## ROCKET BREAKS WINDOW

Thursday evening about 8:30 Forest Shepard, while celebrating a belated Fourth, let a large rocket fall after lighting it, the result being that it punctured a hole through one of Chapman's display windows. One hardly realizes how dangerous one of these rockets are until they have the experience of seeing it crash through a large plate window. After going through the window it hit the wall in the back part of the store, making a large dent. A number of young men were sitting around one of the tables and they were showered on with broken glass. Luckily no one was hurt.

## The Backbone of a Mighty Nation

is good food—food for brain, food for brawn, food that is strengthening, that gives energy and courage. Without a proper appreciation of this great fundamental truth no nation can rise to greatness.

As an article of food, soda crackers are being used more and more every day, as is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, which have come to be recognized as the most perfect soda cracker the world has ever known.

And so **Uneeda Biscuit** will soon be on every table at every meal, giving life, health and strength to the American people, thus in very truth becoming the backbone of the nation.
