

At this season the housekeeper must look specially after the baking powder.

As she cannot make good cake with bad eggs, no more can she make cake that is light, delicious and dainty with inferior baking powder.

Royal Baking Powder is indispensable for the preparation of the finest food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., which expert bakers say is unobtainable by the use of any other leavening agent.

There are cheap baking powders, made from alum, but they are exceedingly harmful to health. Their astringent and caustering qualities add a dangerous element to food.

The Royal Baker and Pastry Cook—containing over 100 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.
