

AILING WOMEN

How Many Perfectly Well Women Do You Know?

MISS GRACE E. MILLER
"I am not feeling very well," "I am so nervous it seems as though I should fly." "My back aches as though it would break."

How often do you hear these significant expressions from women friends. More than likely you speak the same words yourself, and there is a cause.

More than thirty years ago Lydia E. Pinkham of Lynn, Mass. discovered the source of nearly all the suffering endured by her sex. "Woman's Ills," these two words are full of more misery to women than any other two words that can be found in the English language. Sudden fainting, depression of spirits, reluctance to go anywhere, backaches, headaches, nervousness, sleeplessness, bearing-down sensations, displacements and irregularities are the bane of woman's existence.

The same woman who discovered the cause of all this misery also discovered a remedy, Lydia E. Pinkham's Vegetable Compound made from native roots and herbs holds the record for a greater number of absolute cures of female-ills than any other one remedy the world has ever known and it is the greatest blessing which ever came into the lives of suffering women.

Don't try to endure, but cure the cause of all your suffering. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this:

Mrs. W. S. Ford of 1938 Lansdowne St., Baltimore, Md. writes:

Dear Mrs. Pinkham—
"For four years my life was a misery to me. I suffered from irregularities, suppression, terrible dragging sensations and extreme nervousness. I had given up all hope of ever being well again when Lydia E. Pinkham's Vegetable Compound was recommended. It cured my weakness and made me well and strong."

Miss Grace E. Miller, of 1213 Michigan St., Buffalo, N. Y. writes:

Dear Mrs. Pinkham—
"I was in a very bad condition of health generally; irritable, cross, backache and suffering from a feminine weakness. Lydia E. Pinkham's Vegetable Compound cured me after all other medicines had failed."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ford and Miss Miller it will do for other women in like condition. Every suffering woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your ease. Her advice is free and always helpful.

Juvenile Perversity.

"Well, my boy," said the doctor, "are you going to put out your tongue, as I told you to do?"
"No," sullenly answered the boy. "I'm not going to put it out! I'm going to stick it out!"
Which he did—at the doctor.

60 ACRES OF FARMS IN WESTERN CANADA FREE

The testimony of tens of thousands during the past year is that the Canadian West is the best West. Year by year the agricultural returns have increased in volume and in value, and still the Canadian Government offers 60 acres free to every bona fide settler.

Some of the Advantages

The phenomenal increase in railway mileage—main lines and branches—has put almost every portion of the country within easy reach of churches, schools, markets, cheap fuel and every modern convenience.
The NINETY MILLION BUSHEL WHEAT CROP of this year means \$60,000,000 to the farmers of Western Canada, apart from the results of other grains and cattle.

WORK OF CONGRESS

An agreement to vote the next day on the conference report on the immigration bill, which includes the provision intended to settle the California-Japanese question, was reached by the Senate after an entire day of discussion Friday. The naval appropriation bill, carrying \$96,000,000, was passed by the House. An amendment to strike out the provision for an additional battleship was defeated by a vote of 114 to 146. The postoffice appropriation bill was taken up and an agreement made that general debate should cease at 12 o'clock noon the following Tuesday. The conference report on the diplomatic and consular bill was adopted.

The administration plan to settle the California Japanese situation was approved by the Senate in the adoption of the conference report on the immigration bill Saturday. This report contains a provision which authorizes the President to exclude Japanese laborers from the United States at his discretion. The postoffice appropriation bill was taken up by the House, but general debate was not concluded. During the morning hour a number of bills were passed, among them being measures permitting the special delivery of letters carrying ordinary stamps and limiting to Jan. 1, 1909, the operation of acts to reimburse the governors of states and territories for expenses incurred in aiding the United States to raise troops in the war with Spain.

As the result of more than five hours' consideration of the agricultural appropriation bill Monday, the Senate increased from \$3,500 to \$5,000 the salary of Gifford Pinchot, chief of the bureau of forestry. Practically no progress was made on the bill. Under a suspension of the rules the House adopted the conference report on the immigration bill by a vote of 187 to 101. The House refused to suspend the rules and pass the bill recommended by the interstate and foreign commerce committee as a substitute for the so-called La Follette bill limiting employment on railroads to sixteen hours, the Democrats voting solidly against the substitute. Mr. Overstreet of Indiana asked that general debate terminate on the postoffice appropriation bill at 4 o'clock Tuesday afternoon. A resolution was adopted authorizing the clerk to insert a provision in the bill looking to the reduction of the compensation to railroads for carrying mails to take effect July 1.

Senator Reed Smoot's address in defense of his position as Senator was the feature of the Senate session Tuesday. He was supported by Senator Dillingham of Vermont in a speech analytical of the evidence submitted. The Senate spent several hours in further consideration of the forestry provisions in the agricultural appropriation bill, with the result that several amendments were agreed to which restrict the operations of the bureau in several respects. The section of the bill had not been completed when a recess was taken for the evening session. At the night session several bills which were not of general importance were passed. After passing a number of bills under unanimous consent the House resumed consideration of the postoffice appropriation bill. Speeches were made by Messrs. Gillespie of Texas, Murphy of Missouri, Robinson of Arkansas, Padgett of Tennessee, Lloyd of Missouri, Steenerson of Minnesota, Finley of South Carolina and Stafford of Wisconsin. Mr. Macon of Arkansas made a point of order against the paragraphs increasing the pay of clerks in first and second class postoffices and carriers in the city delivery service. A spirited passage of words ensued between Mr. Macon and Mr. Fitzgerald of New York, wherein the latter gave notice that he would see that a point of order was made against the section providing for the increase for rural carriers. Mr. Macon refused to abandon his position and the chair sustained the points of order.

The Senate Wednesday, by a vote of 28 to 42, rejected the resolution declaring Reed Smoot not entitled to a seat as a Senator from the State of Utah. Previously, by a vote of 49 to 22, on motion of Senator Hopkins, an amendment was adopted providing that two-thirds of the Senators present must vote to unseat Senator Smoot in order to make the order effective. The Senate then took up Senator Aldrich's financial bill, which was debated for an hour, when adjournment was taken until evening. At the night session the naval and rivers and harbors appropriation bills were passed. The postoffice appropriation bill was passed by the House. All the provisions relating to increased pay affecting 90 per cent of the postal employees were restored to the bill.

The Senate completed the reading of the agricultural bill Thursday after most of the day had been spent in debate on the forestry system and the grazing land provision. Smarting under what they considered unfair treatment, the Democrats resorted to a systematic series of objections against provisions in the sundry civil bill in the House. They compelled the Republicans to maintain 100 members for a quorum of the committee of the whole and forced the reading of the bill in full, for the first time in this session of Congress, wasting nearly three hours' time. Several times, on demand, a quorum was counted at the night session, and many of the members appeared in evening dress. At 10:45 p. m. the committee rose, having completed ninety-six pages of the bill, and immediately thereafter adjourned.

National Capital Notes.
The House committee on labor has made a favorable report on the Bartholdt bill creating a board of trustees to accept and administer the Nobel prize of nearly \$40,000.
Representative Bartholdt introduced an omnibus public building bill which provides that hereafter the Secretary of the Treasury shall construct public buildings under his control in such a manner that quarters shall be available in them for all branches of the government service located in the same city.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Defeat Laid to His Auto.
A case which has recently been decided in the French courts is that of M. Laurenon, who at the time of the last general election was running for office in the Briancan district.

For the purpose of the campaign he hired a motor car to take him about, but encountered no little difficulty in his travels owing to the hilly nature of the roads and the frequency with which the machine was put out of business. After the result of the issue was made known and his defeat published M. Laurenon promptly brought suit against the company from which he had hired the machine, claiming that but for its inefficiency he would have been successful.

The numerous breakdowns had prevented him from visiting all of his electors, in other words, and he argued that the fault lay entirely with the machine and with its management. After a long and heated trial, however, he was nonsuited.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always noted, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
