James Lawless and Mrs. Annie O'Bannan, of Sparks, Nebr., were married Jan. 23, 1902, by John Foster. Mr. Lawless is an honored and respected citizen who has honestly earned the good name that he bears, and though he has seen the frosts of many winters which has bleached his hair silver grey and made him ripe in experience, yet Hale, hearty and spry and good for many years of usefulness. The bride is a sister of Mrs. Joan Hoffman. THE DEMOCRAT extends good wishes.

Tuesday afternoon in company with Judge Walcott and E. M. Jenkins, Internal Revenue man, from Chadron, the editor visited the men putting up ice from the lake just north of town. The ice is of excellent quality and is 16 to 18 inches in thickness. The F. E. & M. V. R. R. Co. have 29 teams and 105 men employed in marking, sawing floating, dragging up a chute and loading into cars which stand on a side track near the mill. The work goes on like clock work under the efficient management of Wm. Spencer, J. W. Mann and other foremen of the work who seem to understand their duties as though it were of continuous duration. Later Supt. Harmon was a viewer of the work. 38 cars were loaded that day and before the work is closed hundreds of dollars will be spent in our town for labor and scores of train loads of the best ice obtainable will be shipped to towns along the road east to Omaha and west to the mountains. Minnehaha river fed by numerous springs feeds the lake which bears its name and is a sparkling dancing stream that flows very swiftly and is clear as crystal. At the upper end of the lake Major Anderson is working a force of about a dozen and half of men putting up ice with which he will furnish the city during the coming year. The Major is nearly through, having several hundred tons stored in his ice houses on the banks of the lake.

## Good Cooking and Political Economy.

I think it is more thoroughly realized day by day how much nutritious, well-cooked, well-selected food has to do not only with the physical well-being but also with the mental. Many large institutions have learned this truth, and have set at the head of their departments women with a knowledge of careful marketing, the properties of food, the best possible methods for cooking and serving that food. Every university, college and school would certainly give first choice to college women, yet they cannot always be found. And it is interesting to note that these women are generally teachers of political economy. As a result of their investigations they have recognized the truth that for the evils of drunkenness and discontent a very practical cure is clean, healthful, thrifty homes.—Miss Woolley, Pres. of Mt. Holyoke College, in Good House-keeping.

Cena M. Downing Teacher.

"Self reverence, self knowledge, self control; these three alone lead life to sovereign power." Tennyson

Mr. Sparks was absent Monday.

Miss Hobson has been recently added to the H. S. list of organists.

The seniors may be seen any afternoon now or a day "doing their sums."

The few books which were delayed for a little while after the general shipment arrived last week.

Now and then the thoughts of the seniors turn wistfully backward to the hydrogen bubbles and Toepler-Holtz machine of bygone days.

It is quite noticeable that on particularly cold and wintry mornings some one is sure to suggest that we sing "Now the Gentle Spring is Here."

Mrs. Hess was called home Saturday by the death of her mother. In her absence Prof. Watson takes entire charge of the classes assisted by Mr. Growden in regard to the Greek history.

Mrs. Watson's sister, Mrs. O'Kane who has been visiting here for some time departed Saturday for Creighton where she will visit for a week with friends and then return to her home in Husker.
