Columbia Wins Three Straight and the American Cup Will Stay.

LIPTON VERY MUCH DISAPPOINTED

Last Race Proves Hardest of All-Shamrock Leads Most of the Way-Outdone, However by Time Allowance-Lipton Gives Three Cheers for Columbia.

NEW YORK, Oct. 5.-With victory flags flowing from its towering mastheads and the ends of its spreaders in honor of its concluding triumph in the cup races of 1901, the gallant sloop Columbia returned to its anchorage under the escort of the entire excursion fleet. It completed its defense of the honored trophy in another stirring race with Shamrock II over a leeward and windward race of thirty miles, crossing the finish line two seconds behind its antagonist, but winning on time allowance conceded by Liptons' boat by forty-one seconds.

For the second time it has now successfully foiled the attempt of the Irish knight to wrest from our possession the cup that means the yachting supremacy of the world. And plucky Sir Thomas Lipton, standing on the bridge of Erin, led his guests in three hearty hurrahs for the successful de-

"Columbia is the better boat," h said, "and deserves to be cheered."

The series of races just closed will always be memorial as the closest ever sailed for the cup and Sir Thomas, although defeated, will go home with the satisfaction of knowing that his golden yacht is the ablest foreign boat that ever crossed the western ocean.

During both series of races not an untoward incident has occurred and Sir Thomas will return to England far the most popular of all the foreigners who have challenged for the Americas' trophy.

Yesterday's race on paper was the closest of the series, but because of the flunking of the wind on the beat flome as a contest of the relative merits of the yachts it is not to be compared with the magnificent, truly-run and royally fought battles of Saturday and those of Thursday last. The conditions of the race at the start yesterday were very similar to those of Thursday. The wind was strong and from the shore embroidering the sea with foam and piling up no swell-ideal conditions for the challenger.

The racers were sent away before the wind, each carrying penalty for crossing the line after the handicap gun. No official record is kept of the time after that gun is fired, but the experts with stop watches estimated Columbia's handicap at fifteen seconds and Shamrock's at thirty seconds. The contest of the yachts fleeing before the following wind was picturesque, but not exciting. The big racers, like gulls, with outstretched pinions, had every inch of canvas spread, all of their light sails, including bulging

spinnakers and balloon jib topsails. While taking his defeat gamely, Sir Thomas Lipton made no attempt to conceal the honest disappointment when he talked about the races on the Erin. "I am very disappointed," he said. "I cant' hide that. I thought within fifteen minutes of the finish that we had won. I was sure as my life that we had won. When I looked around the situation had changed and we had lost. It was a hard blow to be so near winning and then to lose. I should like to have got one race, just by way of consolation. It is a very hard thing to be beaten by a breath-by a few beats of the pulse.

Churchill Startles Them.

LONDON, Oct. 5.-Winston Spencer Churchill, speaking last night at Oldham, delivered himself of another severe censure of the war policy of the government. He declared that the military situation in South Africa was now "not less momentous than when the Boer armies threw themselves into Natal at the beginning of the war,' and that the empire today "confronts difficulties and dangers more embarrassing than those which hung over it in the black week of December,

## MAKES WAR ON BEET SUGAR

Blg Company Cuts Prices in Territory Where it is Produced.

of Commerce says: President H. O. Havemeyer of the American Sugar Refining company was at his office this week for the first time since his illness, and it has been learned that one of his first official acts was to authorize one of the most spectacular reductions in refined sugar prices that has ever before been made. This was the reduction announced in Tuesday's dispatches. It applies only to the sections of the country in which beet sugar competes.

The cut in price at Missouri river points was to 31/2 cents per pound net for granulated. On Tuesday the net quotation was 5.03 cents. In other words, Mr. Havemeyer has authorized a cut slightly in excess of 11/2 cents

this cut to beet sugar manufacturers it should be mentioned that the practice of the beet sugar people is to make contracts for their entire production at prices based on the selling price of the sugar combine on the date of delivery. The beet people have heretofore been easily able to dispose of all their sugar at a discount of 10 points from the American Sugar Refining company's figures. This means, if the beet people live up to their contracts, that they will receive 32-5 cents per pound for their product. It is understood, however, that the beet sugar people will refuse to recognize the cut made by the American Sugar Refining company on the technical ground that it is in restraint of trade. The beet sugar refiners of Utah, Colorado, California and Nebraska are the refiners concerned. It is expected that this cut will have an unsettling influence upon the local market, but it is not expected that it will be followed by any important cut in prices in the eastern

No change was made in the sugar combine's prices for eastern markets yesterday (Wednesday) and the difference of 1.10 cents per pound still holds between the price of the raw

and the manufactured article. The American Sugar Refining company people claim that beet sugar manufacturers can produce granulated sugar at 21/2 cents per pound and that there is, therefore, a good profit, even at 3 cents a pound. This is denied by the beet people.

# Strikers Same as Rebels.

WASHINGTON, Oct. 4.-A striking example of the manner in which Russian authorities deal with strikes and strikers is afforded in a report at the state department from United States Consul Miller at Niu Chwang, under date of July 30. The men in the Niu Chwang oil factories stopped work for several days, striking for an increase in wages. The Russian civil administrator of the port immediately issued edicts giving notice that he had arrested and punished the leaders of the strike and that any of the men who refused to begin work the following morning would be arrested and expelled from the port.

# NEBRASKA AT BUFFALO

NEW YORK, Oct. 4 .- The Journal | Governor Savage and Party Royally Welcomed to the Pan-American.

## STATE EXECUTIVE MAKES SPEECH

Tells the Throng Something of the Resources and Accomplishments of the Missouri Valley-Exercises in Temple of Music.

BUFFALO, Oct. 4.-In observance of Nebraska day at the Pan-American exposition public exercises took place yesterday in the Temple of Music where songs and instrumental numbers were given by residents of Nebraska and others. Officials of the exposition and the mayor of Buffalo made speeches of welcome, and Governor Savage responded for the state. To understand the importance of With his full staff and a number of other distinguished citizens of Nebraska, Governor Savage spent the day at the exposition. The day was beautiful, the attendance large and the reception accorded the western visitors hearty and demonstrative. In his speech Governor Savage paid tribute to his state, saying:

"One thousand miles to the westward there is a commonwealth young in years but rich in natural resources. It lies in what is known as the great Missouri valley. It is a state populated by the industrial classes. Favored by a vast area of productive soil and a climate well calculated to conserve vegetable and animal life, in no other place in this broad domain is industry more certain of reward or is life or health afforded a better safeguard. It has 2,000,000 of prosperous and contented people-well provided with the necessaries of life, not the least of which, in our estimation, is a thorough moral and intellectual training.

"Though less than two score years a state, it has large and well diversi fled commercial centers, the third largest live stock market in the world, a complete system of railroads, affording direct communication between the producer and consumer, and it annually produces for export more than \$150 .-000,000 worth of agricultural products. It has a most complete system of public schools and in addition it has a number of public and private colleges, in which are taught all the higher branches, and that, too, by the most cultured talent in the land. No hamlet is without its house of worship, nor is there a community without facilities for the mental and moral culture of its people.

"Our code of laws by which we are governed, and which regulates our domestic affairs, represents the highest ideals in jurisprudence. Justice, pure and undefiled, is the spirit of every enactment incorporated therein. This state has no bonded debt, but has in its treasury nearly \$4,500,000 in prime mercantile paper, which it holds as a permanent school fund. Its bank assets are far in excess of the standard per capita and its wealth is more equally and equitably apportioned among its citizens than can be truthfully said of any other state in the union. Its high order of citizenship is attested by its religious, charitable and educational institutions, by its numerous cities and towns well provided with all modern improvements and by its hundreds of thousands of well-fenced, well-tilled and well-improved farms. Its standard of intelligence is higher, and its per cent of illiteracy is lower, than that of any other state. This scene of happiness, contentment, intelligence and wealth is the commonwealth of Ne-

"As chief executive of Nebraska, permit me to bear unto you the best wishes and happy congratulations of the people of that state. That community of interest which intertwines and unites the people of all the states is as strongly entrenched in the sentiment of the people of Nebraska as it is anywhere else. While jealous of our sovereign autonomy, we are not unmindful of the fact that we are but a fraction of what constitutes the federation. We love our country and its institutions.
