## TRAGEDY AT PICNIC

### ELEVEN CRUSHED TO DEATH UNDER TROLLEY CAR.

#### Crowded Car at Providence, Rhode Island, Hurlled from Track as It Strikes a Curve Speeding Down a Steep Grade on Country Road.

Eleven persons are dead and a score seriously and many others slightly injured as the result of the overturning of a crowded electric car at Moore's corners, in East Providence, R. I., early Sunday morning. More than 100 young men and women, who had spent the evening at Crescent Park, six miles below Providence, were on a chartered car returning to their homes in Providence, Olneyville and Thornton. It is believed that two of the injured will die.

The motorman in charge of the car, W. J. Laucher, was unfamiliar with the road over which he was traveling. The car, an open one, was of heavy build. Fog prevented a clear view of the road ahead and the motorman, unaware of the sharp curve below, allowed the car to coast rapidly down the hill. Suddenly he felt the car swing into the curve and realizing the peril applied the brakes and reversed the power. The car, however, was thrown into the road twenty feet from the track.

Eleven of the passengers were pinned beneath the car and instantly killed. Those who were able began the work of rescue. A large joist was utilized as a lever, a pile of stones forming a fulcrum, and the car was raised from the ground enough to permit the escape of the prisoners. Two persons had succeeded in escaping when the joist broke under the weight of the car and the heavy vehicle fell back, killing two of the injured. The rescuers again raised the car from the ground and kept it in position while the dead and injured were removed.

Two of those taken out, John Gavin and George Ticherson, both of whom had sustained fractured skulls, died within an hour.

### YOUNG QUEEN AT BULL FIGHT.

#### Queen Witnesses Spectacle Without Outward Show of Emotion.

The royal bull fight at Madrid, Spain, Saturday afternoon was the climax of the spectacular magnificence attendant upon the marriage of King Alfonso. For the time being Madrid forgot the horrors of the attempt on the lives of the royal couple amid the brilliancy and excitement of this national pastime. It was feared that the event would give another opportunity for an outrage, but everything passed off auspiciously, King Alfonso and Queen Victoria being continuously the recipients of enthusiastic ovations. From about noon crowds choked the Calle de Alcalá, leading toward the Plaza de Toros, and extraordinary precautions were adopted to prevent another attempt at assassination.

## MANY AMERICANS ARE SLAIN.

### Miners in Mexico Begin Desperate Battle.

Forty-five Americans were killed Friday at Cananea, Mex., where is located the great copper company of Col. W. C. Greene. The Mexicans are reported to be using dynamite in blowing up the great smelters and mills owned by the Greene Company.

The trouble arose at Cananea over the demand of the Mexicans for an increase in wages from \$3.50 to \$5 per day.

Parties who left there at 1:30 o'clock Friday afternoon said that Col. Greene was addressing practically the entire population of the camp in an effort to pacify the excited Mexicans.

However, between 4 and 5 o'clock Friday afternoon the Mexicans opened fire on the Americans, and forty or more were killed. Col. Greene wired at once to Bisbee for all the armed men that could be sent to protect the Americans and their property at Cananea.

The population of Cananea is 23,000, of which 5,000 are Americans. The family of Col. Greene arrived at Naco, Ariz., Friday afternoon, but the colonel remains with his property. Two trains loaded with refugees are now enroute from Cananea and will go to Bisbee.

There has been bad blood at Cananea for some time and only a month ago the home of the superintendent of the mine was dynamited by unknown parties. Thursday a policeman of the city was killed by an American, who claimed it was a personal grievance he had against the Mexican.

Capt. Tom Rynning, of the Arizona rangers, arrived Friday night from Douglas with a posse of his men. All the arms obtainable in Bisbee, Douglas and Naco are now in the hands of picked men, who are ready to go to Cananea. It is believed that the Mexican officials are doing all they can to save life and property. There is great excitement along the border.

At 11:30 Friday night a train load of refugees arrived from the scene of trouble and confirm the stories earlier in the evening.

It is known that at least a dozen Americans have been killed and fully fifty Mexicans.

## TRAGIC WEDDING DAY.

### Bomb Kills Many in Alfonso's Nuptial Parade.

The public rejoicings over the marriage of King Alfonso and Princess Victoria at Madrid had a terribly dramatic sequel at 2:30 o'clock Thursday afternoon, as a bomb thrown from an upper window exploded with deadly effect near the coach occupied by the king and queen.

Providentially King Alfonso and Queen Victoria escaped when an electric wire deflected the bomb, but at least sixteen persons, most of them belonging to the personal and military escorts, were killed. Many others were injured.

Several of those killed were standing on the balcony of the house from which the bomb was thrown.

The explosion occurred just as the royal couple were about to enter the palace. The route of the cortege had been diverted from Arsenal Street to Mayor Street, owing to the popular desire. The procession had just passed through Mayor Street and was about to turn into the esplanade leading to the palace when an explosion shook the buildings in the vicinity, stunning a large number of people and throwing the cortege into inextricable confusion.

The royal coach was brought to a sudden stop by the shock, officers and soldiers of the escort falling to the ground about the querry and horses that had been killed. The screams of the terrified multitude mingled with the groans of the dying.

It was immediately seen that the royal coach was intact except as it had been damaged by flying splinters. King Alfonso immediately alighted and assisted Queen Victoria out of the carriage. They then entered another coach and were driven swiftly to the palace.

All this happened so quickly that people away from the immediate vicinity were not aware of the tragedy and continued to acclaim their sovereigns.

Soon, however, there appeared the empty royal coach with two horses missing and the others spattered with blood. The grooms and drivers looked deathly pale in their spangled uniforms. Then came a boy shouting that a bomb had been thrown at the king.

The appearance of the king and queen in a coach brought out a delirious ovation.

The bomb, which was concealed in a bouquet, was of steel half a centimeter thick. It was thrown from a third floor window.

A tornado of considerable dimensions, accompanied by hail, struck the Logan bottom Friday afternoon, says a special from Oakland. The tornado passed Oakland about a half mile to the west and everything in its path was swept clean.

At Uehling considerable damage was done to buildings and a man and boy were slightly injured. South of town along the creek the outbuildings and barns on the farms of John Peterson, C. A. Mogal and Alf Walberg were blown down and Walberg's house was moved from the foundation.

A heavy rain accompanied by hail, some stones as big as hen's eggs, preceded the tornado. The wind did considerable damage about town to trees and outbuildings. All telephone wires west and south of town are down.

The cloud passed on up the bottom north, but no damage has been reported as yet.

It terminated about six miles northwest of Lyons. No loss of life has yet been reported.

## TRIED TO CUT DAM.

### Trouble Over the Big Drainage Ditch Near Tekamah.

A Tekamah special says: A few nights ago some persons tried to cut a hole in the big dam at the southern end of the ditch where it will empty into the river. It occurred while the watchman were away from the dam for only a few minutes, and it is supposed that the water was high on some person's land and that they were going to get it off, as there is about fifteen miles of water held in the ditch, which is 35 to 60 feet deep. If the dam should have been broken it would have taken months to repair it. The guards have been doubled and a very careful watch will be kept to see that no persons tamper with it. If nothing happens the dam will be dynamited next week and the big canal will then be turned over to the county.

Hundreds of people are planning on going down to see the big waterway opened and hear the ceremony of the transferring of it to the county. It has taken nearly a year and a half to dig the main canal, the branches having not yet been started.

Staples Cody, of Midland, Mich., and the case came up in the United States court in Omaha and Judge Mungert took out of the hands of the jury and dismissed the defendants. It all grew out of the failure of the Chamberlain banking house, of this city. After the bank failed Cody came to Tecumseh and had in his possession papers which were supposed to be the property of the failed institution. He was accused with trying to dispose of them, and pending a hearing here was placed in jail. The district court acquitted Cody and as Jones and Dennis had caused his arrest the damage suit followed.

Wednesday afternoon a party of 500 friends of Messrs. Jones and Dennis, headed by the Tecumseh Military Band, called at the Dennis home, where the gentlemen were serenaded.

## WRECK NEAR FRANKLIN.

### Cribbing Burns Under Burlington Track and Derails Three Cars.

A small wreck on the Burlington, five miles east of Franklin Sunday afternoon caused some delay in traffic of trains. Three cars went into the ditch, making it necessary for the wrecking car and outfit to clear the main line. It occurred at a place where the track was washed out Monday last. The track had been cribbed up with ties and this cribbing caught fire and burned out, leaving nothing but the rails for thirty feet. The fire was still burning when the wreck happened, and it was only by hard work that the cars were saved from burning. One of the wrecked cars was loaded with oil, but luckily the tank was not broken.

In some way the engine got over the place, but the first three cars behind the engine broke through. The fireman jumped and landed in water six feet deep and he had to swim out. The track was repaired and trains were running in a few hours.

The attention of Secretary of State Galusha was attracted to Bayles, who was an old neighbor and friend in Red Cloud, by a letter from Bayles, asking the secretary to ascertain if possible why he was being detained in the asylum. Mr. Galusha at once called up Superintendent Greene and reported the receipt of the letter. Dr. Greene made an examination of Bayles and pronounced him sane and not a fit subject for the asylum. In affirming the decision of the lower court of Douglas County in the case of Bertha Getzschmann et al. against the county commissioners of Douglas County, the court holds that when rival newspapers set up a claim for county printing and the commissioners, after a hearing in good faith, award the same to one of the papers, a court of equity will not interfere by injunction to restrain or control its action. The plaintiffs sought to secure the printing of the delinquent tax list of the county and two rival papers secured the work after a hearing as to the ability of the papers to come up to the requirements of the law governing such publications. The board of commissioners was sustained.

The state board of assessment has completed the assessment of railroad property in Nebraska. The assessment was made after a consideration of the stocks and bonds, net earnings and the physical property. The board assessed all the railroad property in the state at a total of \$7,659,848.35. This is an increase over last year of \$404,872. Of this increase \$96,142 is credited to the Union Pacific Railroad and \$308,730 is credited to the Ashland cut-off of the Great Northern. This latter road has not heretofore been assessed. With the exception of the Union Pacific, which was assessed at \$100 a mile higher than last year, all the roads were returned the same.

Mr. McCartney said he had noticed in some of the papers that upon him had been placed the responsibility for concealing the murder of the unfortunate man from the public and he was anxious for an investigation, and was willing to bear any blame which might attach to him. The board has not yet named a date for the investigation.

The Omaha Printing Company has secured the contract for printing the supreme court reports for 54 cents a page. The estimated number of pages for the entire job is 4,800, divided into seven volumes. This was the job for which the State Journal Company was the low bidder some time ago, but inasmuch as it was plain there had been a combine of the big printers to run up the price, the bids were rejected. Its bid was 87 cents a page. By re-advertising the state saved about \$1,500 on this one job.
