 1/4 of section 19, and lot 7 in section 17, all in township 33, range 27 west, or a sufficient amount thereof to bring the sum of \$1000, for the payment of debts allowed against the estate and the costs of administration, there not being sufficient personal property to pay said debts and expenses.

It is therefore ordered that all persons interested in said estate appear before me at Husville, Nebraska, on the 17th day of December, 1900, at 10 o'clock a. m. to show cause why a license should not be granted to said executors to sell so much of said real estate of the deceased as shall be necessary to pay said debts and expenses. It is further ordered that this order be published for four weeks in the Valentine Democrat, a newspaper published at Valentine, Neb. Dated this 14th day of November, 1900. ED. CLARK, 434 Attorney, Judge of the District Court.

Send \$5 to the Drummond Medicine Co., New York, and the full treatment of two large bottles will be sent to your express address. Agents wanted.

### 173 PER CENT, ANNUALLY.

That's the Profit—Copper, the Article—Mexico, the Country.

"El Progreso" in its group of six mines has some of the richest copper ores in the richest mining country in the world. One runs 12 per cent copper, 12oz. silver, a trace of gold, total value, about \$43 a ton, and in two of the mines, in addition to copper and silver, ore contains 3 percent to 5% per cent quicksilver or mercury, about \$105 a ton. The great Lake Superior copper mines—Calumet, and Hecla, Wolverine and Marquette, Calumet, etc.—that annually return millions, run only from \$3 to \$13 a ton. Boston and Montana six years ago sold for \$15 a share, to-day, \$275, paying 20 per cent on the investment. United Verde sold for 50c a share, to-day stock not in the market and pays \$6,646 per cent on investment.

Calumet and Hecla sold for \$1 a share, to-day worth \$200 and pays on investment 10,000 per cent. Entire capital stock of United Verde was offered for \$10,000 and refused. Senator Clark, later, paid \$200,000, and to-day he has annual income from this property of over \$13,000,000.

If this is possible here with labor six times higher than in Mexico, with ore five times less valuable, with fuel five times dearer, and every thing else in proportion, do you doubt that El Progreso will return 173 per cent and more, annually, to original investors, to first stockholders who contribute the money to start "the ball rolling," who are on the "ground floor"? An experienced, know the country, the people, the language, lived there 18 years, and know the mines of this section of Mexico, and understandly state El Progreso is the best; have been worked for generations in a Mexican way, and supplied the copper for the surrounding country. No attempt was ever made to extract the gold, silver or quick-silver. A modern 40-ton concentrating and smelting plant—smelting only the 843 ore—will return \$200,000 per annum; thus \$25, \$10 for treatment equals \$3340 ton equals \$1,320 a day, for 300 days equals \$396,000. This will pay 20 per cent on \$1,500,000 total capitalization. Par value of shares \$1.00, 100,000 shares are treasury stock, and 400,000 of this to be sold very low to raise money to start things when price will be greatly advanced—100,000 at 12c (all sold), 100,000 at 15c, 100,000 at 20c, 100,000 at 25c.
