ALL DEMOCRATS EXCEPTING ONE CHOSEN IN OMAHA

People Decide It by Big Majorities, and Score a Victory for Municipal Ownership.

Dahlman's Plurality is 2,790, and Withnell is High Man With a Lead of 4,011.

(World-Herald.)

Three weeks from next Thursday, the militant democracy of Omaha will take complete possession of the city hall, and install therein a new administration. It will be a clean sweep from sub-basement to tower, by reason of the landslide that attended Tuesday's election. Mayor Dahlman will, in fact, be the first democratic mayor who has held the office since the present structure has been occupied, Mayor Cushing retiring fifteen years ago, just as the building was ready for occupancy. It was christened by Mayor Bemis, and has since remained continuously in the hands of the Philistines.

But on May day, in this grand old year 1906, the people declared in quite emphatic terms that they wanted a change, and the republicans have received notice that it is their move.

However, it should not be understood that there is grief in the republican heart, for there were some 3,000 republicans who pulled the democratic lever yesterday, and they were quite as jubilant last night as if it were their own baby. One of them declared, "It was a sweeping republican victory—the Fontenelle machine has been knocked higher than Gilroy's kite."

What the Candidates Say.

James C. Dahlman, the successful candidate for mayor—I made a clean fight, appealing to the common people for their support and they responded. When I take the office of mayor these same people and all others will find me just plain "Jim" Dahlman, as I was during the campaign. However, I will be mayor.

E. A. Benson, the defeated candidate for mayor—I am grateful to my friends who stood by me for good government. The gamblers and the corporations were too much for me.

W. C. Bullard, chairman of the democratic central committee—It was the revolt of the republicans against machine rule and the resistless sweep of a united democracy.

A. W. Jefferis, chairman of the republican central committee—We did not get votes enough; that's all I care to say now.

A Food to Work On

Work! Work!! Work!!!

Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time.

The man of to-day needs something more than mere food; he needs a food that makes energy—a food to work on.

Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers—and this means **Uneeda Biscuit**—are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour.

That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, the finest soda cracker ever baked. An energy-giving food of surpassing value—sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. *Truly the food to work on.*

Whoever you are—whatever you are—wherever you work—**Uneeda Biscuit**.
