

**The Remedy.**  
 Attorney General Moody was discussing certain flaws in the criminal code and certain remedies that had been suggested.  
 "These remedies," he said, "are not logical; they would not be effective if enforced."  
 "They are singularly like the remedy that a chophouse waiter once indicated to an impatient guest."  
 "The guest had ordered a chop and when it was brought to him he said, with a disgusted air:  
 "'Waiter, my plate is quite cold.'  
 "'Yes, sir,' he said, 'but the chop is hot, sir, which I think you'll find it soon warm up the plate nicely, sir.'"  
 Philadelphia Bulletin.

**Gardening as Exercise for Women**  
 I'm sorry for the woman whose standards, social or physical, do not permit her to handle a hoe. It seems to me as graceful an instrument as a golf club. An hour's exercise along a tidy garden row will produce the finest kind of a glow, and, withal, you get so much more done with a hoe! 'Tis but a poor-spirited person who will "putter with flowers" but dare not work in the vegetable garden for fear that some one may think that she has to do it. If the neighbors are scandalized because I turn the baby loose in the shade on the grass and push the wheel hoe instead of the perambulator it is their lookout. Perhaps, now, they are dying to dig and have not quite dared for fear of my scathing criticism! Let them know the worst. I purpose to dig, to rake, to sow, to weed, to hoe, and to harvest, for the sake of what I get out of it in mental growth, flowers, exercise, aesthetic uplift, and vegetables. I shall take my turn, too, with the bicycle, the tennis racket, and the golf clubs; but next to the go-cart the wheel hoe is my favorite vehicle!—Success Magazine.

**The Baby's Bottle.**  
 Too great care cannot be used in keeping the nursing bottle clean. As soon as it is empty, remove the nipple and put the latter to soak in a cup of pure, boiled water. Cut a potato in small pieces and drop in the bottle; fill half full of Ivory Soap suds and shake well. Empty, rinse and put to boil in cold water.  
 ELEANOR K. PARKER.

**Only Wanted a Square Deal.**  
 "Prisoner," said the judge, "stand up. Have you anything to say why judgment of the court should not now be pronounced against you?"  
 "I'd like to say, your honor," answered the prisoner, "that I hope you will not allow your mind to be prejudiced against me by the poor defense my lawyer put up for me. I'll take it as a great favor if your honor will just give me the sentence I'd have got if I had pleaded guilty in the first place."

**IN STRICT CONFIDENCE.**

**Women Obtain Mrs. Pinkham's Advice and Help.**

**She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Alice Berryhill.**

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness, and know that her letter will be seen by a woman only.

Many thousands of cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as she has been.

Mrs. Alice Berryhill, of 313 Boyce Street, Chattanooga, Tenn., writes:

Dear Mrs. Pinkham:—  
 "Three years ago life looked dark to me. I had ulceration and inflammation of the female organs and was in a serious condition. My health was completely broken down and the doctor told me that if I was not operated upon I would die within six months. I told him I would have no operation but would try Lydia E. Pinkham's Vegetable Compound. He tried to influence me against it but I sent for the medicine that same day and began to use it faithfully. Within five days I felt relief but was not entirely cured until I used it for some time.  
 "Your medicine is certainly fine. I have induced several friends and neighbors to take it and I know more than a dozen who had female troubles and who to-day are as well and strong as I am from using your Vegetable Compound."

Just as surely as Mrs. Berryhill was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills. If you are sick write Mrs. Pinkham for advice. It is free and always helpful.

**CONGRESS**

The Senate Friday passed the bill regulating the liability of railroad companies for injuries to employees, but Mr. Daniel gave notice of a motion to reconsider, which, if it prevails, will bring the measure before the Senate again. Mr. Morgan made a speech in support of the assertion of American control in the Isle of Pines. Discussing the resolution giving the President authority to go abroad to purchase supplies for the Panama canal, in case American bids are extortionate, Mr. Stone attacked the President as weak and wavering in policy. Announcement of the suicide of Representative Robert Adams of Pennsylvania was received in the House shortly after it had convened and it was voted to adjourn out of sympathy.

Conference reports on the railway rate and statehood bills were received by the Senate Saturday. The announcement of the election committee's deliberations in regard to ousting Reed Smoot also was made. A resolution providing for the purchase of Panama canal supplies in the United States was passed. Several bills of minor importance and 280 private pension bills were passed and adjournment until Monday was taken. As a committee of the whole the House spent the day considering the naturalization bill, but did not complete it. Just before adjournment Mr. Murphy ruled to rescind the action sending the statehood bill to conference, but the Speaker refused to entertain the motion. The military academy bill, with Senate amendments, was referred to the committee on military affairs.

The Senate Monday adjourned immediately upon receiving the announcement of Senator Gorman's death. No business was transacted, even the reading of the journal being dispensed with. Under suspension of the rules a number of bills were passed by the House, including the following: Providing for the control and regulation of Niagara river and the preservation of Niagara falls; creating a collection district at Port Arthur, Texas; creating a United States District Court for China and prescribing its jurisdiction; providing for the survey and allotment of the lands embraced within the limits of the Blackfoot Indian reservation in Montana and opening the surplus lands, about 1,500,000 acres, to settlement; authorizing the construction of wharves, piers and other structures in Lake Michigan adjoining certain lands in Lake county, Indiana. Mr. Mann introduced a resolution making the pure food bill the order of business and limiting general debate to two days. Announcement of the death of Senator Gorman was followed by adjournment.

The Senate Tuesday passed the naval appropriation bill, carrying a total of \$103,117,070. The conference report on the rate bill was taken up and the discussion showed that the measure will be sent back to conference. A resolution providing for an amendment to the Constitution which would permit Congress to enact uniform laws for marriage and divorce was indefinitely postponed. In the House the naturalization bill was passed. Under suspension of the rules and by unanimous consent a large number of measures were put through before the House adjourned.

The conference report on the railroad rate bill continued to be the leading subject before the Senate Wednesday, and Mr. Spooner was the principal speaker, attacking the anti-pass provision as unjust. Other features were criticized by Messrs. Hale, Tillman, Bailey, McCumber, Teller, Lodge, Morgan, Piles, Pettus and Patterson. Senator Daniel made an ineffectual attempt to have reconsidered the vote by which the railroad employers' liability bill was passed. A bill authorizing the Attorney General and other officers of the Department of Justice to begin and conduct legal proceedings in any courts of the United States was passed. Adjournment was taken until 2 p. m. Thursday in order that Senators might attend the funeral of the late Senator Gorman. The members of the minority in the House, believing that the majority had taken undue advantage of them in limiting general debate on the sundry civil bill to one hour, started another filibuster and for two hours roll calls and points of order kept the chamber in a turmoil. Later, when the bill was taken up under the five-minute rule, only a few pages were considered before adjournment, much of the time being devoted to a discussion of the sale of the old custom house in New York City, a yearly occurrence. Mr. Sullivan (Mass.) made a speech attacking the administration.

After a day devoted almost exclusively to discussion of the rate bill the Senate Thursday decided to send that measure back to conference. The dominant sentiment was favorable to sustaining all Senate provisions. The bill providing for the control of the waters of Niagara river was passed. An attack on the President and a spirited defense were the features of a busy day in the House. Mr. Brundage (Ark.) assailed the items for the executive department and the care of the White House and grounds, as grossly extravagant, and brought up the Mrs. Minor Morris case. Mr. Grosvenor (Ohio) championed the appropriations in the name of the American people. The naval appropriation bill was sent to conference. After completing twenty-five pages of the sundry civil bill the House adjourned.

**National Capital Notes.**  
 Ex-State Senator G. E. Green of New York and W. D. Doremus were placed on trial in Washington, charged with conspiracy to defraud the government postal service.  
 Representative Gardner of Texas has introduced a resolution directing the Secretary of Commerce and Labor to ascertain if there is a difference in the price at home and abroad of iron and steel products; also to ascertain whether the United States Steel Corporation owns or controls other corporations in violation of the Sherman anti-trust law.

**MEXICAN RACE WAR.**

**FORTY-FIVE AMERICANS KILLED IN MINE RIOT.**

**Outbreak Follows Strike and Demand for Increased Wages—Mexicans Fire on Foreigners and Many Fall at the First Volley.**

In a desperate race war between striking Mexican miners and Americans forty-five Americans were killed Friday at Cananea, Mexico, where is located the great copper camp of Colonel W. C. Greene. The camp was set on fire and it is reported that the Mexicans defied all authority. They were reported to be using dynamite in blowing up the great smelters and mills owned by the Greene company.

The trouble arose at Cananea over the demand of the Mexicans for an increase in wages from \$3.50 to \$5 per day. Colonel Greene addressed practically the entire population of the camp in an effort to pacify the excited Mexicans. However, between 4 and 5 o'clock in the afternoon the Mexicans opened fire on the Americans and forty or more were killed.

Colonel Greene wired at once to Bisbee for all the armed men that could be sent to protect the Americans and their property at Cananea. The population of Cananea is 23,000, of which 5,000 are Americans. The family of Colonel Greene arrived at Naco, Ariz., Friday afternoon, but the colonel remained with his property.

There has been bad blood at Cananea for some time and only a month ago the home of the superintendent of the mine was dynamited by unknown parties. Friday one of the policemen of the city was killed by an American, who claimed it was a personal grievance he had against the Mexican.

George Metcalf, who was in charge of the large lumber business of the Greene company, was one of the first men to be killed. The Mexican laborers had been gathering in a great crowd during the forenoon and Friday afternoon about 1,500 of them started toward the lumber yard.

On the way they stopped at a livery stable and tried to persuade two Mexicans at work to join them, but they refused, and when the proprietor told them the stable was his individual property and was not connected with the mining company they left. At the lumber yard a large fire hose was brought out and as the crowd approached the office water was thrown on them.

At the same time Metcalf advanced on the crowd with a rifle. The Mexicans closed in on him, took the gun from his hands and beat him to death with it. William Metcalf, a nephew, rushed to the rescue of his uncle, when he was shot by a Mexican. Three Mexicans were killed at the lumber yard.

**LAKE BUSINESS SHOWS A GAIN.**

**Government Report Indicates Heavy Movement of Freight.**

A bulletin issued by the Department of Commerce and Labor says that commerce on the great lakes during April and the first four months of 1906 exceeds that of like periods in any earlier year. For the month of April shipments from all points on the lakes amounted to 4,365,505 net tons, while for the year to April 30 they aggregate 5,418,481, a gain for the month of 1,275,042 and for the four months of 1,592,656 net tons if compared with corresponding movements in 1905.

It should be noted, however, says the bulletin, that the unusually heavy westward movement of coal was probably in large degree due to the storing of vast quantities of this commodity at eastern ports prior to the opening of the lakes, in anticipation of a coal strike, while the general movement of nearly all articles of commerce may have been accelerated by the fear of a general strike among steamship employes, of which there seemed to be a probability during the entire month. Of the coal, iron ore and copper shipments—worth for April, 1906, comprised over 50 per cent of the total out-bound movements—the coal moved almost entirely from east to west, while the movement of iron and copper was generally in the opposite direction. Of the April coal movement 338,839 tons were shipped from Cleveland and 328,524 from Buffalo.

**Right to Ignorance Vindicated.**

The recent decision of Judge Rice of the Superior court of Pennsylvania, sustaining the lower court in declaring unconstitutional the vital section of the law of 1905, prohibiting the employment of boys under 16 in the mines and under 14 above ground, is responsible for the bringing thousands of small boys back into the mines and breakers. Although the prohibition against employment of these boys stands, its effectiveness is totally removed by striking out the provision requiring presentation of employment certificates, including the record showing the holder's attendance at school during the preceding year. Florence Kelly, secretary of the National Consumer's league, says in Charities and the Commons, that the certificates thus abolished are the simplest device yet invented for making the age limit workable, and declares that these Pennsylvania judges "will go down to history as the enemies of the children, like the twenty-one Georgia Senators who last June condemned to deadly toil in the cotton mills by day and by night little children." The Pennsylvania case will be carried to the supreme court.

**Lax Compulsory Education Laws.**

William H. Allen, general agent for the New York association for improving the condition of the poor, writing in the American Monthly Review of Reviews, calls attention to the fact that from 50,000 to 100,000 children who are supposed to be attending the schools of New York City, under the compulsory education law, in fact are running the streets or working in tenements and factories, in violation of the child labor law. He makes this the basis for a demand for more satisfactory school reports.

 In Use For Over 30 Years  
 THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

**VARIED CROPS IN INDIANA.**

**Clark County Raises Skunks, Coon Dogs, Snakes and Ginseng.**

Clark County probably raises the most varied crops of any section in the State of Indiana and has several peculiar industries, one of which is a skunk farm near Marysville, where the animals are raised for the pelts. Not far from this highly scented place is a dog farm, in Washington Township, where various breeds are reared and sold. In Charlestown Township is another dog farm, where nothing but coon dogs are looked after, the proprietor of the industry getting high prices for them. Near Nabb is the headquarters of a side show where snakes are bred for sale. There is a farm not far from Jeffersonville where turtles are raised in large numbers.

In Bethlehem Township a number of farmers devote a good part of their land to the culture of the sunflower, which is grown for its seed, and the crop this season is expected to reach 100 tons and bring in a revenue of \$3,000. In the same locality butterbean raising is a paying industry, and hundreds of gallons are now being shipped to Louisville and Cincinnati.

A ginseng farm on Camp Creek, Washington Township, is attracting considerable attention. Next year the first crop of roots will be gathered. On the knobs in the vicinity of St. Joseph's hill is probably the largest grape vineyard in Indiana, nearly the entire crop being used in making wine. Near Henryville is one of the few Tortoise reservations in the country, and in this Mongolian pheasants are being raised in large numbers.

**BUILDING FOOD.**

**To Bring the Babies Around.**  
 When a little human machine (or a large one) goes wrong, nothing is so important as the selection of food to bring it around again.

"My little baby boy fifteen months old had pneumonia, then came brain fever, and no sooner had he got over these than he began to cut teeth and, being so weak, he was frequently thrown into convulsions," says a Colorado mother.

"I decided a change might help, so took him to Kansas City for a visit. When we got there he was so very weak when he would cry he would sink away and seemed like he would die.

"When I reached my sister's home she said immediately that we must feed him Grape-Nuts, and, although I had never used the food, we got some and for a few days gave him just the Juice of Grape-Nuts and milk. He got stronger so quickly we were soon feeding him the Grape-Nuts itself, and in a wonderfully short time he fattened right up and became strong and well.

"That showed me something worth knowing and, when later on my girl came, I raised her on Grape-Nuts and she is a strong, healthy baby and has been. You will see from the little photograph I send you what a strong, chubby youngster the boy is now, but he didn't look anything like that before we found this nourishing food. Grape-Nuts nourished him back to strength when he was so weak he couldn't keep any other food on his stomach." Name given by Postum Co., Battle Creek, Mich.

All children can be built up to a more sturdy and healthy condition upon Grape-Nuts and cream. The food contains the elements nature demands, from which to make the soft gray filling in the nerve centers and brain. A well-fed brain and strong, sturdy nerves absolutely insure a healthy body. Look in pkgs. for the famous little book, "The Road to Wellville."

**Didn't Write to Her.**  
 Little Dorothy came hurrying home from school to tell in glowing terms about her new teacher, says the New York World.  
 "What's her name?"  
 "I don't know," said Dorothy.  
 "Why, then, how do you address her?"  
 "Why," answered Dorothy, "we do not write to her."—New Orleans Picayune.

**Spirited Reply.**  
 "Now, Little Sunshine, the heroine of the play," said the dramatist, "is the daughter of an illicit distiller."  
 "In that case," remarked the coarse manager, "you had better call her Little Moonshine."—Houston Chronicle.

**Largest Picture Ever Painted.**  
 The largest picture ever painted has been completed by a French artist, after eight years' labor. The subject is the funeral of M. Carnot, and the canvas measures 150 square yards.
