WILLIAM FALLON,
 Chairman of the Democratic party of the fifteenth judicial district of Nebraska.

M. M. SULLIVAN,
 Secretary.

People's Independent Judicial Convention for the Fifteenth Judicial District.

The People's Independent judicial call is an exact copy of the above and signed by Sam. B. Howard, Chairman, and W. R. Butler, secretary.

It is time for the people to take a hand in "turning the rascals out" and then they will see to "keeping them out."

What is next? An automobile that can walk, for farming purposes. Wheels with legs and feet to step over the clods without mashing all the dirt down will run lighter and can plow, harrow, plant and cultivate corn, mow hay and stack it, but you've got to have a cow pony for the round-up.

The g. o. p. organs hasten to announce that their party has been discovering frauds among their office holders and that they are turning them out as fast as they can get to them. Now since these are postal frauds and all the postal clerks and postmasters who are involved, have been under a republican administration during the past six years and more, it would indicate that not a decayed timber is noticed by the administration until a bridge is gone or rotten throughout. Then they make a great ado about fixing the thing up and say that the republican party can be relied upon to correct these irregularities. As a matter of fact the system is getting pretty rotten when a republican administration notices the irregularities and it is a whole lot worse before any correction is made. There should indeed be a renovating by turning the rascals out and putting in clean men. It will not be done by republicans.

Roosevelt And The Trusts.

All the g. o. p. organs are making much ado about Roosevelt's attacking the trusts and go into ecstacy over the imaginary or pretended attack and the discomfort of the attacked. Now, if any of these papers that pretend to know so much about the attack will tell us what Teddy has actually done, we will try to rejoice with you. There has been much bluster and pretense of doing something but the republican party cannot be depended upon for any attack on the trusts that will be effectual. During the time that the g. o. p. has been in power the wealth of a new country has been developed and absorbed by the trusts which are composed of a few millionaires. The party bosses manage to keep the boys in line to whoop it up for a full dinner pail as the only demand of nine-tenths of the people, while the country has virtually gone into the hands of the railroads and other monopolies. Our country is not in our hands as long as we have boodlers who can get any law passed that is wanted by these monopolies and a supreme court to declare any people law unconstitutional. It is no longer a country by the people, nor for the people, but a government of the people, by the money sharks of Wall Street. These conditions have been made possible by the intense prejudice of that class of people who see the wrongs of their party and refuse to support the Democratic party which has always been a party for the people.

There are rumors in the air to the effect that the city dads are contemplating having the streets of our town sprinkled during the hot weather. We think this would be a fine idea and we hope it will be a reality instead of rumors only.

Remember The Game.

The original Boston Bloomers, Ladies' Champion Base Ball Club, who are making an extensive tour of this country, travelling in their own special car, will play the most interesting and exciting game of ball with the home team in Valentine, Monday, August 3, 1903, that has ever been witnessed in this town. This club of lady ball players has caused thousands to applaud and marvel at their wonderful playing. The Boston Bloomer Girls are without doubt the greatest club of lady base ball players ever organized, and are in no way connected with any other so called Bloomer club. The Boston Bloomers under the management of W. P. Needham, has been successful for the past nine seasons, touring the Northern and Western countries. The remarkable success during the short time they have been in this part of the country is only a continuation of the former success they have met with everywhere they have visited. Ladies can attend this game without any fear of being offended, as nothing will be said or done that would shock the most fastidious. The grounds will be situated east of the stock yards and will be enclosed with a large canvas fence including plenty of seats.

AS A WORKING TOOL

for the student and the writer, as an authoritative reference book for schools, families and business men, there is one book which offers superior advantages both in the solid value of its information, and the ease with which it is obtained.

One's admiration for Webster's International Dictionary increases daily as it comes to be better known. It never refuses the information sought and it never overwhelms one with a mass of misinformation illogically arranged.

The St. James Gazette of London, England, says: For the teacher, the pupil, the student and the litterateur, there is nothing better; it covers everything.

The New and Enlarged Edition recently issued has 25,000 new words and phrases, 2364 pages and 5000 illustrations.

Our name is on the title-pages of all the authentic dictionaries of the Webster series.
