BURKETT WOULD REBUILD POST AT FORT NIOBRARA

Asks \$200,000 to Be Used for the Construction of New Buildings.

Proposes to Have Finest Artillery of the West Quartered in Nebraska.

Washington, March 5.—Senator Burkett introduced in the senate today an amendment to the army appropriation bill, which has passed the house, asking for \$200,000 with which to begin the rebuilding of Fort Niobrara into a regimental post, preferably for field artillery. The buildings are so dilapidated as to be beyond repair and it is therefore decided by the war department to begin anew. Fort Robinson is already provided for in the bill as it passed the house, the quartermaster general having estimated \$101,500 for new buildings for that post.

The war department now has its eyes focussed on reservations having large areas, where troops can be given all kinds of exercise that would become imperative in case of war. Fort Niobrara has 60,000 acres—one of the largest in the country—and Fort Robinson has 23,000 acres, which is large as compared with many others. Further, it is claimed that mounted troops can be maintained at Fort Robinson cheaper than at any other post in the country, with Fort Niobrara a close second.

Congressman Hull of Iowa, chairman of the military committee, has given his promise to interest himself in behalf of the Fort Niobrara proposition. It will have to be inserted as a senate amendment to the army appropriation bill. The war department is decidedly in favor of having brigade posts, at which larger bodies of troops can be collected than have ordinarily been kept at single posts in past years, and it is also in favor of having these posts established at comparatively long distances from large cities, as the city posts are found to demoralize troops, giving too much opportunity for dissipation of the men.—World-Herald.

As we go to press the case of the state vs John Stetter and Harry Hilsinger for conducting gambling, is occupying the attention of the court. Allen G. Fischer and A. M. Morrissey, as attorneys for the defendants, are endeavoring to keep the case from going to trial. Judge Wood and R. G. Easley are attorneys for the state and seem to have held their ground as the case is yet being contested. The court house is crowded with spectators who seem to be taking considerable interest in the case. A divorce was granted Mrs. Carrie Brown from Walter Brown.

THE SOCIAL EVIL.

Rev. Charles W. Blodgett in a recent public utterance thus probes the social ulcer in our midst: "Think of it, good men and women of this city! Two thousand and over of women pay two dollars a month, or \$48,000 a year to be protected by the police of this city in immorality. There is no law that sanctions or permits this horrible traffic of virtue. This is done by the political party to which I belong. The 'leaders' claim that it controls, this vice controls! It is a wonder that God's burning fire does not fall upon us for using that word! Within two blocks of St. Paul's church, of which I am the pastor, there are abominations worse than could be found in Sodom and Gomorrah. We challenge the Executive Head of the campaign fund of the dominant party to tell us what becomes of these \$48,000! He dares not do it. The most eloquent preachers in this nation may be secured by the churches in this city, but until we have a revolution in civic affairs, hell will continue to hold a carnival of vice within our borders! Yes! Yes! More than that is true. The saloon must be taken into account. Vote the saloon out of existence, and you will strike a death blow to the bawdy houses, bossism and the whole brood of evils!"—Search Light.

We wish to commend North Platte W. C. T. U. for the splendid report they were able to give in our state paper, The Union Worker. We will copy snatches of the same: "A committee from the union have been assigned the duty of meeting with the council to talk over the violations of the liquor laws which occur every day in North Platte, as in every other place where the city permits for a price, these 'vestibules of hell' to establish themselves."

"One item this union has given special attention to, is the support of a 'rest room' and reading room—in short, W. C. T. U. headquarters for the county. The county commissioners have made an appropriation for the support of these rooms, with a promise to increase it. Most of the business firms, nearly every church and fraternal society made small monthly payments to this fund. The most prominent druggist, as he gave his name for a monthly payment, expressed the wish to become an honorary member and wear the badge. One of the prominent physicians also wears the badge, and several of the ministers. The county attorney also (just think of that) is committed to our side and everything indicates that the class in municipal law is doing good to those who try to inform themselves."

Can you imagine how it would seem if such conditions existed in our own town? God speed the right.

W. C. T. U. COMMITTEE.

Avoid the Cheap and "Big Can" Baking Powders.

The cheap baking powders have but one recommendation: they certainly give the purchaser plenty of powder for his money. These powders are so carelessly made from inferior materials that they will not make light, wholesome food. Further, these cheap baking powders have a very small percentage of leavening gas; therefore it takes from two to three times as much of such powder to raise the cake or biscuit as it does of Calumet Baking Powder. Therefore, in the long run, the actual cost to the consumer of such powders is more than Calumet would be. Cheap baking powders leave the bread sometimes bleached and acid, sometimes yellow and alkaline, and always unpalatable. They are never of uniform strength and quality. Why not buy a perfectly wholesome baking powder like Calumet, that is at the same time moderate in price and one which can be relied on? Calumet is always the same, keeps indefinitely and gives the cook the least trouble.

A Food to Work On

Work! Work!! Work!!!

Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time.

The man of to-day needs something more than mere food; he needs a food that makes energy—a food to work on.

Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers—and this means **Uneeda Biscuit**—are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour.

That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, the finest soda cracker ever baked. An energy-giving food of surpassing value—sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. *Truly the food to work on.*

Whoever you are—whatever you are—wherever you work—**Uneeda Biscuit.**
