FREE Our catalogue contains a choice collection of seeds, with clear directions for cultivating each variety. **FREE** The wall in front of Glasgow cathedral is built almost entirely of tombstones.

Don't Suffer all night long from toothache neuralgia or rheumatism Sloan's Liniment kills the pain - quiets the nerves and induces sleep At all dealers. Price 25c 50c & \$1.00 Dr. Earl S. Sloan, Boston, Mass., U.S.A.

A Pretty Experiment. A very pretty effect may be produced by using some aniline dye in powdered form in alcohol. Fill a small glass with the alcohol and drop the smallest portion of the dye on its surface. It will shoot down through the liquid, like a strand of color, dividing into two branches, which will subdivide again and again until you have, apparently, an inverted plant in miniature growing before your eyes. An arrangement of mirrors may be made to throw the reflection of this on a screen or a wall, and the enlarged shadows will be very interesting to watch.

DON'T DESPAIR. Read the Experience of a Minnesota Woman and Take Heart. If your back aches, and you feel sick, languid, weak and miserable day after day—don't worry. Doan's Kidney Pills have cured thousands of women in the same condition. Mrs. A. Heiman, of Stillwater, Minn., says: "But for Doan's Kidney Pills I would not be living now. They cured me in 1899 and I've been well since. I used to have such pain in my back that once I fainted. The kidney secretions were much disordered, and I was so far gone that I was thought to be at death's door. Since Doan's Kidney Pills cured me I feel as if I had been pulled back from the tomb."

Trouble for Nothing. To smuggle a human skeleton into Canada from Detroit a medical student dressed it in female attire and sent it by his side in a buggy, crossed over the boundary line. After he got safely into his house he learned that there is no custom duty on skeletons.

Her Cooking Was Bad. Mrs. Burnett—I can't keep a cook to save my life. The Doctor—Well, you'll have to keep one if you want to save your husband's life.

Home-Made Catarrh Cure. Any one can mix at home the best remedy of its kind known. The name "Cyclone" is given to the following prescription, it is supposed, because of its promptness in driving from the blood and system every vestige of catarrhal poison, relieving this foul and dread disease, no matter where located. To prepare the mixture: Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon and three ounces Compound Syrup Sarsaparilla. Shake well and use in teaspoonful doses after each meal and at bedtime. This is a harmless, inexpensive mixture, which has a peculiar action upon the eliminative tissues of the kidneys, assisting them to filter and strain from the blood and system all catarrhal poisons, which, if not eradicated, are absorbed by the mucous membrane, and an open sore or catarrh is the result. Prepare some and try it, as it is the prescription of an eminent catarrh specialist of national reputation.

Eleven thousand couples have been married by Rev. Dr. Mitchell, of South Leith, Scotland, during his ministerial career. **1847-1907.** Sixty years ago Alcock's Plasters were first introduced to the public. They are to-day the world's standard plasters. This invention has been one of the greatest blessings imaginable and affords the quickest, cheapest and best means of healing and relief for certain ailments, that has ever been discovered. Alcock's are the original and genuine porous plasters and are sold by druggists in every part of the civilized world.

How to Trap Wild Animals. 40-page trap book illustrated, picture 48 wild animals in natural colors, also barometer & calendar, also gun & trap catalog, also prices on raw furs. All sent post paid for 10c stamps or silver. FREE to those who ship to, or buy of us. Address Fur Dept., N. W. Hyde & Fur Co., Minneapolis, Minn.

Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Stimulating named remedies sometimes deceive. The first and original Cold Tablet is a WHITE PACKAGE with black and red lettering, and bears the signature of E. W. GROVE. 25c.

WORK OF CONGRESS

The Senate passed the army appropriation bill carrying \$81,600,000, Monday. The amendment to permit the government to accept reduced rates on army supplies and officers and enlisted men to accept reduced transportation was defeated by a point of order. An amendment increasing by 20 per cent the pay of officers and enlisted men also was defeated by a point of order. Amendments were accepted to build monuments to Revolutionary officers, as follows: To General John Stark, an equestrian statue at Manchester, N. H., \$40,000; a statue to General Nathaniel Green at Guilford Court House, N. C., \$15,500; a statue to General James Schriener at Midway, Ga., \$5,000. Senator Carter secured the adoption of an amendment placing William H. Crook on the retired list as a major. Mr. Crook served as a private through the Civil War and ever since has been employed as a clerk at the White House. Senator Berry presented an argument for the expulsion of Senator Smoot on the ground that the Mormon church advocates the doctrine of polygamy, and held that the Senate could exclude any Senator by a majority vote. A special message was received from the President urging the enactment of a bill to grant white persons who have intermarried in the Cherokee Nation sixty days in which to dispose of improvements on lands from which they have been dispossessed. Bills relating to the District of Columbia were considered in the House. In committee of the whole the House went on record in favor of a flat 4-cent street railway fare, with a provision for eight tickets for 25 cents, in the District of Columbia, but in the House the amendment was declared defeated. Thereupon the point of "no quorum" was made, and the House at 5:10 p. m. adjourned. During the session the Indian appropriation bill was sent to conference, the House managers being Sherman of New York, Lacey of Iowa and Stephens of Texas.

The Senate occupied Tuesday in argument on the bill granting the government the right to take an appeal on points of law in criminal cases. No action was taken on the measure. The District of Columbia appropriation bill, carrying \$10,724,532, an increase of \$687,298 over the amount as passed by the House, was reported and notice has been given that the bill would be put on its passage Wednesday. The new Santo Domingo treaty was received from the President. After the passage of a number of bills under unanimous consent, the House in committee of the whole considered the naval appropriation bill. While the bill was under consideration Mr. Shelden of Texas made an address in which he declared the rumored danger of war with Japan as ridiculous. The army appropriation bill, the fortifications appropriation bill and the omnibus light house bill were sent to conference.

The Senate Wednesday passed the bill giving the government the right to appeal to the Supreme Court for a construction of the constitutionality of any law involved in a criminal suit. The District of Columbia appropriation bill, carrying nearly \$11,000,000, was passed. The bill establishing an agricultural bank in the Philippines was taken up, and the Philippine tariff bill, which passed the House at the last session, was introduced as an amendment by Senator McCreary. No action resulted on either the bill or the amendment. The conference report on the immigration bill was received and read, but action was deferred. A message from President Roosevelt urging consideration of legislation affecting the public lands was received and read. The first night session of the Senate during the present session was held to consider private pension bills. The House considered the naval appropriation bill. The appropriation for a steel floating dry dock to cost not exceeding \$1,400,000 was struck out on a point of order by Mr. Mann of Illinois. After completing forty-five pages of the naval bill the House adjourned.

An attempt in the Senate Thursday to force action on the conference report on the immigration bill, carrying an amendment designed to settle the Japanese controversy, resulted in a filibustering movement headed by Senators Bacon and Tillman. A truce was finally declared until Friday. The agricultural appropriation bill gave rise to considerable discussion on the proposed increase in the salary of the chief of the forestry bureau. No action was taken. Senator Knox made an address in defense of the right of Senator Smoot to his seat. The naval appropriation bill occupied the entire time of the House, and it was almost completed. The single remaining section is that increasing the naval establishment.

National Capital Notes. Representative Hepburn introduced a bill to prevent the sale of adulterated or misbranded seed. The Senate passed a bill placing the control of the Panama railroad under the isthmian canal commission. The Senate committee on public lands considered the bill advocated by the administration to reserve lands which have heretofore been open to entry. The Perkins expatriation bill, providing that five years' residence outside the United States shall make an alien of any citizen, was ordered favorably reported by the House committee on foreign affairs. The Indian appropriation bill was reported to the Senate. It carries \$14,509,210, a net increase of \$6,306,132 over the bill as passed by the House. The credentials of Jonathan Bourne, Jr., elected to the Senate for Oregon for six years beginning March 4 next, were received in the Senate and placed on file. Chairman Shonts conferred with the President and Thomas J. Dolan, secretary of the International Brotherhood of Steam Shovelers and Dredgers, about increasing the salaries of those engaged in that branch of work on the Panama canal.

JAP MUDDLE ENDS. United States, Japan and California Unite in Agreement. According to Washington advices a final settlement has been reached of the vexatious Japanese question. It is entirely satisfactory to the President, to the Japanese, and to the California representatives, a correspondent asserts. Action already has been taken by Congress, an amendment has been made to the immigration bill, and the Japanese representatives in Washington have notified the President that it is entirely satisfactory to them. It provides for the exclusion of Japanese coolies from the mainland of the United States, but allows them to be admitted as at present to the Hawaiian Islands. This is all the Californians have ever asked. In return for the actual exclusion of Orientals they will rescind their resolution segregating the Japanese school children. In settling the difficulties which have required the consent and advice of the President, Congress, and the municipal authorities of San Francisco, the rarest and most delicate diplomacy has been manifested. The wording of the amendment leaves the execution of the decree of exclusion in the hands of the President exclusively. In this way, if the California people fail to carry out their part of the agreement, the President will allow the Japanese to come into the United States until Congress takes positive action. The amendment as adopted makes it possible for the President to wait for the School Board of San Francisco to admit the Japanese pupils to the schools on equal terms with other children once more before barring out adult pupils, of whom the people of California are particularly afraid. Mayor Schmitz and his colleagues from San Francisco would not agree to restore the children until they had some guarantee that Japan would agree to a treaty of exclusion. The amendment agreed upon by the Conference Committee is automatic in its action, and gives the President the necessary power without regard to Japan. On the other hand, the Japanese would not sign a treaty as a matter of national pride until after their children had been given the same status as other aliens on the Pacific slope.

The method of financing the heavy car and equipment expenditures of the Pennsylvania railroad has been disclosed by the filing of leases by two trust companies for the use of 19,537 freight cars during a term of ten years at a valuation of \$24,000,000. The leased cars are controlled and managed by the Pennsylvania directors. A yearly rental of one-tenth the cost of the cars is to be paid. Railroads are becoming keenly alive to the disadvantage of photographic evidence of disasters. The wide publication of pictures of ghastly scrap heaps of locomotives and cars is much more effective than columns of print in arousing public sentiment to the increasing railway death roll, and it is now a general rule on all roads to remove the wreckage as rapidly as possible. Commerce Commissioner Lane, in his report to the President upon the western car shortage says he found no evidence sustaining the charge that the railroads were party to a conspiracy to maintain the price of coal, but that such an agreement had been entered by the coal dealers. One of the chief reasons for the shortage of cars was the overwhelming grain crop in the Northwest, and that but 30 per cent of the crop had been shipped. Again it is said that trainmen and engineers are overworked and that there is a pernicious system on all the big railroads of making trouble for the "safe" engineer who fails to make the time required by schedule. There can be no doubt that many lines have failed to fully or properly adopt the various safety devices and systems developed by practical railroading. Then there are a lot of wretchedly constructed cars running about the country that are death traps even in minor accidents. The railroads spent fully three-quarters of a billion dollars during 1906 in the effort to take care of the traffic which has nearly overwhelmed them. Of this vast sum, according to the Railway Age, fully \$250,000,000 was expended for new equipment and power. The year broke all records for new cars, the total, according to the Age, being 313,400, and according to the Railroad Gazette, 243,670. In locomotive building the year was not quite equal to 1905. In 1905 there were about 5,650 locomotives built, which is about 623 less than the previous year. The car building was divided between the freight and passenger as follows: Freight, 310,000; passenger, 3,400. Of the freight cars, 142,172, or 46 per cent, were constructed of steel underframes; and the Pullman company has about completed its first all steel car and is going to adopt steel as its future standard. The balance of the expenditures referred to was for building 6,000 miles of railroad. The grand jury which has been investigating the accident on the Pennsylvania railroad near Atlantic City made a presentment, exonerating the aged bridge-tender, Daniel Stuart, who was held by the coroner's jury, and censuring the railroad management for faulty construction of the bridge. They say that there were no signals at either end of the bridge to show that the rails were connected. Western railroad managers reached an agreement at Chicago to grant increased wages to engineers, aggregating over \$5,000,000 a year, and affecting over 15,000 men on all lines west of Chicago.

THE RAILROADS

But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it. That's why Cascarets are the only safe medicine for the bowels.

MY CASCARET POCKET **MY WATCH POCKET** Cascarets are as safe to use constantly as they are pleasant to take. They are purposely put up like candy, so you must eat them slowly and let them go down gradually with the saliva, which is in itself, a fine, natural Digestive. They are put up purposely in thin, flat, round-cornered Enamel boxes, so they can be carried in a man's vest pocket, or in a woman's purse, all the time, without bulk or trouble. Price 10c a box at all druggists. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC." 712a

LYDIA E. PINKHAM'S VEGETABLE COMPOUND Is acknowledged to be the most successful remedy in the country for those painful ailments peculiar to women. For more than 30 years it has been curing Female Complaints, such as Inflammation, and Ulceration, Falling and Displacements, and consequent Spinal Weakness, Backache, and is peculiarly adapted to the Change of Life. Records show that it has cured more cases of Female Ills than any other remedy known. Lydia E. Pinkham's Vegetable Compound dissolves and expels Tumors at an early stage of development. Dragging Sensations causing pain, weight, and headache are relieved and permanently cured by its use. It corrects Irregularities or Painful Functions, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility; also, Dizziness, Faintness, Extreme Lassitude. "Don't care and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness, Flatulency, Melancholia or the "Blues." These are sure indications of female weakness or some organic derangement. For Kidney Complaints of either sex Lydia E. Pinkham's Vegetable Compound is a most excellent remedy. **Mrs. Pinkham's Standing Invitation to Women** Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Thus she is well qualified to guide sick women back to health. Her advice is free and always helpful.

Mayer Martha Washington Comfort Shoes are made for genuine comfort. It is a pleasure and relief to wear them. There are no buttons to button or laces to lace. You just slip them on and off at will. The elastic at the sides expands and contracts with the natural motion of the foot, insuring perfect ease and comfort. Can be worn all year round. Three styles, low, medium and high. Your dealer will supply you. If not, write to us. Look for the name and trade-mark on the sole. We also make the popular "Western Lady" shoes. Send the name of a dealer who does not handle "Martha Washington" shoes and we will send you free, postpaid, a beautiful picture of "Martha Washington," size 15x20. **F. Mayer Boot & Shoe Co., Milwaukee, Wis.**

How to Exercise the Bowels Your Intestines are lined inside with millions of little suckers, that draw the Nutrition out of food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition. This Poison makes a Gas that injures your system more than the food should have nourished it. You see, the food is Nourishment or Poison, just according to how long it stays in transit. They do not waste any precious fluid of the Bowels, as Cathartics do. They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine. They simply stimulate the Bowel Muscles to do their work naturally, comfortably, and nutritiously. And, the Exercise these Bowel Muscles are thus forced to take, makes them stronger for the future, just as Exercise makes your arm stronger.

60 ACRES WESTERN CANADA FREE **Canadian Government FREE FARMS** Over 200,000 American farmers who have settled in Canada during the past few years testify to the fact that Canada is, beyond question, the greatest farming land in the world. **Over Ninety Million Bushels** of wheat from the harvest of 1906, means good money to the farmers of Western Canada when the world has to be fed.
