

Will Help Sailors.
A will of the late Lord Iverclyde, chairman of the Cunard Company, dated March 20, 1901, and believed to be his last, left all his property to the widow. But a later will, dated Nov. 9, 1902, has been found in a handbag in his London office, by which \$1,500,000 is left to seamen's charities in Glasgow, Liverpool, Manchester, Belfast, New York and Boston.

Of Interest To Women.
To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would it be believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.
Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

The Canadian West is the Best West
The testimony of tens of thousands during the past year is that the Canadian West is the best West. Year by year the agricultural returns have increased in volume and in value, and still the Canadian Government offers 150 acres free to every bona fide settler.

Some of the Advantages
The phenomenal increase in railway mileage—main lines and branches—has put almost every portion of the country within easy reach of churches, schools, markets, cheap fuel and every modern convenience.
The NINETY MILLION BUSHEL WHEAT CROP of this year means \$20,000,000 to the farmers of Western Canada, apart from the results of other grains and cattle.

Nebraska Legislature

The following are the bills introduced in the senate Friday:
Permitting the construction of 16-foot roadways from the permanent road fund provided for by the inheritance tax law.

By King of Polk—Allowing cities and villages to regulate the growing of weeds and the raising of grain within the city limits.

By Epperson of Clay—A bill to provide for county teachers' institutes in June, July and August.

By Epperson of Clay—Making fees of court reporters for furnishing bills of exceptions 10 cents a hundred words, and providing county shall pay for same when defendant in criminal case is unable to do so.

By Root of Cass—A bill requiring a two-thirds vote to vote bonds for internal improvements.

Action in committee on the whole was taken on senate bills Friday as follows:

By Thomas—Giving the state the same number of peremptory challenges as the defendant in criminal cases. Recommended for passage.

To enable cities and villages to clean snow off sidewalks at the expense of the property owner. Indefinitely postponed.

By Root—Defining adultery and providing a penalty of not more than one year in jail. Recommended for passage.

By Root—Making the superintendent of the insane hospital removable at the will of the governor. Recommended for passage.

The senate committee on municipal affairs Friday recommended for passage the following bills:

By Gibson—Relating to the fees of election officials in counties of more than 125,000 population.

By Wilson—To enable cities of the second class owning and operating public utility plants to sell the products thereof.

By Epperson—Including in the law making houses used for immoral purposes nuisances boats, wagons and tenements.

By Root—Taking away from the board of public lands and buildings power to hear complaints against the superintendent of the insane asylums.

By McKesson—Providing for the recovery of fees, costs and unclaimed legacies and making provision for paying the same and reporting them to his successor.

By Root—Authorizing county judges to receive fees, costs and unclaimed legacies and making provision for paying the same and reporting them to his successor.

By the public charities committee. By Aldrich—To allow the physician at the Milford home for the friendless to either a male or a female.

By Patrick, was also placed on the general file, though the judiciary committee recommended it be indefinitely postponed. It provides a judgment shall become void if no execution is issued on it for five years. Patrick and Burns of Lancaster made a fight for the bill and secured it a chance to be heard in committee of the whole.

The following bills were introduced into the senate Monday:

By McKesson of Lancaster—To provide for the commencement of money appropriated by the legislature to pay railroad fare of state executive officers, employees or agents of the state.

By King of Polk—To provide for seventeen judicial districts and fixing their boundaries.

By Saunders of Douglas—Providing that where a trust company acts as executor of estate no bond shall be required.

By Saunders—Providing that where a corporation acts as receiver no bond shall be required.

By Saunders—Providing trust companies may act as guardian of property of minor or disabled person and shall not be required to give a bond.

By Saunders—Allowing trust companies to be appointed administrators and guardians in probate and estate matters.

By Patrick of Sarpy—Relating to the commencement of actions, and to provide for the commencement of civil actions in the several courts of this state, except the supreme court thereof, by original notice, and prescribing the manner of the service and return thereof.

By Aldrich—Giving governor assent power to appoint commandant of Milford home who must be ex-union soldier in war of rebellion and increasing salary from \$900 to \$1,000.

By the Judiciary Committee—To prohibit the practice of "padding" and to provide a penalty for its violation.

The senate committee on municipal affairs reported favorably on the following bills Wednesday:

By Thomas of Douglas—Increasing the pay of police captains from \$125 to \$150 per month.

By Thomas of Douglas—Providing for a coroner's physician in Douglas county.

By King of Polk—Empowering cities of the second class and villages to grant franchises.

Providing fee of \$5 for election boards in Douglas county.

Making only attorneys eligible for the office of county judge in counties of more than 15,000.

The senate then went into committee of the whole, with Wilson of Pawnee in the chair. The committee voted to report for passage the following bills:

By Saunders—Making it an offense for an employe to accept money or valuable consideration to influence his actions in relation to his employer's business.

By Gibson—Increasing the limit of the width of the paved roadbed in permanent roads constructed under the inheritance tax law to sixteen feet and providing the county judge may determine on a reasonable fee for appraisers.

By Burns of Lancaster—Prohibiting county, district or supreme judges from becoming candidates during their terms for other than judicial offices.

Immediately after the convening of the senate in the afternoon Wednesday it went into the committee of the whole, with Wilsey of Frontier in the chair, and recommended for passage the following bills:

Providing for \$20,000 appropriation for the expenses of the legislature. Provision for the furnishing of postage stamps to members was stricken out by the senate.

By Root—Taking away from the board of public lands and buildings power to hear complaints against superintendents of public institutions.

By Root—Providing civil cases shall not be reversed by the supreme court on appeal where substantial justice has been done.

By Root—Authorizing county judges to receive fees, costs and legacies, requiring them to pay the same to proper persons and to make a report of the same.

The committee of the whole voted to recommend that Senator Patrick's anti-lobby bill be indefinitely postponed.

Following that measure, the senate Wednesday afternoon, by a vote of 15 to 17, killed Patrick's anti-lobby bill and temporarily put an end to legislation directed against lobbyists. The roll was called after a call of the house had been made to fill several seats which were suddenly vacated after a demand had been made for a roll call. After all the senators but one had taken their places the call of the house was raised.

Senate Cuts Out Postage.
The senate at the afternoon session Wednesday refused to concur with the house in an appropriation for postage stamps to be furnished daily to members of the house. The bill appropriating money for the expenses of the session was amended by striking out 10 word "postage." The vote was 15 to 10 in favor of a motion by McKesson to concur in a report of the appropriation committee that the word "postage" be stricken from the bill.

Prodding Up Primary Committee.
Friends of a state wide primary law are not satisfied with the progress being made in this direction, and many of the members have so expressed themselves. The joint committee has not yet held a meeting and so far only the Dodge bill has been introduced. Chairman Farley, of the house committee, said McMullen, of Gage, had promised to have his bill ready some time ago, but so far he has not introduced it. Phillips, of Holt, is chairman of the senate committee. Farley said Wednesday night he would endeavor to get his committee together and get the members busy. In the meantime the opponents of the primary are getting in good luck. They are trying to get all reports on making the primary days of the two dominant parties separate; they are telling it around that it will bar the poor man from running for office; that the west end of the state will never get a nominal vote, and other things along these lines.

House Bills.
The following bills were introduced Friday:

By Best of Douglas—Authorizing the recovery of damages by the personal representative of a parent or guardian whose death is caused by the wrongful act of a person, company or corporation.

By Lee of Douglas—Limiting the time for commencing any action or legal proceeding against any parent or guardian of a person, company or corporation after the passage and approval of this act.

By Lee of Douglas—Limiting the time for commencing any action or legal proceeding against any parent or guardian of a person, company or corporation after the passage and approval of this act.

By Mackey of Custer—A bill to provide free education for all the youth of this state whose parents or guardians live in unorganized public school territory.

By Snyder of Harlan—A joint resolution to memorialize congress for the removal of the duty on certain articles.

By Springer of Lincoln—A bill providing for the inspection of horses about to be driven or shipped.

By Price of Howard—Levying a special voting tax providing the manner thereof.

By Redmond of Nemaha—To appropriate the sum of \$2,000 for the payment of the salaries of the employes of the Nebraska state orthopedic hospital.

By Gilman of Lancaster—To regulate the practice of optometry and for the creation of a board of examiners in optometry.

By McMullen of Gage—Providing damages resulting from negligence of the officers or employes of common carriers, or on account of defective appliances, and providing that contributory negligence shall not bar recovery under this act, and that all contributory negligence shall be a question for the jury; providing that no relief benefit, contract or employment, insurance or other thing shall be a defense against recovery under this act; limiting the time an action may be brought under this act; reserving to such common carrier the right to set off to the plaintiff as against damages recovered any net benefit, insurance or indemnity paid by them.

By Lahnors of Thayer—Providing for the planting and keeping in repair of hedge fences.

Child Labor Bill Passed.
The house Tuesday afternoon passed the child labor bill, introduced by Clarke of Douglas. The author convinced the farmers that there was nothing in the measure to prevent children aiding on the farm.

In the senate a bill was presented Tuesday by Sackett, of Gage, to remove officials whose laws are not enforced, quo warrant, proceedings being the remedy. It is supposed to be aimed at Mayor Dahlman, of Omaha.

County option reformers claim that they have enough pledged votes to pass the measure. It provides for an expression on the saloon question once in five years.

In the house a bill was introduced Tuesday by Masters, of Furnas county, giving powers to the newly elected state railway commission and providing for the repeal of the maximum freight rate law of 1893.

Raper, of Pawnee county, introduced a joint resolution in the house Tuesday memorializing congress to pass the McCumber pension bill.

Carlin, of Rock county, introduced a bill Tuesday relating to remarriage after divorce, making it necessary that the applicants for license to show that the divorce was granted more than two years prior. Another bill by the same author makes it necessary for applicants for license to show that the divorce was granted more than two years prior. Another bill by the same author makes it necessary for applicants for license to show that the divorce was granted more than two years prior.

The house Tuesday defeated a resolution denouncing the ship subsidy scheme.

A bill to allow a mill levy for state fair purposes was defeated by an overwhelming majority Tuesday.

The following bills were passed in the house Wednesday:

By E. W. Brown of Lancaster—Putting the Lincoln city library under the general state library laws.

By Cudde of Saline—Limiting the liability of villages.

By Armstrong of Nemaha—Providing a penalty for not cutting weeds along the county roads.

By Heffernan—Providing persons who have practiced veterinary surgery for five years be allowed to use the title he was killed on third reading.

The chief clerk in the engrossing and enrolling rooms and the time-keeper were allowed \$4 a day salary.

COLOR SENSE IN ANIMALS.

Possessed to High Degree by Some, Especially by Birds.
A hypothesis that the sense of colors is possessed to a high degree by animals and especially by birds furnished a basis for some of the most beautiful and fecund of the Darwinian theories of sexual selection. No Darwinist doubts that the brilliant colors of male birds are to attract the attention of the female birds, and this presupposes naturally on the part of these birds a fine sense of color.

Wallace has asserted that to the fact that certain plants bear fruit of brilliant colors is due their preservation; the animals, attracted by these colors, break the fruits from the trees or plants, carry them off and thus indirectly assist in the dissemination of the seeds which they contain over large tracts of land. And this function of selection on the part of animals presupposes in them a certain sense of color. Still, scientific documents in support of these hypotheses are rare.

AWFUL ATTACKS OF PAIN.
Most Dreadful Case of Kidney Trouble and How It Was Cured.

Thomas M. McCullough, 321 South Weber street, Colorado Springs, Colo., says: "For twelve or fifteen years I was suffering frequent attacks of pain in the back and kidneys that lasted for three weeks at a time. I would be unable to turn in bed. The urine was in a terrible condition, at times a complete stoppage occurring. I began with Doan's Kidney Pills, and soon felt better. Keeping on, I found complete freedom from kidney trouble. The cure has been permanent. I owe my good health to Doan's Kidney Pills."

Doubled the Number.
In criticizing some proposed changes in a bill before the Senate, changes which seemed to him to be alterations in phrasing rather than in meaning, Senator Tillman told a story which the Milwaukee Sentinel reports, of a lady who was looking at a house for rent.

"The house suits me very well," she said to the landlord, "but there is one thing I object to."

"Well, madam, any reasonable alteration," the landlord murmured, suavely, "would, provided you took a three years' lease—"

"I'd take a three years' lease," she said, "if the house had more closets."

"The number of closets shall be doubled," said the landlord.

"Very well," said the woman, and she signed the lease.

After she had gone the landlord said to his clerk, "John, take a carpenter over to number thirty-seven and have him divide each of the closets in two."

One of His Gloomy Moods.
"Honesty is the best policy, to be sure," moralized the professor, "but in the case of too many men it is a policy that has a surrender value."

NATURE PROVIDES FOR SICK WOMEN

a more potent remedy in the roots and herbs of the field than was ever produced from drugs.
In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value. During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one true and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

Where British Emigrants Go.
A Parliamentary paper issued in England in regard to emigration and immigration states that 55 per cent of the net British and Irish emigration was directed to the British colonies and possessions and 45 per cent to foreign countries. It stated that the chief features of interest were the large British emigration to British North America and the large emigration, both British and foreign, to the United States. It is further stated in the paper that the London Jewish Board of Guardians and other Jewish associations are in the practice of assisting poor Jews to emigrate, and that the alien lists hitherto available cannot be considered as affording any definite information as to the number or nationality of the alien emigrants who actually settle in Great Britain.

Poor Weapons.
Mr. Lafferty had asked the druggist for something to kill moths, and the druggist, says a writer in the Chicago Record-Herald, sold him ten cents' worth of moth balls.

The next day Mr. Lafferty returned, and, holding out the crumpled remains of some of the moth balls, he said: "Are yez the young man that sold them things to me yesterday?"

"I am. What's the matter with them?"

"The idea of a decent store selling them things to kill moths or anything else! If yez can show me a man that can hit a moth wid wan o' them, I'll say anything about the pitchers and the looking glass me an' the ould woman broke."
