

A VENERABLE PASTOR CURED BY PE-RU-NA.

Pe-ru-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

The Oldest Man in America Attributes His Long Life and Good Health to Pe-ru-na.

Mr. Isaac Brock, of McLennan county, Texas, has attained the great age of 114 years. He is an ardent friend of Pe-ru-na and speaks of it in the following terms. Mr. Brock says:

"After a man has lived in the world as long as I have he ought to be experienced. I think I have done so."

"One of the things I have found out to my entire satisfaction is that the proper remedy for ailments due directly to the effects of the climate."

"For 114 years I have withstood the changeable climate of the United States. During my long life I have known a great many remedies for coughs, colds, catarrh and diarrhoea. I had always supposed these affections to be different diseases. For the last ten or fifteen years I have been reading Dr. Hartman's books and have learned from them one thing in particular: That these affections are the same and that they are properly called catarrh."

"As for Dr. Hartman's remedy, Pe-ru-na, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my stand-by for many years and I attribute my good health and my extreme old age to this remedy."

"It exactly meets all my requirements. I have come to rely upon it almost entirely for the many little things for which I need medicine. I believe it to be especially valuable to old people, although I have no doubt it is just as good for the young."—Isaac Brock.

A New Man at 79.

Major Frank O'Mahoney, West Side, Hannibal, Mo., writes:

"I am professionally a newspaper correspondent, now 79 years old. I have watched the growing power of the Pe-ru-na plant from its inception in the little log cabin, through its gradations of success up to its present establishment in Columbus, Ohio, and I conclude that merit brings its full reward."

"Up to a few years ago I felt no need to test its medicinal potency, but lately when my system needed it, your Pe-ru-na relieved me of many catarrhal troubles. Some two years ago I weighed 210 pounds, but fell away down to 168 pounds, and besides loss of flesh I was subject to stomach troubles, indigestion, loss of appetite, insomnia, night sweats, and a foreboding of getting my entire system out of order. During some months I gave Pe-ru-na a fair trial, and it rejuvenated my whole system. I feel thankful therefore, for although 79 years old I feel like a young man."—Major Frank O'Mahoney.

In old age the mucous membranes become thickened and partly lose their function. This leads to partial loss of hearing, smell and taste, as well as digestive disturbances. Pe-ru-na corrects all this by its specific

operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Pe-ru-na becomes a lifelong stand-by with old and young.

Mr. Samuel Saunders of Blythedale, Mo., writes: "My disease was catarrh of the urethra and bladder. I got a bottle of Pe-ru-na and began taking it, and in a few days I was relieved and could sleep and rest all night. I think that Pe-ru-na is a valuable remedy. I had tried other very highly recommended medicines, but they did me no good. My physician told me that I could not expect to be cured of my trouble, as I was getting to be an old man (57 years). I feel very thankful for what Pe-ru-na has done for me."

In a later letter Mr. Saunders says: "I am still of the same mind with regard to your Pe-ru-na medicine."

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, of Utica, N. Y., writes:

"In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much as to affect my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with severe rheumatic pains in my limbs. I commenced taking Pe-ru-na, and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Pe-ru-na, and now when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all-loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."—Rev. J. N. Parker.

Mrs. F. E. Little, Tolona, Ill., writes: "I can recommend Pe-ru-na as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled severely with it for over a year, and also a cough. Now my cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy. I am so well I am contemplating a trip to Yellow Stone Park this coming season. How is that for one 71 years old?"

In a later letter she says: "I am only

operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Pe-ru-na becomes a lifelong stand-by with old and young.

Mr. Samuel Saunders of Blythedale, Mo., writes: "My disease was catarrh of the urethra and bladder. I got a bottle of Pe-ru-na and began taking it, and in a few days I was relieved and could sleep and rest all night. I think that Pe-ru-na is a valuable remedy. I had tried other very highly recommended medicines, but they did me no good. My physician told me that I could not expect to be cured of my trouble, as I was getting to be an old man (57 years). I feel very thankful for what Pe-ru-na has done for me."

In a later letter Mr. Saunders says: "I am still of the same mind with regard to your Pe-ru-na medicine."

With Corn Meal.

A good old-fashioned dessert to serve after a parsnip stew is a baked Indian pudding. If made right, when taken from the oven it will quiver and be jelly-like.

The old way that has never been improved upon was to bring a quart of milk to boil in an iron pot, and then to add to it about one and one-half cupsful of finely granulated meal, holding the meal high in the left hand and sprinkling slowly, stirring constantly meanwhile with the right hand. When this has thickened and cooled a little two teaspoonfuls of ginger, three-quarters of a cup of molasses and half a teaspoonful of salt were stirred in and the mixture was beaten smooth. The pudding dish, which in old days was of stoneware tall and flaring at the top, was then thoroughly greased, the batter poured in and a quart of cold milk turned in last. After this addition but little stirring was done, and the batter should be about as thin as a pancake batter. Bake four or five hours in a slow, steady oven, remembering that the slower the oven the more delicious the pudding. Serve with cream or hard sauce.

To Fry Eggs.

These are so often hard in the yolk while the white is uncooked that a word as to the right way to fry eggs may not be amiss, although many housewives may be already instructed. The reason why fried eggs are so rarely satisfactory is because the heat of the pan at bottom cooks them while the top is still raw. They must always be fried in fat enough to baste them; tilt the pan a little and with a spoon pour the boiling fat over each egg in turn, till they have a white surface like poached eggs. They should not be in the pan over three minutes, and the basting begin as soon as they slip into it. The pan and fat of course must be very hot. In this way the fat cooks the surface and they are much easier to lift without breaking.

About Sponges.

It is often possible to buy a good sponge at sales if the purchaser will be content with one rather dark in color, as these, even if good in texture, will never fetch a high price. Always avoid the light, glaringly yellow sponges, which have been bleached by sulphurous acid, and are thoroughly rotten in consequence. If you would prolong the life of a sponge and keep it in a wholesome condition—many people would be surprised to learn how rare this is—always rinse it out in a good supply of cold water after using with soap. If the sponge becomes at all greasy or slimy, allow it to soak in salt and water, and once a month wash it in a weak solution of Condy's fluid, which will thoroughly disinfect and cleanse the sponge.

Old-Time Butter-Scotch.

To three cups of brown sugar add three-quarters of a cup of water, a tablespoonful of butter, a scant spoonful of soda, and a tablespoonful of vanilla extract. Let it boil till it will harden when dropped from the spoon into a glass of water, then pour in thin sheets into buttered baking pans. As it cools mark it off in squares with a knife dipped in water to keep it from sticking. Have ready squares of buttered paper, and when perfectly cold wrap the pieces of candy in them.

To Keep Lemon-Juice Ready for Use.

Squeeze out the juice in the usual manner, strain free from pulp and pips, add white powdered sugar in the proportion of one pound to a pin of the juice; stir it until the sugar is quite dissolved, then put it away in very small bottles. Put a teaspoonful of salad oil in the top and cork it close. When wanted for use, take out the cork carefully and take up the oil with a bit of cotton-wool. To use for lemonade, add one large tablespoonful to a glass of water.

Hints for Housewives.

Apples, like tomatoes, can be more quickly and easily peeled by pouring boiling water over them and allowing them to stand in the water five minutes.

Furniture brushes are an essential article of a household outfit. A soft clothes brush is the best for silk or plush furniture, as it does not fray the fabric like a whisk broom.

If coffee is spilled on linen the stains can be removed by soaking the material in clear cold water, to which a little borax has been added, for twelve hours.

One-half of an egg will clear the coffee for a family of five or six as well as a whole egg. Beat the egg and add an equal quantity of water. Mix this with the amount of coffee required for one meal and pour the boiling water over it.

In these days when hardwood floors are in such general use broom bags form an important accessory of a housewife's closet. Heavy canvas flannel is most suitable for them, or any old flannel garments can be employed to make them, especially the elderdown variety. They should be sewed down on the sides, the top hemmed and a tape sewed equally on one side. It should be long enough to go around the handle of the broom several times.

As babies are accustomed to rocking, they are not disturbed by the rocking of a ship, and therefore never become seasick.

It has been definitely decided by the Russian military authorities to do away with the lance in the Russian army.

Girls in Papua, or New Guinea, an island in the Pacific, have little chance to elope. Their dads force them to sleep in a little house on the topmost branches of a tall tree; then the ladder is removed, and the slumber of the parents is not disturbed with fears of an elopement.

Professor Haecker, in an address to the Minnesota dairymen, tasted that the two essential and vital points in the dairy cow are a large middle and light quarters. Having secured the deep-bodied spare cow, there is no objection to the fancy points, provided they do not interfere with the two mentioned.

Bad Backs.

Bad backs are found in every household. A bad back is a back that's lame, weak or aching. Most backache pains come from kidney derangements and should be promptly attended to.

Reach the cause of backache by relieving the kidneys and curing their ills. Doan's Kidney Pills are for the kidneys only and cure the dangers of urinary and bladder disorders, from common inflammation to Dropsy, Diabetes, Bright's disease.

Case No. 40,321.—Mr. W. H. Hammer, well-known builder, residing at 123 N. Hinde street, Washington, D. C., Ohio, says: "I am glad to endorse a remedy which possesses such inestimable value as Doan's Kidney Pills. They cured me of inflammation of the bladder which had caused me much annoyance and anxiety because of the frequency and severity of the attacks. I have advised others to take Doan's Kidney Pills and I know they will not be disappointed in the results."

A FREE TRIAL of this great kidney medicine which cured Mr. Hammer will be mailed on application to any part of the United States. Address: Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

Last of a Famous Crew.

William Hill of Honesdale, Pa., is the last survivor of the new Commodore Stockton's frigate Congress, which raised the first United States flag over California in 1846.

Have United War Portfolios.

The three United States senators, now serving their terms, who have been secretaries of war are Messrs. Proctor of Vermont, Elkins of West Virginia, and Alger of Michigan.

WESTERN CANADA AROUSING GREAT INTEREST.

The Wonderful Yields of Wheat Attracting Thousands.

Until the last five or six years but little attention was given to that vast area of grain-producing land lying north of the 49th parallel, and immediately adjoining the northern boundaries of Minnesota and Dakota.

The Canadians themselves were aware of the wealth that lay there, but being unable to fully occupy it, they have asked the Americans to assist them in converting the land from its virgin state to one that will largely supplement the grain producing area of the North American continent. And the response has been most liberal.

During the year 1901, upwards of 20,000 from the United States went over to Canada, being induced to settle there by the reports that reached them of the success of those who had preceded them during the previous years. This 20,000 was increased to 30,000 during the year 1902, and it is fully expected that there will be fully 50,000 during the present year. The work of the immigration branch of the Canadian government is not now being directed towards giving information as to the advantages of settlement in Canada as it is to extending an invitation to the American to follow those who have gone.

Those who have charge of the work point with considerable pride to the success of those who have been induced to take advantage of the offer of 160 acres of land free in Canada, and have no cause to hesitate in continuing the invitation. Many of those interested say there are no more free homesteads to be had in Canada, but the writer has most positive assurance from the Canadian Government that there are thousands of such homesteads to be had, and in one of the districts now being opened up fully as good as the best, and it is probably the best.

The Canadian Government has established agencies at St. Paul, Minn., Omaha, Neb., Kansas City, Mo., Chicago, Ill., Indianapolis, Ind., Milwaukee, Wis., Wausau, Wis., Detroit, Sault Ste. Marie and Marquette, Mich., Toledo, Ohio, Watertown, S. D., Grand Forks, N. D., and Great Falls, Mont., and the suggestion is made that by addressing any of these, who are the authorized agents of the Government, it will be to the advantage of the reader, who will be given the fullest and most authentic information regarding the results of mixed farming, dairying, ranching and grain raising, and also supply information as to freight and passenger rates, etc.

New Cure for Lame Back.

Rutledge, Minn., Feb. 16.—Mr. E. C. Getchell of this place relates a happy experience which will be read with interest by all those who have a similar trouble.

It appears that last winter Mr. Getchell was seized with a lameness and soreness in his back which grew worse and worse till at last it became very bad and made it very difficult for him to get about at all.

After a time he heard of a new remedy for backache which some of his friends and neighbors said had cured them and he determined to try it. The name of the remedy is Doan's Kidney Pills and Mr. Getchell has proven that it is a sure cure. He says:

"I used two boxes of Doan's Kidney Pills according to directions and my lame back was entirely cured and I am all O. K. again. Doan's Kidney Pills are as good as advertised."

This remedy is very popular here and has worked some remarkable cures of Backache and Kidney Trouble.

Germany annually sends to this country 130,000 canary birds, 5,000 to France, 3,000 to England, and 2,000 to Russia.

It is announced here that Emperor William of Germany will reach Rome April 25 on a visit to the Italian court. The czar of Russia will visit the court May 11.

An American syndicate has presented a proposal to build the Chile section of the railroad across the Andes at a cost of \$7,000,000, payable in 5 per cent bonds.

Some physicians in France assert that ballooning is a cure for consumption. The patient has to make ascents at state intervals, increasing or decreasing the altitude in accordance with his condition.

Among the articles comprising a bride's outfit in the Japanese island of Oshima is a big tub of drinking water. Water is very scarce in the island, and every prudent bride tries to have a supply on hand.

The better class of Japanese take a warm bath every day.

has been curing everything that a good, honest penetrating liniment can cure for the past 60 years.

Medicine Never Healed a Wound

Nature performs the healing process and medicine can only assist her in doing her work in healing wounds and throwing off diseases. Nine-tenths of the diseases of man and beast have their origin in some form of germs and if allowed to run and multiply form complications. The reason that Liquid Koal prevents all germs diseases and cures them, unless fermentation and inflammation have too far developed, is that it contains every antiseptic and germicide known to science. All germ diseases such as hog cholera, swine plague, corn stalk diseases, tuberculosis, blackleg and numerous others can be prevented by giving Liquid Koal in drinking water, because they are germ diseases and no germ can live where Liquid Koal reaches it. Liquid Koal is unaffected by the gastric juices of the stomach, passes through the intestines and from there into the circulation, permeating the whole system and still retains all its germicidal properties. Diluted with water, in the proportion of one to one hundred, it makes the best lice killer known.

Price of Liquid Koal delivered at your station is as follows:

ONE QUART CAN	1.00	TEN GAL. KEG	\$2.50 PER GAL
ONE GALLON	3.00	25 GAL.—1-2 BBL.	\$2.25 GAL
FIVE GALLONS	\$2.75 PER GAL	50 GAL.—ONE BBL.	\$2.00 GAL

We, the undersigned, stock raisers of Madison County, Nebraska, are signing from 100 to 200 head of horses each year, after a fair and impartial trial of Liquid Koal, manufactured by the National Medical Company, of Sheldon, Iowa, and York, Nebraska, found it to be the Best Disinfectant, Germ Destroyer and Appetizer that has been on our pleasure to use, and we think that a man is standing in his own light who does not try it. When their agent calls we advise any stock raiser to buy and use Liquid Koal.
