S. F. Swain who is making a success of the stock business near Sparks has his brand inserted in the DEMOCRAT this week. He also became a subscriber. Mr. Swain brought a porker in Monday which weighed 642 lbs for which he received \$5.65 per cwt. Now let young America who has learned to figure, try this for a practical problem, which will teach him three distinct propositions, first—how to transact business in figuring. 2nd—that hogs are raised in Cherry county. 3rd—how much a hog will bring if you feed him long enough. Who says we can't raise hogs in Cherry county.

Charles H. Cornell, if he carries out his plans, will build a large water plant at the town of Valentine. He filed an application yesterday with State Engineer Adna Dobson for water from Niobrara river. He does not intend to build a head race and will use the lower half mile of Minnechadusa creek as a tail race. The dam is to cost \$75,000, the machinery \$50,000, and the buildings for the plant \$10,000, a total of \$135,000. An 8,000 horse power plant is to be constructed if nothing happens and from this the town will receive power to be used for various purposes.—State Journal.
