Capsicum Vaseline

Put Up in Collapsible Tubes.

A Substitute for and Superior to Mustard or any other plaster, and will not blister the most delicate skin. The pain relieving and curative qualities of this rubric are wonderful. It will soothe the inflamed and burn, and relieve headache and neuralgia.

We recommend it as the best and safest external counter-irritant known, also as an external remedy for pains in the chest and stomach and all rheumatic, neuralgic and gouty affections.

A trial will prove what we claim for it, and it will be found to be invaluable in the household. Many people say "It is the best of all your preparations."

Price 10 cents, at all drug stores, or other dealers, or by sending this amount to us in postage stamps, we will send you a tube by mail.

No article should be posted by mail unless the label carries our label, as otherwise it is not genuine.

CHESEBROUGH MANUFACTURING CO
 17 State Street, New York City.

A Virginia kitchen, in which the good values of the sweet potato will be demonstrated, will be a restaurant feature at the world's fair.

The Y. M. C. A. of Chicago, that organized a world's fair club, the members of which will attend the exposition on an excursion. The American poultry association and the American Leghorn Club will meet at the world's fair during the poultry show October to November 5 inclusive.

DOCTORS FALL IN LINE

Practicing Physicians recognize the unfailing reliability of Doan's Kidney Pills by prescribing them for Backache, Kidney, Bladder, and Urinary Disorders—a tribute won by no other Proprietary Medicine. Four cases cited from "Notes of His Practice," by Dr. Le and Williamson, of Yorktown, Ark.

FOSTER-MILBURN CO., Buffalo, N. Y.

YORKTOWN, ARK., March 1, 1904.

Gentlemen:—I have been engaged in the practice of medicine in this section for ten years. This is a very sickly climate, on the Bayou Bartholomew, near the Arkansas River. It is particularly malarious and miasmatic; we meet with many and various abnormal conditions of the human family, prominent among the cases in which I have been called upon to prescribe is kidney disease. Many of these disorders manifest themselves by pains in the back, often extending to other parts of the body; sometimes headache is present, caused by uramic or chronic acid poisoning, soreness in region of kidneys, cloudy, thickened and foul-smelling urine, discharges of pus or corruption; inflammation of the kidneys, extending to the bladder, is caused by excess of uric acid and decomposition of the urine. Hemorrhage is sometimes met with, caused by high state of inflammation or congestion.

There is no class of diseases a doctor is called oftener to treat than the variety of kidney diseases, in many of which the patient will have chills or rigors, followed by fever, a result of the kidneys failing to eliminate the uric acid poison from the system. Such cases require the kidneys restored to their natural functions, then the poison and foreign substances are removed—shock to the nervous system averted, and natural health restored.

I have, for some time, been using Doan's Kidney Pills in these many manifestations and with uniform success, curing most cases. I can further say that even in hopeless cases where they have waited too long, Doan's Kidney Pills afford much relief and prolong life. I can recommend the pills in conditions of excessive or deficient secretion of urine, as also in convalescence from swamp-fever and malarial attacks, as verified by the following cases in my practice.

- CASE 1.**
 THOS. ORELL, Bear, Ark., age 60. Pain in back for several weeks, then chills. Irregular sometimes, severe rigors followed by fever. Gave good purgative of calomel and podoph. and Doan's Kidney Pills. After taking four boxes of the pills, patient up and enjoying good health for one of his age.
- CASE 2.**
 MRS. SMITH, Tarry, Ark., age 29, mother of four children. Had female complaint and kidney trouble, manifested by pain in back and legs and in her; sometimes very clear, changing to cloudy, and with much sediment on standing in chamber. Gave local treatment for female complaint and prescribed Doan's Pills; after using six boxes she regards herself as cured.
- These are a few of the typical cases in which I have used Doan's Kidney Pills. In a great many instances I use them alone with curative results, while with some others indicated remedies are associated.
- I believe that by the judicious use of Doan's Pills many serious complications are arrested and many hopeless and incurable cases of Bright's disease prevented.
- I have often found that one box of the pills is all that is required to effect a cure, but in some cases I continue their use until all symptoms are entirely absent and the cure effectual and permanent.
- A free trial of this great Kidney and Bladder Specific can be obtained by addressing Foster-Milburn Co., Buffalo, N. Y. The regular size is 50 cents per box. If sent for sale by your druggist or dealer, will be sent by mail, charges prepaid, on receipt of price.

- CASE 3.**
 BROWN EAKS, Wynne, Ark., age 21. Had severe case of malarial miasmata or swamp fever. Gave necessary liver medicine, calomel and podoph. and morph. sulph. to relieve pain, and ordered Doan's Pills for the high state of congestion and inflammation of the kidneys. Recovery resulted in two weeks. Prescribed Doan's Kidney Pills, to be continued until the kidneys were thoroughly strengthened and all pain back subsided.
- CASE 4.**
 ELIJAH ELLIOTT, Tarry, Ark., age 34. Pain in back and legs and headache. Uric-acid poisoning. Prescribed Doan's Kidney Pills. After taking several boxes pain subsided—urine became normal, or natural, and patient able to resume his work.

Yours truly,
 Dr. Leland Williamson
 YORKTOWN, ARK.

DEER IN CONNECTICUT.

Becoming Almost Annoying as Rabbits Are in Australia.

Deer are becoming almost as much of an annoyance to the farmers of Connecticut as are the rabbits to those of Australia, with this difference that in the latter country they can employ means of self-protection to any limit they see fit. But in Connecticut, if a farmer sees a herd of deer feeding on his corn or tramping on his oats or browsing upon his apple or peach trees he can only use moral suasion. Were he to shoot an alien cow thus engaged he could probably settle for \$30 or \$40, or whatever the market price of the beast might be; but if he shoots a deer it means a \$100 fine or thirty days in jail, or both. The deer seem to have caught on to the situation and highly appreciate it. The close season is continuous there until June, 1911, at the end of which time, unless their present immunities are withdrawn, they will probably be more numerous than cattle. They are gentle and confiding creatures, and, of course, they must eat. At the same time, the situation is becoming formidable, and it is receiving considerable discussion by the press of the state, though even that is hard put to it to suggest a practical remedy. The New London Day observes, with reference to the suggestion that there should be an open season, during which they might be hunted: "Deer may be a nuisance, they may destroy some property; but they are graceful and beautiful animals, and they wouldn't hurt the least living thing. As much cannot be said of the average fool with a gun, who fancies he is a deer hunter. He may now and then shoot a deer, but he is much more likely to put one of his crazy bullets through a small boy gathering chestnuts or through a fellow hunter." Fresca meat of all kinds is high and venison is good, but in our sister state it is venison, venison everywhere, but not a bit to eat. Perhaps this situation throws a little side light on the cult of vegetarianism. Let us imagine the same immunity extended to the cattle, the sheep, the goats, the swine and the poultry. Not only would the domestic animals occupy the earth, but they would not leave food enough to keep the vegetarians alive. Regarded from this point of view, the old order of things is likely to continue for some time longer.—Boston Transcript.

PUTNAM FADELESS DYES produce the brightest and fastest colors.

You might just as well undertake to make a community ashamed of their religion by ridiculing it as by ridiculing to try to make them ashamed of their fashionable fads.

We are never without a bottle of Pisco's Care for Consumption in our house—Mrs. C. M. Swayze, Wakita, Okla., April 17, 1901.

THE WRONG DOOR
 Girl (jokingly)—"I'd like a place where I'll have everything I want, nothing to do, and no one to boss me."
 Clerk—"This, miss, is an employment office, not a matrimonial agency."

80 Bu. Macaroni Wheat Per A.
 Introduced by the U. S. Dept. of Agr. It is a tremendous cropper, yielding in good land 80 bushels per acre, and on dry, arid lands, such as are found in Montana, Idaho, the Dakotas, Colorado, etc., it will yield from 40 to 60 bushels. This Wheat and Speltz and Hanna Barley and Eponus Inermis and Billion Dollar Grass makes it possible to grow and fatten hogs and cattle wherever soil is found.

JUST SEND 10c AND THIS NOTICE to the John A. Salzer Seed Co., La Crosse, Wis., and they will send you free a sample of this Wheat and other farm seeds, together with their great catalogue, alone worth \$100.00 to any wide-awake farmer. (C.-N. U.)

GROWTH OF INSANITY.
 In Cities It Is Increasing and Experts Demand a Change.

What change can be made in city life to stop its enormous production of insanity, yearly increasing?

Here is a question which is yet to be solved. The medical fraternity is at a loss for a general remedy; puzzled to find means of overcoming the beneficial effects of a city's acute activity on its general mental condition.

London produces seventy lunatics a week and New York is almost as bad, and its increase is greater proportionately. Experts say that if it were not for the fact that nature steps in and generally refuses to grant children after the fourth or fifth generation, conditions would be far worse than they are.

The outlook of the future is not bright, according to medical opinion, unless the minds of the city people are better able within the next few generations to adjust themselves to their progressively complicated environment, unless balancing interests and mental habits are developed to overcome the unnatural nervous tension of city life.

So complicated is the environment of those who live in great towns, so many and so varied are the calls upon their self-control and upon their effort-making powers, that their mental machinery is apt to become more complex, its parts require more construction and adjustment and the whole machine is more apt to get out of gear and to suffer derangement than in the more primitive and less emotional life of even half a century ago. It is not overwork that is the determining cause of the disturbance of mental equilibrium, but curbing care, worry and anxiety.—New York World.

Freak Coins Have Gone.
 Recent mention of the disappearance of the \$2.50 gold piece from circulation and the premium this coin commands as a curio have set many to rummaging in old pocketbooks and the bottoms of cash boxes and drawers in search of odd or out-of-date coins. Some have found a \$2 piece, but not many. The \$3 piece, one quite common, but always a sort of curiosity, is often found, and many have specimens of the little gold coins representing 25 and 30 cents, which were not minted by the general government and probably have not so much gold in them as they represent. They used to pass as coin, but were never in general circulation, being so easily lost that they soon became scarce.

One of the handsomest coin relics seen is a \$10 gold piece bearing the mint stamp of 1793. It is larger than the present \$10 gold piece. The owner has it hung in a band and wears it as a charm on his watch chain. The owner says he refused an offer of \$150 for this relic. The old octagonal \$50 pieces were quite common in California in early days, when gold dust was largely used as a circulating medium. They were made of pure gold, and while they had not the elegant finish of the gold coins minted by the government in those days, many still remember them as the handsomest coins they ever saw. Many people now would consider them handsome on account of the \$50 in them.—Portland Oregonian.

It is excellent to appreciate those who excel.

A COMRADE OF GENERAL GRANT

Says: "I Do Not Believe Pe-ru-na Has a Superior for Catarrh."

BENJAMIN F. HAWKES
 Benjamin F. Hawkes, of Washington, D. C. is One of the Three Living Comrades of General Grant in His Cadet Days at West Point.

In a recent letter from 611 G st., S. W., Washington, D.C., this venerable gentleman says of Peruna:

"I have tried Peruna after having tried in vain other remedies for catarrh, and I can say without reservation that I never felt a symptom of relief until I had given Peruna the simple trial that its advocates advise. I do not believe it has a superior, either as a remedy for catarrh or as a tonic for the depressed and exhausted condition which is one of the effects of the disease."
 —Benjamin F. Hawkes.

have come to rely upon it almost entirely for the many little things for which I need medicine.

"When epidemics of la grippe first began to make their appearance in this country I was a sufferer from this disease.

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for la grippe, and found it to be just the thing."—Isaac Brock.

Pe-ru-na Used in the Family for Years.

Mrs. E. West, 137 Main street, Menasha, Wis., writes: "We have used Peruna in our family for a number of years and when I say that it is a fine medicine for catarrh and colds, I know what I am talking about. I have taken it every spring and fall for four years and I find that it keeps me robust, strong, with splendid appetite, and free from any illness. A few years ago it cured me of catarrh of the stomach, which the doctors had pronounced incurable. I am very much pleased with Peruna. I am 87 years old"—Mrs. E. West.

Pe-ru-na Is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Peruna corrects all this by its specific operation on all the mucous membranes of the body.

One who will convince anyone. Once used and Peruna becomes a lifelong stand-by with old and young.

Mrs. F. E. Little, Tolono, Ill., writes: "I can recommend Peruna as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled severely with it for over a year, and also a cough. Now my cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy. I am so well I am contemplating a trip to Yellowstone Park this coming season. How is that for one 71 years old?"

In a later letter she says: "I am only too thankful to you for your kind advice and for the good health that I am enjoying wholly from the use of your Peruna. Have been out to the Yellowstone National Park and many other places of the West, and shall always thank you for your generosity."—Mrs. F. E. Little.

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, Utica, N. Y., writes: "In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much affected that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with severe rheumatic pains in my limbs. I commenced taking Peruna and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Peruna, and now when eighty-eight years old can say it has invigorated my whole system."—Rev. J. N. Parker.

Mr. W. B. Schander, of Terre Hill, Pa., writes: "I got sick every winter, and had a spell of cold in February, 1890. I could not do anything for almost two months. In December, 1893, I saw one of your books about your remedies. Then I wrote to Dr. Hartman for advice, and he wrote that I should commence the use of Peruna, and how to take care of myself.

"I did not lose one day last winter that I could not tend to my stock. I am sixty-three years old, and I cannot thank you too much for what you have done for me."

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

DON'T OVERLOOK THIS!
THE MIETZ AND WEISS OIL AND GAS ENGINES

Why buy a common cheap engine when you can operate the Mietz and Weiss Engine on fuel costing 5c per gallon. Most economical engine known. M. Mietz, 125 Mot St., New York.

The number of periodicals regularly received by the library of the University of Michigan during the past year was 1070. Of these 780 came to the general library; 20 to the law library; 16 to the dental library, and 34 to the homeopathic library.

Take all the folly and foolishness out of this world, and there would be little excitement, and no fun at all in living in it.

ALABASTINE
 the Durable Wall Coating, Won't Rub Off.

WHY?
 Because it cements to, and is not stuck on the wall with decaying, animal glue, as are the various so-called "wall finishes," which are kalsomines sold under fanciful names.

You can apply Alabastine.

ALABASTINE

The Only Sanitary and Permanent Wall Coating

ALABASTINE is not a disease-breeding, hot water glue wall finish, furnishing a lodgment and harbor-ground for disease germs; it is a natural, rock-base composition, in white and many exquisitely beautiful tints; in powder form, ready for use by simply mixing with cold water. Anyone can brush it on.

ALABASTINE cements to walls, destroys disease germs and vermin, and never rubs off or scales. Other wall coatings, under fanciful names, and usually mixed with hot water, are unhealthy kalsomines, stuck on the wall with glue, which soon rots, nourishes germs of deadly disease, rubs and scales, spilling walls, clothing and furniture. When it is necessary to refinish, the old coats must be washed off—an expensive, nasty, disagreeable job, making the rooms damp and unfit to live in.

When walls are once coated with Alabastine, succeeding coats may be applied, year after year, without washing the walls, thus saving great expense and annoyance.

Hot and Cold Water Kalsomines Have No Merit
 Get dealers to sell them, buying them cheap, and trying to sell on Alabastine's demand until such time as their customers learn of the imposition.

THEY ARE WORTHLESS PREPARATIONS
 If you cannot buy Alabastine of your hardware, paint or drug dealer, refuse all imitations, and write us. We will tell you where you can get Alabastine without delay, or sell it to you direct. \$500.00 GIVEN AWAY. Write for particulars.

Leaflet of dainty tints, hints on decorating, and our artists' up-to-date ideas on beautifying the home, free. Buy Alabastine only in packages, properly labeled.

Alabastine Company GRAND RAPIDS, MICH. and 105 Water St., New York City.
