CUR CANDIDATES

We have talked to you through the columns of the DEMOCRAT during the past few weeks, of our candidates, They are worthy of all that his been said and do le for them. In the first place Alex Burr is a man who becomes your friend when you make his ac quaintance and that friendship increas

es as you learn more of hun. He i popular because of his honesty and fair dealing and is worthy of our most hearty support.

J.F. Young will make the most popular county treasurer and will be a useful man .n our town as will Mr. Burr.

Judge Towne will be the unanimous choice for county judge.

Mr. Kief the fusion candidate for county sheriff, is a popular candidate because of his fitness for the position. He is a successful business man, an honest old timer having lived on his ranch near Arabia for twelve years courteous and obliging and one who pays attention strictly to his business, he is well qualified and worthy, neither

Give Me a Trial

The plan of the bosses of the Reput lican party seems to be to get back int office control of the state so that they might better conceal the facts concern ing the Bartley matter. The party ha gone wrong and in order to defray ex penses and pay political debts, the dumped the state treasury. Now w the honest republicans, who had n hand in this matter, continue to uphole these bold schemes and thus become party to them? Will they continue vote 'er straight because one of the schemers said, "Come along, let's no back dawn now and leave our fellow in the soup". Think it over. Don you know that some people are mo than ordinarily interested? It won't any harm to do a little thinking too

It is gnite common to men of wealt to predict that the young men growing up will not amount to as much as the young men of their own time. Som are said to be too anxious to share the profits of their en ployers busines without having earned a place in 1 while others are contented to strugg along only half learning a business an making only a meagre living, carine only for what they can eat and wear today and giving no thought to the fu tore. It costs one man \$200 a year to live and if his income is \$300 per year he is making \$100per year It is per haps a lamentable fact that few of these men realize that they would b doing twice as well if they could cut o some of their expensive habits so that their living cost them \$100 per year o that they increase their earnings to \$400 per year instead.
