

Society Woman Raises Truck.
Near the pretty little town of Derby, Conn., is a farm which is managed by a gifted society woman who in her day has figured conspicuously in most European courts. The woman is Miss Frederica Sanford, daughter of Henry S. Sanford, at one time United States minister to Belgium. Miss Sanford personally supervises and works the place, raising "garden truck" and chickens. These she takes to Derby regularly, finding ready sale in the markets and hotels for all she can offer. Her widowed mother and her younger sister, Wilhelmina, live in the old Sanford homestead in town. Here Miss Sanford generally passes her nights, but from early spring till late in the fall she is up and away to her truck farm at daylight, often remaining there till sundown. In this way she makes a comfortable if simple living for the family, besides being able to indulge in some of the elegancies.

Fighting Temperature is 85.
Professor Dexter, of the University of Illinois, has been investigating the effects of weather on morals and finds that the desire to fight rises with the thermometer, but stops at 85 degrees; wits after that as the mercury rises. Assault cases are therefore commoner in summer than in winter. Drunkenness, however, lessens with summer and increases with the coming of cold. Suicides are at a minimum on bright days with a high barometer and increase as the wind rises.

A FEARLESS PHYSICIAN.
Denton, Ill., Sept. 30th.—Much comment has been caused by the action of Dr. R. H. Dunaway, a physician here, who for over a year past has been recommending Dodd's Kidney Pills to those of his patients who suffered from Rheumatism, Bright's Disease, Diabetes or other Kidney Troubles.

Dr. Dunaway also published an open letter last May stating positively that he himself had been cured of Diabetes by Dodd's Kidney Pills, and that, after he had concluded he was going to die.

He is a well man today and says he feels it his duty to do as he has done and is doing because Dodd's Kidney Pills saved his life.

Swiss Anti-Swearers.
In Switzerland and Italy good people go about with little cards containing pledges against swearing. These are presented whenever the bearers hear some one indulging in profanity. The penalty for violating the pledge is a small self-imposed fine, to be paid to charity.

The way for a man to keep a secret from a woman is not to let her guess there is a secret to keep.

Brooklyn, N. Y., Sept. 30th.—Information has been received regarding the wonderful curative powers of the Garfield Headache Powders; people everywhere are using them and writing the manufacturers of the good results obtained.

A Big Tree for St. Louis.
An effort is to be made to remove a large red oak tree from the wildest section of Arkansas to Forest park, St. Louis, for the Louisiana Purchase exposition. The tree is 160 feet high and 12 feet in diameter at the base. A double tramway will be built from the tree to the river, where it will be floated and towed to St. Louis. The tree will be dug up by the roots instead of being cut down, and none of the branches will be trimmed.

Says He is 126.
Dr. Charles Smith, a physician of Philadelphia, contends that he was born in Cairo, Ill., in 1775—126 years ago. He says that he can produce indisputable proof that he was more than 30 years old when he was graduated at the medical college at Jena in 1808.

Schmidt, Champion Rifle Shot.
Private Schmidt, of Company D, Fourteenth United States Infantry, now camped at the rifle range near Mount Clemens, Mich., made a score at shooting at 600 yards that broke the record of the whole army. The target was a dummy man. Nineteen out of twenty of his shots took effect, any of which would have caused instant death in a living man, while the twentieth shot would have inflicted a serious or fatal wound. Schmidt's achievement is said to be not only unparalleled in United States arm rifle shooting records, but also without precedent.

A Bishop's Plain Talk.
Bishop W. A. Candler has been talking to the St. Louis Southern Methodist ministers on the higher criticism and the tendency of ritualism in the church. He deprecates special musical programs and paid choirs and soloists. The higher criticism, he declares, insists on "a sort of polka dot revelation."

EXECUTION DAY FIXED

President's Assassin to Expire His Crime on October 28.

DEATH TO BE BY ELECTROCUTION.

Prisoner is Calm, But Under High Tension when Sentence is Pronounced—Face Shows the Distress His Lips Will Not Speak—"Good Bye."

BUFFALO, Sept. 27.—Czolgosz, the doomed assassin of President McKinley, was taken from Buffalo to Auburn state prison last night to await death by electrocution during the week commencing Monday, October 28.

Sheriff Caldwell and sixteen men took the prisoner in a special car attached to the second section of a train which was due to leave at 9:30. The train left the New York Central station at 10:06 p. m. and the railroad officials said that an effort would be made to reach Auburn at 2:12 a. m., which is schedule time.

Czolgosz was "sneaked" out the back entrance of the Erie county jail, escorted by seventeen men, and was hustled into the special car, which had been backed down on the terrace tracks a few rods from the rear of the jail a minute before. The jail was left at just 9:40 p. m., but a slow run was made to the Union station, as the engine and car were on the wrong track, which had been cleared.

Sheriff Caldwell arranged for the departure and his moves were kept so secret and were so cleverly managed that no one but the guards, the railroad men and the newspaper men who were on the watch knew that the assassin was being smuggled out of the jail. Sheriff Caldwell had given orders to his most trustworthy deputies to appear singly at the jail at different hours during the evening, and he had also made arrangements with Superintendent Bradford of the New York Central to have an engine and special car on the terrace tracks at Church street at 9:25 o'clock. That car was fifteen minutes late, but the moment it left the station for its run of three or four minutes a telephone message was sent to the jail and the sheriff had the prisoner ready. As soon as the car stopped, but a few rods from the rear entrance to the jail, Czolgosz appeared handcuffed to Jailer George N. Mitchell and surrounded by the Sheriff and his deputies and Chief McMaster of the Auburn police department. The car was attached to the second section of the train. The news that a car containing the murderer was on the rear of the train spread quickly and all the railroad men in the station left their work to get a look at the assassin. Finally at 10:06 o'clock the word was given and the train pulled out.

At Rochester the car will be coupled to a train running from there to Auburn, which had orders to await the arrival of this train. Just before the train pulled out a representative of the Associated Press saw Czolgosz seated easily in a seat and smoking a cigar. In the seat with the prisoner was Jailer Mitchell and in the opposite seat facing them were the keeper of the penitentiary and Deputy Sheriff Hugh Sloan, the oldest and most experienced deputy sheriff in the county. The other guards were seated in front and back of him and on the other side of the car, directly opposite his seat. These precautions were taken because the authorities received word from some source today that the sheriff might encounter considerable difficulty in getting the prisoner to Auburn. Just what trouble was feared was not learned, but great care was taken that no advance news of the departure of the train was telegraphed along the line.

Big Crop of Sugar Meets.
NORTH LOUP, Neb., Sept. 28.—The sugar beet growers are well satisfied with this year's crop. During July and August the outlook was discouraging. Plants looked as though they were killed by the drouth, but since September rains began they have recovered all lost ground and now promise a big yield with a percentage above the average. Some fields have tested as high as 19 per cent sugar.

Wood Reaches Havana.
HAVANA, Sept. 27.—General Wood has arrived here from Tampa on the Kanawha. The Kanawha was obliged to put in at Dry Tortugas yesterday on account of bad weather, but it left there this morning and had a pleasant run to Havana.

Nellie Poor Goes to Kansas.
CHICAGO, Sept. 27.—Mrs. Nellie Poor of this city, who, with her two sons, caused a sensation on a train in New York a few weeks ago by their strange actions, has been discharged by Judge Carter, before whom she appeared today on a charge of insanity. Recently she has been in a sanitarium at Palmyra, Wis., but will go to the home of a sister in Kansas. The two boys will remain in Chicago with Mrs. Poor's mother.

\$100 Reward \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

Horse Meat Isn't the Thing.
Scientific investigators in Europe, after thorough tests of a horseflesh diet, say that this sort of meat, when the use of it is continued for a long time, tends to lessen the weight of the consumer, whether man or beast. These physiological sages have come to the conclusion that the choicest steaks and roasts from the fattest colts and fillies are inferior to beef or veal, mutton, lamb or ham in sustaining vital force and preventing a decline in strength.

A Life Saver at 80.

The latest excitement at Leland Stanford university is over the felling of the great live oak shading the walk between Robie and Encina halls, which in 1895 was dedicated to the memory of "the first and most famous class that Stanford has graduated," as the San Francisco News Letter calls it.

The King Doesn't Kiss.
Many stories are related of the young king of Spain. At a recent function, in which only young people joined, a pretty girl of 16, who had danced several times with Alfonso, presented her cheek to him for a salute. Instantly he straightened up and extended his hand to her. "I don't kiss girls," he said; "they kiss my hand instead; I am your king."

The Invitation Misunderstood.
The widow of a prominent member of a sporting club who recently died is much incensed, it is said, over the officiating priest's choice of words at the funeral obsequies. The club members are heavy drinkers, and it is well known that on their excursions in a body their favorite drink is beer. By invitation of the widow they were in attendance at the funeral, and at the close of the ceremony the reverend father brought down upon himself the wrath of the widow and marred the solemnity of the occasion by requesting that the members of the club would now pass around the beer.

"Not in the Trust."

This is a favorite expression with persons who have goods on hand that they wish to sell to the public. But their goods are not always good. Neither have they a right at all times to claim that they are "not in the trust." As a matter of fact they generally are in the trust. Trusts know the advantage of advertising their goods as "not in the trust." It helps them to sell an inferior article that they may pay dividends on watered stock. The Defiance Starch company has no false stock on which to pay dividends. They simply manufacture the best starch that is made anywhere in the world, and sell 16 ounces for ten cents.
