Rheumatism Thoroughly Cured by Dr. Williams' Pink Pills for Pale People.

There is one remedy that will cure rheumatism in any of its forms and so thoroughly eradicate the disease from the system that the cure is permanent. This remedy is Dr. Williams' Pink Pills for Pale People and the proof of the statement is found in the experience of Mr. T. S. Wagar, of No. 72 Academy street, Watertown, N. Y. He says:

"The pain was in my joints and my sufferings for over two years was beyond description. There was an intense pain in my shoulders that prevented me from sleeping and I would get up and walk the floor at night. When I began taking Dr. Williams' Pink Pills the improvement was gradual, but by the time I had taken four boxes I was entirely cured and I have not had the slightest touch of rheumatism since that time."

Mr. Wagar's wife is also enthusiastic in her endorsement of Dr. Williams' Pink Pills. She says: "I have tried the pills myself for stomach trouble and have experienced great relief from their use. My daughter, Mrs. Atwood, of Gill street, Watertown, has used them for female weakness and was much benefited by them. I regard Dr. Williams' Pink Pills for Pale People as an extremely valuable family medicine."

Dr. Williams' Pink Pills have cured the worst cases of bloodlessness, indigestion, influenza, headaches, backaches, lumbago, sciatica, neuralgia, nervousness, spinal weakness, and the special ailments of girls and women whose blood supply becomes weak, scanty or irregular. The genuine Dr. Williams' Pink Pills are guaranteed to be free from opiates or any harmful drugs and cannot injure the most delicate system. At all druggists or from the Dr. Williams Medicine Co., Schenectady, N. Y., postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.

**Strange Gifts for King.**  
M. Le Page, a humble tanner inhabiting the little town of Serge, France, bought the corpses of two horses killed at Place Iohan, Paris, by the bombs thrown at the young king of Spain. Le Page did not want them for the purposes of his profession, but being a patriotic Frenchman and particularly abhorring the anarchists he exercised all his skill removing the skin of the animals to preserve the parts penetrated by the projectiles from the bombs. Then he made from them two fine rugs and without consulting anyone wrote directly to Alfonso offering them as presents to the memory of his fortunate escape from death. The king wrote back explaining that a sovereign was not permitted to accept presents from private individuals ordinarily, but in view of the special circumstances of the case he gladly received them and desired to express his warmest thanks, since it was the bodies of these poor animals that protected him and M. Loubet from the designs of the anarchists.

## COMMERCIAL AND FINANCIAL

**Chicago.** The evidences that business is yet expanding are seen in heavy bank exchanges, a larger movement of commodities and added demands for future output in leading manufactures. Railroad and construction requirements multiply and those now being projected cannot be completed earlier than the second half of next year. In iron, steel and rolling stock the demand has run so far ahead that the question of cost has become secondary.

Urgency being the prime condition, it is not surprising that furnace product is dearer this week and finished steel, lumber and other material becoming firmer. Building work is steadily augmented by new plans announced, and a significant feature is the good demand for suitable business locations.

Weather conditions were conducive to further activity in the distributive branches and dealings swelled to a large aggregate. The principal retail lines had a better absorption of warm apparel, foodstuffs and household utensils. Wholesale operations were stimulated by increasing numbers of visiting buyers and bookings made a satisfactory gain, supplementary supplies and holiday goods being in best request. Shipping rooms exhibit renewed pressure in forwarding to interior points. Advances as to country trade show merchandise stocks continuing under rapid depletion and the outlook most encouraging.

Commodities go into consumption to an unparalleled extent, testifying to greater purchasing power of the people. Deliveries are far behind in various lines, due to inadequate transportation, and this situation becomes intensified with approaching close of navigation.

"Failures reported in the Chicago district number 27, against 28 last week and 24 a year ago.—Dun's Review of Trade.

**New York.** Colder weather has further stimulated retail trade West and North. Jobbing business continues in unusual volume for this season of the year, and holiday specialties show increased call. Spring demands are looming up in a number of lines, apparently foreshadowing a shorter than usual between-seasons period. Industry generally shows unprecedented activity, with iron and steel a notable leader, followed by shoe and textile manufacturing. The building trades, and therefore the demand for lumber and other materials, show unexampled movement for this season. Although the congestion in railway matters has been relieved at some points, notably at lake and rail centers, complaints as to car shortages affecting the movement of grain and collections come from the Northwest. Business failures in the United States for the week ending Nov. 2 number 160, against 178 last week, 200 in the like week of 1904, 216 in 1903, 148 in 1902 and 191 in 1901. In Canada failures for the week number 26, against 23 last week and 20 in this week a year ago.—Bradstreet's Commercial Report.

## HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or official names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup"—and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
