THE LIVE STOCK MARKET.

Latest Quotations from South Omaha and Kansas City.

SOUTH OMAHA.

Union Stock Yards.—Cattle.—There was another very light run of cattle here today. Packers and yard traders were all willing to take a few cattle and as a result the market was stronger all around. There have been so few cattle on sale that the yards are well cleaned up and consequently next week will open with practically empty pens. The few fat cattle on sale met with ready sale at stronger prices. There was one bunch of choice steers on sale that were about the best that have been seen here in a long time and they sold for \$5.50. The receipts, though, have been so light that the market has not been very thoroughly tested. Cows and heifers of all kinds were in good demand this morning and sold higher all around, owing to the fact that there were not enough to meet the requirements of the trade. The feeder market has also braced up a little. The demand from the country has not been very heavy, but still there have been enough buyers on the market to take all that was coming at good strong prices. A very few western grass beef have been coming this week, but it is safe to call the market good and strong on all better grades. The cows, heifers and feeders have been selling higher, the same as is noted above for the native cattle.

Hogs.—There was not a very heavy supply of hogs here today, but as all other markets were lower prices here went off a good many this morning. The market started out with packers bidding \$4.70 on the better grades of light and butcher-weight hogs, and \$4.67 1/2 on the heavier grades. Sellers were not willing to take those prices on the start, but finally gave it up and cut loose at those figures. Trading, however, was not active at any time, and the morning was well advanced before the pens were cleared.

Sheep.—There were only three cars of sheep on sale today, and those were bought up by packers in good season at just about steady prices. There was a bunch of wethers that brought \$4.65, but they were choice. The market on fat stuff, both sheep and lambs, has been in good shape all the week and prices have been very little change. Receipts have not been heavy, and the demand has been sufficient to take all that was offered at good steady prices. Good feeders have also shown very little change for the week.

KANSAS CITY.

A TRUCE FOR THE BOERS.

London Statist Proposes Negotiations With Generals Botha and Dewet.

LONDON, Dec. 1.—Tomorrow the Statist will propose that the government should begin negotiations with Commandant General Botha and General Dewet to bring the war to a close. As the Boer leaders might misunderstand the motive of an overture from the military, it will suggest that the highest civil authority in Capetown should begin the negotiations, if not Sir Alfred Milner, then the chief justice of Cape Colony, or even Mr. J. F. Hoffmayer.

This great financial journal will lead up to its proposal by an analysis of the situation in South Africa and will say:

"We are losing in every way; losing in prestige and losing in life. We are seeing our South African possessions plunged into greater distress and the opinion is gaining ground abroad that we are incapable of bringing the struggle to a satisfactory termination. Military incompetence will be alleged and the Statist will aver that military harshness should be avoided and the Boers be conciliated."

Looking at Our Warships.

SAN FRANCISCO, Nov. 29.—A party of distinguished Japanese officials arrived in city on the steamer Nippon Maru. Captain T. Matsuo and Commander K. Yamada will inspect some of our modern war vessels and, provided satisfactory terms can be made, negotiate for the construction of one or two gunboats or cruisers. They will then go east and to England to inspect the torpedo boat destroyers now being built there for Japan.

Farmer Burned in a Car.

REINBECK, Ia., Dec. 1.—Peter Peters, a German farmer of this city, was burned to death in his emigrant car, while on the side track near Gladbrook. He had purchased a farm in South Dakota and was on his way there. Six head of cattle and three horses and his household goods were burned. Peters leaves a widow and a family of small children.

Smallpox Scare at Gothenburg.

GOTHENBURG, Neb., Dec. 1.—The smallpox scare has at last reached this place and while there are no cases nearer than North Platte precautionary measures are being adopted to prevent its breaking out here. Tickets will not be sold from North Platte to this place and the school board has requested all school children to be vaccinated.

Montana Makes Big Growth.

WASHINGTON, Nov. 28.—The population of Montana, as officially announced today, is 243,329, against 132,159 in 1890. This is an increase of 111,170, or 84.1 per cent.

The population of Texas, as officially announced today, is 3,048,710, against 2,235,523 in 1890. This is an increase of \$13,187.

Mrs. McKinler Goes Shopping.

NEW YORK, Dec. 1.—Mrs. William McKinley and Mrs. Garrett M. Hobart, widow of the late vice president, arrived in New York this afternoon. They have come to do their Christmas shopping and are expected to remain several days. They are stopping at the Manhattan hotel.

The Death List Mounting.

SAN FRANCISCO, Dec. 1.—Four persons injured in the glass works factory yesterday died this morning, making the total number of dead eighteen. Several more of the injured will die. About the morgue today there have been crowds of anxious inquirers, relatives and friends of those who are known to have been victims of the accident. The dead have all been identified. Until all the dead have been viewed by the coroner's jury no bodies will be permitted to be taken away from the morgue.

A NARROW ESCAPE. A GRATEFUL WOMAN.

MRS. F. J. LYNCH, GRAND RAPIDS, MICH.

Mrs. F. J. Lynch, 324 South Division Street, Grand Rapids, Mich., writes: The Peruna Medicine Company, Columbus, Ohio:

Gentlemen:—I earnestly recommend Peruna to any suffering woman as it cures quickly. I had a most persistent cough which nothing seemed to cure. Two bottles of Peruna did more for me than all the doctors seemed to do. In a couple of weeks I found myself in excellent health, and have been enjoying it ever since. Hence I look on Peruna as a true friend to women."

MRS. F. J. LYNCH.

Chronic Coughs and Colds Are Catarrhal Diseases.

Catarrh is the Continual Scourge of Christendom.

Catarrh hovers ominously over every city, and nestles treacherously in every hamlet. It flies with vampire wings from country to country and casts a black shadow of despair over all lands. Its stealthy approach and its lingering stay makes it a dread to the physician and a pest to the patient.

It changes the merry laugh of childhood to the wheezy breathing of croup, and the song of the blushing maiden to the hollow cough of consumption. In its withering grasp the rounded form of the fond wife and mother becomes gaunt and spectral, and the healthy flush of manhood turns to the sallow, haggard visage of the invalid.

Cough takes the place of conversation, speech gives way to spitting, the repulsive odors of chronic catarrh poison the kiss of the fondest lovers, and thickened membranes bedim sight, impair hearing and destroy taste.

Like the plague-stricken Egyptians a cry of distress has gone out from every household, and the mildew of woe clings to every hearthstone.

Catarrh in some form, catarrh in some stage lurks as an enemy in the slightest cough or cold and finishes its fiendish work in heart disease and consumption.

No tissue, function, or organ of the body escapes its ravages; muscles dry up under its blighting presence. So stubborn and difficult of cure is this disease that to invent a remedy to cure chronic catarrh has been the ambition of the greatest minds in all ages. Is it therefore any wonder that the vast multitude of people who have been cured of chronic catarrh by Peruna are so lavish in their praise of this remedy? That the discovery of Peruna has made the cure of catarrh a practical certainty is not only the testimony of the people, but many medical men declare it to be true.

As a drug store in this age of the world is incomplete without Peruna, it can be obtained anywhere with directions for use. A complete guide for the prevention and cure of catarrh and all diseases of winter, sent free by The Peruna Medicine Co., Columbus, Ohio.

THE OPEN-TOP CAR CHILLITLI.

The very newest thing in railway car architecture is a passenger car for steam roads, built very much on the lines of the summer trolley car, except that this car can open up the top as well as the sides. The car was built by the Pullman Company for the American Tourist Association, of Chicago, and was intended as an observation car in the great canons of mountainous mountains could be enjoyed to the fullest extent would be from a car without sides or top. The following season a coal, or gondola car, with board seats, was attached to the American Tourist Association train, and every traveler on that train climbed into it. Afterwards the Mexican government prohibited the carrying passengers in freight cars, and the coal

Mexico. The car was invented by Reau Campbell, the Mexican traveler, and came about as follows:

Some years ago when Mr. Campbell was traveling through the great Tamposco Canon, he had a seat on the side of the car next to the mountain, the rocks of the cliff were within two feet of the window, and of course he could get not even a glimpse of the canon, as all the windows on the other side of the car were taken up by the occupants of the adjoining seats. Determined to view the magnificence of the canon, Mr. Campbell returned to Las Canoas, and through the courtesy of railway officials made the world-famous ride on board what the superintendent called his "trolley," an open car with seats for eight persons, and with this ride came the idea that the only way the magnificence of Mexico's car had to go. Then the building of a passenger car without a top was decided on, and the Chillitli came in evolution from a work car to the coal car, and to the consummation of itself.

The Chillitli became famous, and from an observation car went on duty as a pavilion by the sea, and a roof garden, for it is electric lighted, and has an outfit of Chinese lanterns. But the favorite is also remembered as a dining car of the tropics, attached to a special train, that, during meal hours, could stand still or run just fast enough to secure a breeze, and not raise a dust. The Chillitli is the largest observation or dining car ever built. There are seats (reversible as in a coach) for 68 people, and when the tables are in place 56 persons may sit down to dinner.
