

### LIEUT. F. S. DAVIDSON

### PE-RU-NA STRENGTHENS THE ENTIRE SYSTEM.

F. S. Davidson, Ex-Lieut. U. S. Army, Washington, D. C., care U. S. Pension Office, writes: "To my mind there is no remedy for catarrh comparable to Peru-na. It not only strikes at the root of the malady, but it tones and strengthens the system in a truly wonderful way. That has been its history in my case. I cheerfully and unhesitatingly recommend it to those afflicted as I have been."

If you do not derive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

### ESKIMOS REUNITED TO WORLD.

Those of Greenland's East Coast Again in Touch with Civilization. The Eskimos of the east coast of Greenland have been reunited to the world, after having forgotten, perhaps for many years, the little they ever knew of it, says the Philadelphia Public Ledger. The Danish supply steamship Godthaab has returned to Copenhagen from a visit to Angmagssalik, a station established by the government for the purpose of improving the condition of the Greenland natives and developing a trade with them. It is an interesting enterprise, because Denmark's dealings with aboriginals are humanizing and philanthropic, and the material it had to deal with here was in its natural condition.

As far as is known, the natives of Greenland's east coast had never come into contact with the white race until twenty years ago, when they were discovered by Capt. Holm, a Danish explorer. It was six years later before anything more than fragmentary information about them was given out, and then Denmark published a sumptuous work in three volumes devoted to the people and their habitat. Probably no other book so exhaustive and costly has ever been printed about a handful of primitive people. They numbered only 548 when they were discovered.

The supply steamship reports at Copenhagen that the East Greenland station is in thriving condition. It has simply transformed the life of the natives. They have knives, timber, metal points for their harpoons and a hundred comforts and conveniences they never knew before. The Danish government buys their oils, furs, skins and feathers. The station takes everything they have to sell in exchange for the commodities they require.

A way has been found around the glaciers jutting out into the sea which so long barred attempts to travel around the south end of Greenland. A few parties have made sledge journeys to the Eskimo settlements of the west coast, and some of them have settled there. They have never heard of spirituous liquors.

They are pure-blood Eskimos, the only unmixed natives in Greenland, excepting in the Smith sound region; but their features are thinner and longer than those of other Eskimos, and they are a little taller than those of the west coast. They have the dimmest tradition that their fathers came from the north, and considerable evidence has accumulated pointing to the probability that they are the descendants of natives who reached northwest Greenland from the archipelago north of our continent and then skirted the north and east coasts of Greenland to their present abode.

**Thomas' Opinion.** The father of a young man who had been lately married had occasion to send a faithful but somewhat blunt old servant to his son's house, some miles distant, on business. On his return, anxious to hear the old man's opinion of the lady, he said:

"Well, you saw the bride, Thomas?"  
 "Yes, master, I saw the bride."  
 "She's a wealthy lady, Thomas."  
 "Yes, master, very wealthy, I suppose."  
 "Well, and what's your opinion, Thomas?"  
 "I think she's a right bonnie lady to talk to, as well as being rich and clever; but, master," said the old man, confidentially, "if beauty's a sin she won't have that to answer for."

**Woman, Lovely Woman!** "Don't you know," said Miss Overseven, "that I am really feeling younger to-day than I did a few years ago?"  
 "Yes," rejoined Miss Inerteens, "I've noticed of late that you are getting quite childish."

### HARVEST SHOWS FARM WEALTH

Railroad People Give Figures Illustrating Nation's Grain Production. The American farmer is an exceedingly prosperous individual, according to railroad statisticians, who have figured out that the grain traffic for this crop year will aggregate 1,500,000 carloads. If all this grain could be marketed simultaneously and hauled in a single solid train of freight cars the train would be 11,931 miles long, exclusive of the locomotives that would be necessary to move it.

Dividing this into trains of forty cars each, there would be required 37,500 locomotives or 335 miles of draught machinery. Adding this 335 miles to the 11,931 miles of cars, there is a total of 12,266 miles.

To hold the cars and engines it would require nearly every foot of four tracks extending from New York to San Francisco. The necessary single track would measure half the circumference of the globe.

These figures do not fully tell of the vastness of the wealth which the American farmer has taken from his land in corn, oats, wheat, barley and rye in the year 1905. The railroad men's estimates are confined to the grain which will be moved to market centers on the steam roads. Probably not over one-third of the grain produced will ever see a freight car. The other two-thirds will be hauled to local mills in wagons or will be consumed by live stock on the farms. To hold the entire corn crop alone would call for a train and engines 21,000 miles in length.

In this story of agricultural treasure lies the reason for the unparalleled preparations of the western railroads for traffic this season. If the farmer were not already well supplied with ready money and were forced to rush his grain to market, as he has done in past years, it is reasonable to suppose the railroads would be utterly swamped with grain traffic.

The statisticians estimate the wheat and oats crops of Minnesota and the Dakotas at 325,000,000 bushels, of which 190,000,000 bushels will be marketed on steam roads. They place the total yield of corn at 2,566,000,000 bushels, and expect that 786,000,000 bushels will be hauled on freight trains greater or less distances. Granting that these figures are correct, there will be 173,000 carloads of wheat and oats from the three States mentioned, or 4,325 trains of forty cars each. The estimate for corn is 706,000 carloads, or 19,900 trainloads of forty cars each. On top of this there probably will be 17,000 carloads of flaxseed to be hauled from the Northwest.

To haul the 1,500,000 cars estimated for all kinds of grain, there would mean a movement of a hundred trains of forty cars each for every day of the year.

### ELECTRIC PLOW PROMISED.

Trolley System Is to Be Applied to Breaking Farm Land.

A Minneapolis machinery company has under construction the working parts of an invention that may prove to be the working of a revolution in the matter of breaking ground on bonanza farms, of which there are so many in the Northwest, and which may be used even on smaller farms wherever there is an engine handy that can be put to the use intended.

The idea is no less than to plow the fields by electricity, by the use of an electric plow. The plow itself is to be operated by electric power, and is a large gang affair which will turn over a wide piece of earth. A threshing engine is to be used to furnish the electricity, a dynamo to be attached.

The plow is to be run by trolley, the wire to be run from the working dynamo to the farthest corner of the field. The plow picks up the wire as it runs, and when it arrives at the far end of the field, an easy arrangement alters the position of the feed wire so that the whole field can be reached in that way.

It is claimed for the new idea that it will be a most wonderful labor saver, and that it will do wonders in the way of speed, running about four times as rapidly as horses can pull a plow of the same kind. It will also be much more handy than steam, because of the fact that steam machines of that kind are so heavy that they are unwieldy and cut into the field, especially when the ground is soft.

It is claimed that if the plow works reasonably well, the same idea can be put to use in working harvesters and other farm machinery, which will do away with the necessity of having so many horses to feed all through the year, when less would be necessary under the trolley system.

### FROST NIPS WESTERN CROPS.

Visits the Rocky Mountain Districts and Missouri Valley Regions. The weekly bulletin of the weather bureau summarizes crop conditions as follows:

Temperatures favorable for the maturing of crops prevailed in all districts east of the Rocky mountains during the week except in the northern portions of the upper Missouri and upper Mississippi valleys and in northern New England, where it was somewhat too cool. Scattered frosts, causing damage, occurred in the central and northern Rocky mountain districts and in the upper Missouri valley during the latter part of the week. The greater part of Texas, portions of Kansas and Missouri, and the north Pacific coast continue to need rain. Corn has advanced rapidly and much of the early crop over the southern portion of the corn belt is being cut.

Considerable overripe spring wheat remains uncut on flooded lowlands in northern Minnesota and eastern North Dakota, and moisture has injured grain in shock in portions of South Dakota and Iowa.

The three-masted schooner Henry P. Havens, Captain Walton of Newark, N. J., which sailed from Norfolk, Va., with a cargo of lumber for New York, returned to port in distress, the vessel having encountered a northeast gale off the coast, losing her deck load and having both her foresail and mainsail carried away in the storm. She will repair and make a new start for New York.

M. G. Tonini, local agent for an Italian steamship company, has filed a petition of bankruptcy at San Francisco, fixing liabilities at \$57,718.

### Looked Suspicious.

Mrs. Peckem—I'm afraid my husband is planning some sort of mischief. Mrs. Neighbors—Why do you think so?

Mrs. Peckem—Because of his anxiety to have me go to the seashore for a month.

Mrs. Neighbors—And are you going?

Mrs. Peckem—Am I going? Not in a hundred years!

### A WOMAN'S SUFFERINGS.

Weak, Irregular, Racked with Pains—Made Well and 36 Pounds Heavier. Mrs. E. W. Wright of 172 Main St., Haverhill, Mass., says: "In 1898 I was suffering so with sharp pains in the

small of the back and had such frequent dizzy spells that I could scarcely get about the house. The urinary passages were also quite irregular. Monthly periods were so distressing I dreaded their approach. This was my condition for four years. Doan's Kidney Pills helped me right away when I began with them, and three boxes cured me permanently."

Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers. Price 50 cents per box.

### Kaiser and Children.

Recently the Kaiser and Kaiserin visited Saarbrücken to unveil a statue in that town, their little daughter, Princess Louise, being left in the meantime in the royal car at the railway station. A beautiful bouquet of flowers had been brought for presentation to the little princess by three small girls, who looked very disappointed at the absence of the little Louise. The Kaiserin, who noticed it, at once ordered that the children should be driven to the railway station to deliver their present. They found the Princess Louise at supper, and one of the children described how she had spilled some egg and cocoa on her white frock. She was very friendly and pleased, and talked as though she had known them "ever so long."

"The Empress, too," the girl relates, "was very kind to us at once, and said: 'Little girls, when you come to Berlin, you must really and truly come to see us. Promise me that you will come.' And the little princess also said we must come. The Emperor shook hands with us, and when he squeezed my hand a bit I squeezed back, and he laughed and put his other hand on top of it. Then both the Emperor and Empress kissed us, and the Emperor said: 'Well, little girls, I think my daughter must make you a pretty present in return for your beautiful flowers.' When we had left, and stood on the platform watching the train move off, the Emperor and Empress and the princess looked out, nodding and waving good-bye till the train disappeared.—Housekeeper.

Oregon modestly came to the front the other day with hailstones the size of cherries. Now Algeria goes one better with hailstones the size of hens' eggs which devastated a territory 120 miles long by six wide.

"Dr. David Kennedy's Favorite Remedy gave me prompt and complete relief from dyspepsia and liver derangement." E. T. Trowbridge, Harlem, N. Y.

### As Defined.

"Say, pa," queried little Johnny Bumpnickle, "what's the difference between an optimist and a pessimist?"  
 "An optimist," replied pa, "enjoys a thing he can't like, and a pessimist likes a thing he can't enjoy."

Piso's Cure for Consumption cured me of a tenacious and persistent cough.—Wm. H. Harrison, 227 W. 121st street, New York, March 25, 1901.

### A Doubtful Compliment.

Mrs. Malaprop—I'm so glad to meet you, Mr. Scribbles, for I have enjoyed your books so much.  
 Scribbles (delighted)—Thank you, Mrs. Malaprop. I am indeed pleased to know you appreciate my humble literary efforts.

Mrs. Malaprop—Yes, I certainly do. Why, there isn't a night of my life that I don't fall asleep over one of them.

Mrs. Winshaw's Soothing Syrup for Children soothes the gums, reduces inflammation, allays pain, cures wind colic. 2 cents a bottle.

### A Fib that Told on Itself.

A West Side young woman, who was going about twenty-five miles in the country to visit an aunt recently, had arranged to take a morning train and had written her relative to meet her. She found, however, that it would be inconvenient to take that train, so she decided to go in the evening. Imagine the surprise of her aunt on meeting the morning train to find no girl, but a letter in the mail it brought saying:

"I'm sorry, aunt Mary, but missed the morning train. I'll be out on the evening one.—Kate."—Kansas City Times.

### DISFIGURING HUMOR.

BRUSHED SCALES FROM FACE LIKE POWDER.

Doctor Said Lady Would Be Disfigured for Life—Cuticura Works Wonders.

"I suffered with eczema all over my body. My face was covered; my eyebrows came out. I had tried three doctors, but did not get any better. I then went to another doctor. He thought my face would be marked for life, but my brother-in-law told me to get Cuticura. I washed with Cuticura soap, applied Cuticura Ointment, and took Cuticura Resolvent as directed. I could brush the scales off my face like powder. Now my face is just as clean as it ever was.—Mrs. Emma White, 641 Cherry Place, Camden, N. J., April 25, '05."

## THE IDEAL WIFE

### Shapes the Destiny of Men—The Influence of a Healthy Woman Cannot Be Overestimated.

Seven-eighths of the men in this world marry a woman because she is beautiful in their eyes—because she has the qualities which inspire admiration, respect and love.

There is a beauty in health which is more attractive to men than mere regularity of feature. The influence of women glorious in the possession of perfect physical health upon men and upon the civilization of the world could never be measured. Because of them men have attained the very heights of ambition; because of them even thrones have been established and destroyed.

What a disappointment, then, to see the fair young wife's beauty fading away before a year passes over her head! A sickly, half-dead-and-alive woman, especially when she is the mother of a family, is a damper to all joyousness in the home, and a drag upon her husband.

The cost of a wife's constant illness is a serious drain upon the funds of a household, and too often all the doctoring does no good.

If a woman finds her energies flagging, and that everything tires her, dark shadows appear under her eyes, her sleep is disturbed by horrible dreams; if she has headache, dizziness, bearing-down pains, nervousness, whites, irregularities, or depression, she should take means to build her system up at once by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

This great remedy for women has done more in the way of restoring health to the women of America than all other medicines put together. It is the safeguard of woman's health.

Following we publish, by request, a letter from a young wife.

Mrs. Bessie Ainsley of 611 South 10th Street, Tacoma, Wash., writes:

Dear Mrs. Pinkham—  
 "Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so that I could not enjoy my meals, and half my time was spent in bed.

Lydia E. Pinkham's Vegetable Compound Always Succeeds Where Others Fail.

Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every woman who is in poor health and ailing.

Its benefits begin when its use begins. It gives strength and vigor from the start, and surely makes sick women well and robust.

Remember Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of women's ills. This fact is attested by the thousands of letters from grateful women which are on file in the Pinkham laboratory. Merit alone can produce such results.

Women should remember that a cure for all female diseases actually exists, and that cure is Lydia E. Pinkham's Vegetable Compound. Take no substitute.

If you have symptoms you don't understand, write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

## Constipation

ENDANGERS LIFE

### Deal With the Honest Druggist

When you ask your druggist for Mull's Grape Tonic, a cure for Constipation, Stomach and Bowel Trouble, and he tries to sell you something else which he claims is just as good that is substitution or dishonesty. It is an insult to your intelligence. He does it for profit and not because he cares for your health. No honest druggist will do it.

Stop a moment and reflect before you permit him to mislead you. He is willing to endanger your life and health for the sake of a few pennies. Is he a safe man to trade with? Deal with the Honest Druggist who will promptly supply you with what you know you want, and that which you call for.

Until Mull's Grape Tonic was put on the American market there was no cure for Constipation and Stomach Trouble. Your Doctor will tell you as much. He knows that a physic won't cure Constipation. Some remedies may act as laxatives and physics, but you and I know from experience that physics are dangerous, that they weaken, that they not only fail to cure, but make us worse, until finally they lose effect entirely which means paralysis of the Bowels and death by Typhoid Fever, Appendicitis, Stomach, Heart, and Lung Trouble, Rheumatism, Dropsy, Kidney and Bright's Disease, etc.

There are honorable druggists in most every locality, men who will promptly supply you with Mull's Grape Tonic and not try to sell you something else, but should there be no such druggist there we will send you the Tonic direct from this factory without additional expense to you.

If you have Constipation and want to try Mull's Grape Tonic and have never used it, we will send you or any of your friends, who suffer with this affliction, a free bottle. Send us name and address at once while we are giving the first bottle free; we want to prove to you, at our expense, the truth of the claims we make for this valuable remedy. Use the coupon below at once while we are giving the remedy away. Free to all who have never used it.

FREE GRAPE TONIC COUPON 113

Send this coupon with your name and address and your druggist's name, for a free bottle of Mull's Grape Tonic, Stomach Tonic, Constipation Cure and Blood Purifier, to MULL'S GRAPE TONIC CO., 21 Third Ave., Rock Island, Ill. Give full address and write plainly. The \$1.00 bottle contains nearly three times the 50c. size. At drug stores. The genuine has a date and number stamped on the label—take no other from your druggist.

Sale Ten Million Boxes a Year.
