Fear The Worst.

PEKIN, Dec. 21 .- The report cabled tom Tien Tsin to London Saturday to the eff ct that Japan had sent an ultimatum to Russia is discredited here, and no informationof corroborative nature is in the possession of the foreign legations.

while the knowledge of the legations on the situation leads to the belief that the sending of an ultmatum is improbable, the prospects of war are evidently increasing. The British legation some days ago reseived a telegran indicating that, war was possible, and the Japanese legation is officially informed that Russia's recent reply to the Japanese proposals was unsatisfactory.

While no news has been received at the Japan se legation that Japan; has sent an ultimatum to Russia, it, is recognized at the legation that a grave crisis is approaching. Major General Yamani, the Japanese military attache, and the Japanese colcnel who has been instructing Gen. Yuan Shai Kai's troops, have both started for Japan.

Lands Not to be Segregated.

WASHINGTON, Dec. 24.-Assistent Attorney General Campbell, of the interior department, has rendered an opinion to Secretary Hitchcock sustaining the latter in refusing to approve the segregation of between four and five hundred thousand acres of arid lands in Idaho, which it was proposed to reclaim. The commissioner of the general land office had held that in view of the act by the Idaho legislature in March 18, 1901, no further contracts between the state and the United States should be entered into so ing as the state law was in force This law provided that when a company improves contracts of land by the building of extensive irrigation canals and within two years had not found the necessary settlers for each 160 acres the land should be deeded to the company making the improvements. This was said to be contrary to the federal law Under the desision rendered, the matter will again come before the interior departmen at the expiration of the two year clause for settlement of the
