Moses will again be turned back into the wilderness.

Elected or not elected is no longer the question with our Dave Hanna as he will shake off the Cherry county dust from his feet and move to Ains worth, Brown county to engage with his brother in the banking business.

Let it be understood that Messrs Sullivan and Morrissey will be elected to their respective offices on the basis of honesty and loyalty to duty, two titles that strangely and with force appeal to the intelligence of the voters.

Prosperity being a general article in Cherry county, what will become of our dear Barker when once more the honest people, greatly and justly fearing the general looting of the County Treasury, have elected by a deciding majority as Co. Commissioner the honorable Mr. Burr.

What has become of Moses—Mouth less Kinkaid? An empty voice in the lonely wilderness of the 8th congressional district having been choked in succession and anticipating another terrible disaster on the 4th of Nov., has most likely retired to a place of safety in the frozen arctic, Alaska. His defeat will be the most bitter pill, as a number of disgruntled team heads will have given a helping hand to that effect.

The republican state committee having an independent hope, to elect any of the state officials, appeals now to the dear people through its hoodlums and oil room politicians, to save us all from the grip of the state. Even this act of mercy will not be granted by a highly indignant population. Joseph Bartley, ex convict from the state penitentiary and Wm. Stueffer, the oily and smooth success or of the ex convict, proved too much of a load for the republican ship.

Characters of Candidates.

There is quite a difference between the two candidates for governor. Mr. Micko has twice held office and neither time has he retired with a record at which he or the party may point with pride. As treasurer of Polk Co. he was placed under the necessity of an expert's examination that left a cloud if not a shortage. Today it would be called by another name. As a legislator he voted against the appointing of a committee to draft a freight rate bill (see House Journal 1881, p. 128); he voted in favor of postponing action on H. R. No. 121, a bill to prevent extortion in freight charges (see H. J. 1881, p. 722); he voted against advancing H. R. No. 121 to a third reading, and, being with the minority, was defeated (see H. J., p. 728); he voted against the passage of House Roll No. 228, declaring that the railroads shall not limit their common law liabilities by receipts required to be signed by shippers (see H. J. p. 725); dodged and failed to vote for Senate File No. 111, a bill fixing a maximum standard of freight charges to prevent unjust discrimination, secret rates, etc. (see H. J. p. 841). As a private citizen in business he has been a very exacting money lender.

Mr. Thompson was county attorney for Hall county, in 1887 and refused to run for a second term. He was mayor of Grand Island from 1895 to 1899, a local honor not to be lightly considered. At the last state convention of the Modern Woodmen, which the editor of The Pioneer attended as a delegate, we heard Mr. Thompson as delegate at large to the head camp because of his ability as a speaker. His

party has showered him with honors and he has been fortunate in saying the right thing at the right time and being bold and prompt in meeting issues.

He is considered one of the ablest lawyers in the Platte valley and will bring this knowledge into his administration. His neighbors have always confided in him, and there are no interviews passed up to the opposition press extorting reflections upon his honor or that he ever abused his power or took advantage of the weak.

Kilgore.

Elsie White from the river is attending school here. This makes two non-resident pupils.

Seven car loads of cattle were loaded at the stock yards for the Omaha market last Sunday evening.

G. O'Leary, of Long Pine, is visiting his brother in this village, who is just recovering from a long illness.

If the mail system continues as it has been, we shall soon be enabled to send and receive mail once a week, which will be almost as convenient as the rural post office that send and receive it twice a week.

W. Anderson moved from the house which he lately occupied south of the railroad to the one recently vacated by J. Lester. While moving, his three-year-old son, one of our best boys, fell and broke one of his front teeth. It is reported that the boy is recovering.

Woodlake News.

Flaxseed is in town at Woodlake. Estimated yield of flaxseed in the county is 100,000 bushels.

About all you can see in Woodlake just now is baled hay.

Ely Valentine went to Omaha last evening returning Friday.

Changeable weather. Ducks are plenty. Water-seekers are many.

Hat hawkell and wife left last Monday for Advance where they will make their home.

Mrs. Frank Kelsey of Brownlee is visiting with her parents, Mr. and Mrs. Cyrus Hagen.

Dabrook's Parisian Violets a dainty perfume For sale at the Woodlake Pharmacy.

Mr. and Mrs. Alf Morris and Jas. Wilson returned from Sioux City Saturday morning.

Geo. Dew expects to become a resident of Woodlake again. They will occupy the Barnard house.

The new cinder sidewalk at the depot may be O. K. for the F. E. & M. V. but it is certainly hard on Woodlake shoes.

Mrs. Jas. Alderman, of Newport, returned home Thursday. She has been spending a few days with her husband who is buying and shipping hay.

Roses are red Violets are blue Most people use DRUGS How about you? Woodlak Pharmacy sells drugs and drug-sundries.

Edward Plunkett has left Woodlake in search of Greener pastures. Kent McNamee succeeds him in the tonorial business, while Messrs Frank and James Dav get his pool and billiard hall.

Woodlake is to have a dancing club, so some one said. There is no room left out for there is certainly no one to be dancing floor in this part of the country than Honey Opera House.

Several cattle were struck by west bound passenger No. 3 the other night with the result that one was killed outright and several badly crippled.

Honey Opera House presents a better appearance as the result of some good paint put on by Mr. Marsden, of Ainsworth. Mr. M.—returned home Wednesday evening.

Shipments of cattle to the Omaha market for the last week have been as follows: C. F. Cooper, 2 loads; Sphal Bros., 3 loads; Lord & Bennet, 4 loads; Dave Hancock, 10 loads; Geo. Dew, 1 load.

It may seem mysterious to some people to note the way in which our lake is drying up. As a matter of fact however, it is not drying up at all but has been drained by the railroad company who have a pipe running into the lake and an engine to pump it out with. Don't say a word but let the good work go on.

The hay shipping business at this point is assuming such proportions that the F. E. & M. V. Co. cannot deliver cars fast enough to haul it out of town. If Mr. Carnegie only understood the hardship and difficulty with which the company is laboring in order to maintain a train service along this line we are sure he would make them a donation to help them out.

PILLS.

Brownlee and Kennedy Oct. 28, '02 Barker's communication in the last issue of the Republican is stuff of the wildest imagination and completely manufactured in his own shop. It is rumored here in the 2nd commissioner district, the home of Mr. Burr our highly respected candidate for re-election, that Barker in partnership with Pettijohn will open the floodgates previously to the 4th of Nov.—election day—in order to drown Cherry Co. with a substance that has already passed through a legitimate purpose, namely, to clean the dirty linen of Pettijohn, but was kept back by him on storage for the past 12 months for a regular political stampede. We assert upon hearing from some good Valentine people as our authority the the federal partner of Pettijohn has become so sick on account of this nauseating business that he had to take a very strong, ardent medicine to save his dear life. Signed—Your honest voters and tax payers of the 2nd commissioner district.

Alex Burr is a candidate for commissioner in the second district of Cherry county. Several years ago when a resident of Box Butte Co., Mr. Burr was elected commissioner for the Snake Creek district and the three years of his service in behalf of the county was characterized by strictly honest and conscientious work, attending to business of the county with the same interest and economy that he always gave to his own private business. Voters in Cherry county will make no mistake by electing Alex Burr for commissioner.—Pioneer Grip.

Pounding Morgan.

J. Pierpont Morgan has evidently sent word to the string of Republican newspapers he controls in all the large cities to pitch into him as the great octopus, as doing so will not hurt him and may help the trusts. The Morgan newspapers are faithfully carrying out their tip from the Republican headquarters in Wall street and are fighting the trusts—on paper—with all the venom of new converts.

Our Prosperous Farmers.

Congressman Overstreet accounts the apathy of the farmers in politics this year by saying that they are riding in automobiles and playing golf.

The Ship Subsidy Steal.

Senator Hanna has given out pleasing information that the ship subsidy steal is dead. This important may be true and may be but a ruse help his friends Fairbanks and Bevidge, who voted for it. The form being a candidate for re-election having a good many uncomfortable questions put to him about his support of the greatest steal of latter day legislation.

Explanations That Are Admissible.

The trusts are putting up the best defense possible on the export price exposures of the Democratic campaign book. The Iron Age of Sept. 11 accuses "Special Export Prices." makes no denial that protected manufacturers sell goods for export at lower prices than to home buyers, attempts to justify in special case this custom.

It says lead is sold abroad for cents, while it is 4 cents per pound here, but that lead so sold is made from imported ore, smelted in the United States and that many of the articles exported at lower prices are made from raw materials on which 50 per cent of duty paid is refunded when the goods are exported. It says that "in the case of patented articles, in which the manufacturer has a recognized monopoly at home, lower export prices may be justifiable." "Finally," it says, "we have those numerous cases in which our manufacturers must meet price in neutral markets as they find the practice, but give no sound reason why our tariff drawback or patent should encourage manufacturers in vying foreigner with their low price."
