CURE SICK HEADACHE.

**W. L. DOUGLAS  
\$3.50 & \$3.00 Shoes**

**BEST IN THE WORLD**  
W. L. Douglas \$4 Gilt Edge line cannot be equalled at any price.

**SHOES FOR EVERYBODY AT ALL PRICES.**  
Men's Shoes, \$5 to \$15.00. Boys' Shoes, \$3 to \$12.50. Women's Shoes, \$4.00 to \$15.00. Misses' and Children's Shoes, \$2.50 to \$10.00.  
Try W. L. Douglas Women's, Misses' and Children's shoes; for style, fit and wear they excel other makes.  
If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer, and are of greater value than any other make.  
Wherever you live, you can obtain W. L. Douglas shoes. His name and price is stamped on the bottom, which protects you against high prices and inferior shoes. Take no substitute. Ask your dealer for W. L. Douglas shoes and insist upon having them.  
Fast Color Eyelets used. They will not wear brass. Write for Illustrated Catalog of Fall Styles.  
W. L. DOUGLAS, Dept. 14, Brockton, Mass.

**A Small Greenhouse.**

To speak of a greenhouse suggests the idea of an expensive building that requires much labor on the part of some person to keep in order. While it is possible to spend almost any amount, a very practical house can be made of hot-bed sash, using the south piazza as a basis for operations. Hot-bed sash, all ready for use, costs from \$3.25 to \$3.50 each, and measures 3x6 feet; the glass in these frames measures 10x12 inches.

Buy the sash first, and then build according to the number of sash. This little greenhouse can be heated by a smokeless blue-flame oil stove without injury to the flowers.

For a beginner some of the bulb family will be best. Of late years, Roman hyacinths, narcissus of various kinds, freesias and tulips have had a great sale in the winter months. When grown for cut flowers they are put

SIDE VIEW OF GREENHOUSE.

in low boxes of a convenient size for handling, at a distance apart equal to about twice their diameter, and so they will just show above the surface.

**General-Purpose Horse.**

The general-purpose farm horse is one that can be well utilized in ordinary farm work of all kinds and can also do the limited amount of road work needed in connection with the working of the medium-sized or small farm, says a well-known farmer. A horse called a "chunk" in market, standing 15 to 16 hands high, weighing from 1,100 to 1,400 pounds, compactly built, with good feet and legs, a tractable, lively disposition, a good, clean, rapid way of going at walk or trot, is in brief, the kind of a horse that I would call a general-purpose horse. This kind of a horse has a place on farms, and we say is the most valuable class, so far as farm work is concerned. You will note that he partakes of the qualities of both the draught and coach or heavy roadster types, in both his conformation and disposition.

**Impure Maple Sirup.**

Impure maple sugar and sirup is the rule rather than the exception, both in this country and in Canada. The Canadian government has been making an investigation of the matter, and out of 85 samples of sirup only 22 were found to be genuine, while 53 were adulterated. In the same way, out of 26 samples of sugar only 11 were genuine. These samples were purchased at stores in different cities and towns. Out of 319 samples of milk gathered in the same way, only 180 were genuine. Canada is as much in need of a pure food law as is the United States, and one will soon be in operation on that side of the line.

**Sweet Potato Growing.**

The following suggestions about sweet potato growing are from a Virginia lady: Sweet potatoes succeed best on a deep and rich sandy soil with a warm exposure. The ground should be well plowed and harrowed fine. In each hill plant two sets, covering about two inches deep, and as they grow keep drawing dirt around them. They are among the very best vegetables for table use. Select a bright, clear day for digging, let them dry a day or two, then place in boxes with paper with a small quantity of slaked lime among the potatoes. Keep during winter in a storeroom.

**Corn Prices Being Maintained.**

Southern Planter says that the yield of corn will be a record one, probably near 2,750,000,000 bushels, and yet in the face of this prospect the price still keeps good, showing the marvelous capacity of the country to consume corn. In the South the yield will likely be a record one, and much more of it will be consumed on the farm than in the past. It is a most cheering and significant fact that more of the corn crop now goes on foot to market here than ever before. This means fertility kept on the farm and money in the pocket.

**Great American Hen.**

Some one has figured that the American hen each year earns enough to buy all the silver and gold dug out of the mines, all the sheep in the country and their wool, and leave a balance equal to the entire year's crop of rye,

barley, buckwheat and potatoes, says Farming. Or, as a hen enthusiast writes, "she pays the interest on all the farm mortgages, pays the entire State and county taxes of the whole Union, and then leaves a balance large enough to give every man, woman and child in the United States a dollar."

**Test of Age in Fowls.**

A rooster's age is determined by the size of his spurs. If they are long he is "antique." If there is a small button on the ankle where the spurs come later he is a young bird. Ducks are invariably judged by the under lip of the bill. If a dressed duck will sustain its weight by its under bill, "lay it back and try another," for there is no telling how old it is; certainly too old to be real tender. But if the bill snaps easily it is a young bird. Gobblers are told by their spurs, the same as roosters, the age of the hen turkey being determined by the length of its beard. Aside from the test applied to ducks there is one infallible rule which can be applied with safety in all cases. The back part of the breastbone can be bent easily in a young fowl. If it is sharp and hard and refuses to yield to pressure from your thumb it is an old bird.

**Iowa Farmers' Phones.**

For the first time a census of telephones has been taken in the State of Iowa, and this has disclosed that there are now in use 222,325 instruments. Of this number 104,524 are classed as instruments used in connection with rural lines. That is, they are used by the farmers of Iowa.

During the past few years the Government Weather Bureau in Des Moines has arranged for telephone distribution of forecasts, and a large percentage of these farmers now receive by telephone every morning the forecast of the weather for the coming thirty-six hours. This, in fact, has been one strong incentive for installation of telephones in the homes of the farmers of Iowa.

**Build a Toolhouse.**

Every farmer needs a good toolhouse. It should be so convenient of access that there need be no excuse for leaving farm implements exposed to the weather when not in use. Properly cared for, many implements that now last only a few years ought to be serviceable as long as the farmer lives to need them. Besides, a tool that has not been rusted, warped and cracked by exposure will work as well the second and third year of use as the first. On many farms the tools are so much injured by being left out of doors that after the first season they cost more for repairs than they save in labor.

**Profitable Apple Trees.**

H. A. Squires, living near Dearborn, Mo., has 125 trees of Wealthy apples and seventeen trees of Summer Queen; there are eight trees of another early sort, making 150 trees, or three acres, of apples ripening at this season. This year Mr. Squires sold the fruit from these three acres for \$1,006 net, after paying for the barrels in which the fruit was shipped. More than \$300 an acre is not a bad record in a year like this. Of course, Mr. Squires had a good crop, some trees making six and seven barrels of choice apples, but prices were not as high as is often the case.

**Handy Egg Turner.**

When keeping eggs for hatching they should be turned frequently. The sketch shows a combination egg drawer and turner which is very effective. The

EGG TURNING DEVICE.

bottom of the egg drawer is removed and the eggs rest upon a roller curtain cloth, which winds upon a rod with a small crank. Winding the roller a very short distance turns each egg and jostles it slightly. A single turn on the crank will usually be sufficient.

**Medicine from Hogs.**

For certain medicinal uses natural gastric juice is necessary, but the supply is very slight. Spallanzani first gathered gastric juice by means of a fine sponge attached to a silk cord; a raven swallowed the sponge, and then it was withdrawn from the stomach. Brown-Sequard, a French-American physician, tried the same experiment upon himself. This devotion to science nearly cost him his life. Now we gather gastric juice from the living hog by performing the delicate operation of inserting a glass tube. The hog seems to thrive after these operations.

**One Way to Kill Rats.**

Here is the method used by one farmer to clean out rats: On a large number of old shingles he put about a half teaspoonful of molasses each, and on that, with his pocketknife, he scraped a small amount of concentrated lye. He then placed the old shingles around under the stable doors and under the cribs. The next morning he found forty dead rats, and the rest left the farm for parts unknown. He has cleared many farms of the pests in the same way, and has never known it to fail.

**World's Finest Harbor.**

From the capital of Brazil, half the land and half the people of South America are governed. It is the chief financial and industrial city of the greatest undeveloped empire on earth. Rio Janeiro is a fast-growing town. It had just crossed the half million mark in 1890. In 1900 it reached three-quarters of a million, and today it has at least 1,000,000 more. It is bigger than any town in the United States excepting Philadelphia, Chicago or New York, and it is only 150,000 less than Buenos Ayres, which has now just 1,000,000.

To my mind Rio de Janeiro is one of the most beautiful cities of the world, writes Frank G. Carpenter. The harbor is surrounded by great mountains with their tops in the clouds. The mountains are covered with a tropical vegetation from base to summit, and they are of most curious shapes. One rises out of the sea like a sugar loaf to a height of more than twice that of the Washington monument; another is a mighty hunchback, and others are great forts and massive battlements. The harbor itself is shaped just like a pear, but it is so large that all the ships of all the world could anchor there and have room to spare. It is 100 miles around it, and the water is almost everywhere over 60 feet deep. The bay is dotted with islands which appear to float, as it were, upon its diamond-studded surface.

**PUBLIC DUTY.**

**Montpelier, O., Man Feels Compelled to Tell His Experience.**

Joseph Wilgus, Montpelier, O., says: "I feel it my duty to tell others about Doan's Kidney Pills."

Exposure and driving brought kidney trouble on me, and I suffered much from irregular passages of the kidney secretions. Sometimes there was retention and at other times passages were too frequent, especially at night. There was pain and discoloration. Doan's Kidney Pills brought me relief from the first, and soon infused new life. I give them my endorsement."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

**Ignorance Might Have Been Bliss.**

The late Paul Laurence Dunbar used to like to joke about the higher education of women.

In one of his lectures Mr. Dunbar said:

"A lady on a sultry summer afternoon called on some friends. The talk buzzed along briskly, fans waved and the daughter of the house kept twitching uncomfortably, frowning and making little smothered exclamations of annoyance. Finally, with an impatient sigh, she rose and left the room."

"Your daughter," said the visitor, "seems to be suffering from the heat."

"No," said the hostess. "She is just back home from college, and she is suffering from the family grammar."

Milwaukee Sentinel.

**How's This?**

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all his business transactions and financially able to carry out any obligations made by his firm.

WALLING, KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

**What It Was.**

"Pop! Pop!"

For a moment the German crowd about the station swayed irresolutely.

"Vat eet ees-a shoot gun?"

"No, eet ees a auto raggin exbloding eets tires!"

But both suggestions were wrong.

It was only Emperor William kissing King Edward on both cheeks.—Cleveland Plain Dealer.

**Winter Tourist Rates.**

Chicago to Florida and Cuba via the Big Four Route through Cincinnati and Chattanooga. Leave Chicago 11:30 p. m., arrive Jacksonville 8:50 a. m. Fast service to the South. Inquire of I. P. Spining, General Northern Agent, 238 Clark street, Chicago.

**At the Dime Museum.**

"This, ladies and gentlemen," said the lecturer, "is the famed Circassian beauty. Observe her alabaster brow, her rose tinted cheek, and her classic nose. Gaze upon her wonderful hair. Ladies and gentlemen, Castorine grew that hair, and we can prove it! Passing on to the next platform, permit me to call your attention to Herr von Skye-Kraper, the modern Colossus, known as the Tallest Man on Earth."

**Marion Harland.**

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her popular work, "Eve's Daughters; or, Common Sense for Maid, Wife and Mother":

"For the aching back—should it be slow in recovering its normal strength—an Allcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Allcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

It is thought that the game of whist was first played in the time of King Henry VIII. of England.

Mrs. Winslow's SOOTHING SYRUP for Children (which softens the gums, reduces inflammation, allays pain, cures wind colic. 25 cents a bottle.)

S. C. N. U. - - - No. 46-1906.

**PUTNAM FADELESS DYES**

Color more goods brighter and faster colors than any other dye. One 10c package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—25c to Dye, Bleach and Mix Colors. MONROE DRUG CO., Unionville, Missoula.

**What Do They Cure?**

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription." The answer is that "Golden Medical Discovery" is a most potent alterative, blood-purifier, and tonic or invigorator, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrh, dyspepsia), bowels (as mucous colitis), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections it is often successful in affecting the cure.

"The Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and irregularities incident to womanhood. It is a powerful yet gently acting invigorating tonic and nerve. For weak women, out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle, giving the formulae of both medicines, and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines. The words of praise bestowed on the several ingredients entering into Dr. Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pills, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

**Remained to Be Seen.**

Inquiring Friend—Was your uncle in his right mind when he died?

Poor Relation—We can't tell about that, of course, until we hear his will read.—Chicago Tribune.
