Peruna
as a
Catarrah
Remedy

MRS. E. M. TINNEY.

Mrs. E. M. Tinney, story writer, 325 E. Nueva St., San Antonio, Tex., writes: "During 1901 I suffered from nasal catarrh, which various other remedies failed to relieve. "Six bottles of Peruna, which I took, entirely cured me, the catarrh disappearing and never returning. "I therefore cheerfully recommend Peruna to all similarly afflicted."

Mrs. Ellen Nagle, 411 4th Street, Green Bay, Wis., writes: "I have often heard Peruna praised and it is more widely known here than any other medicine, but I never knew what a splendid medicine it really was until a few weeks ago, when I caught a bad cold which settled all over me. "The doctor wanted to prescribe, but I told him I was going to try Peruna and sent for a bottle and tried it. "I felt much better the next morning and within five days I had not a trace of any lameness or any cough."

"I consider it the finest cough remedy."

PERUNA TABLETS—Some people prefer to take tablets, rather than to take medicine in a fluid form. Such people can obtain Peruna tablets, which represent the solid medicinal ingredients of Peruna.

FARMS WESTERN CANADA New and Liberal Homestead Regulations IN Western Canada

NEW DISTRICTS

Now Open for Settlement

Some of the choicest lands in the grain growing belt of Saskatchewan and Alberta have recently been opened for settlement under the Revised Homestead Regulations of Canada. Thousands of homesteads of 160 acres each are now available. The new regulations make it possible for entry to be made by proxy, the opportunity that many in the United States have been waiting for. Any member of a family may make entry for any other member of the family who may be entitled to make entry for himself or herself. Entry may now be made before the Agent or Sub-Agent of the District by proxy (on certain conditions), by the father, mother, son, daughter, brother or sister of an intending homesteader.

"Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less."

The fee in each case will be \$10.00. Churches, schools and markets convenient. Healthy climate, splendid crops and good laws. Grain growing and cattle raising principal industries. For further particulars as to Rates, Routes, Best Time to Go and Where to Locate, apply to W. D. Scott, Superintendent of Immigration, Ottawa, Canada, or E. T. Holmes, 215 Jackson St., St. Paul, Minn., and J. M. MacLachlan, Box 110, Watertown, So. Dakota. Authorized Government Agents.

Triumph of Heredity.

The other college boys were hazing the new freshman, who was the son of a clergyman. "You will be required," they said, as they stood him on a table, "to preach a sermon."

"I'll do it, gentlemen," he answered, "on condition that you do not interrupt me until I have finished."

"We promise," "Will you kindly furnish me a text?" "You will preach a sermon," they said, after consulting together a moment, "on Cerberus."

"On Cerberus, gentlemen? Great So—" "That's text enough, sir. Go ahead. You are wasting time."

"All right, Cerberus it is. My hearers, the subject of this discourse naturally divides itself into three heads. As you have been kind enough to promise not to interrupt me I shall occupy your attention only half an hour on each. I remark, firstly," etc.

They stood it patiently for fifteen minutes. Then they sneaked out, one by one, and the hazing came to an end.—Chicago Tribune.

Smelting Steel by Electricity.

The enormous quantity of iron ore which is being scooped from the ranges about Lake Superior, dug out of the hills of Alabama and Tennessee and hoisted from the deep pits of Pennsylvania, has caused the geologist and mineralogist to make startling predictions. Some of them have gone so far as to say that we are approaching an era when iron may rank among the rarer metals because of its scarcity. Even James J. Hill, the railroad magnate and developer of the Northwest, who was one of the first to realize the vast deposits of ore in the Superior ranges, has made the prophecy that perhaps within a half century most of the richer ore beds will be exhausted and that we may be obliged to go outside of America for much of the raw material for our smelters and furnaces.—Technical World Magazine.

Answered.

Two friends returning from a late evening gathering, says a writer in the New Orleans Times-Democrat, noticed a Chinaman. The following exchange of remarks followed: "I wonder what that Chinaman is doing up so late," said one. "Shirts," I suppose," came the answer.

Oldest House in New York.

The oldest house in New York State is situated at the lower end of Staten Island in Tottenville. It is known as the "Billogg house," and was built in 1698. The Duke of York presented Captain Christopher Billogg with a tract of land on Staten Island, whereon he built this stone mansion, which still overlooks the waters of Raritan. That it was well built its survival during 238 years attests. In it have been many notable gatherings, and here was held the peace conference. During the revolution Billogg's descendants were loyalists, and the famous generals of the British were entertained at the old house.

THE WEEKLY HISTORIAN

The Chinese Army.

"Soldiers used to be despised in China and only the coolies were considered suitable material for fighting men," says Owen MacDonald in the Technical World Magazine. "To-day all this is changed, and China has an army to which it is an honor to belong. Tommies have been superseded by wireless telegraphic apparatus and signal balloons; masks have given place to field glasses, comic opera garb has been cast off for khaki uniforms, and the twohanded sword has become the bayonet. China was first aroused to a sense of her weakness, and her strength, by the disaster of the war with Japan in 1894. Hitherto she had slumbered like a great lazy giant, smiling scornfully at the suggestion that smaller and weaker nations, by adopting modern methods, might injure her. She had sublime faith in the force of the vast hordes she could throw into the field."

TESTED BY TIME.

A Cure that Has Held Good Four Years. Mrs. Mary Crumlish, of 1130 West Third Street, Wilmington, Del., says: "Some years ago I began to feel weak and miserable, and one day awoke from a nap with a piercing pain in my back that made me scream. For two days I could not move and after that I had backache and dizzy spells all the time. My ankles swelled and I ran down dreadfully. I was nervous and had awful headaches. I wonder that any medicine could do what Doan's Kidney Pills have done for me. They cured me four years ago and I have been well ever since."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

"Home, Sweet Home," First Song.

"Home, Sweet Home" was first sung in this country at a theater in Philadelphia in connection with the production of John Howard Payne's melodrama, "Clari, the Maid of Milan." This was in 1823. The play was originally produced in Covent Garden Theater, London, and immediately the sweet air of the song sung by Clari became famous.

FAMILY'S SKIN TROUBLES.

Eczema, Heat Rash and Scalp Affections. Affect Different Members, But Cuticura Cures Them. "My wife had eczema for five or six years. It was on her face and would come and go. We thought we would give the Cuticura Remedies a trial. We did so, and she has never had a sign of eczema for four years. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment, it would dry the heat up so much quicker than anything else. Mr. H. B. Springmire, 323 So. Capitol Street, Iowa City, Ia., July 16, 1905, and Sept. 16, 1906."

Cold Calculation.

"You should do something to claim the gratitude of posterity." "What for?" asked Senator Sorghum. "I don't know that posterity will have anything I especially desire, and if it should have there is no way for it to deliver the goods."—Washington Star.

The Control of Tuberculosis.

The third annual report of the Henry Phipps Institute of Philadelphia, whose work is the study, treatment and prevention of tuberculosis, as summarized by Charities and the Commons, presents many items of interest and encouragement to those who are seeking to arrest the ravages of consumption. One is the racial susceptibility to the disease. Foreign born citizens brought to the institute form nearly one-half the burden of its work for the year. The countries which sent it the heaviest burdens in order of sequence were Russia, Ireland, Germany, England, Italy, Austria and Scotland. The same order holds good for the cases which came from the second generation, namely, the children born of immigrants. Only 31.3 per cent of all the patients treated were of native ancestry one generation back. Children born of mixed parentage most frequently became victims when the union of parents was between Irish and native born, and next between Irish and English. The claim often made that tuberculosis does not exist to any great extent among the Hebrews is partially borne out by the mortality statistics in large cities; that is, while the disease is very prevalent among the Hebrews it seldom takes on a fatal form. There seems to be a racial immunity against the toxine of the tubercle bacilli, but not against its growth. The institute finds that the frequency with which residence is changed by the consumptive poor constitutes a menace to public health and furnishes a strong argument in favor of registration of tuberculosis. It is also urged that disinfection of houses when vacated by consumptives, whether by death or removal, should be practiced everywhere. It is interesting to note that in Philadelphia every ward in which an institution for the treatment of tuberculosis exists showed a reduction of the death rate from the disease, while some of the adjoining wards have had an increase.

More Carnegie Heroes.

The Carnegie Hero Fund Commission has made medal and money awards to twenty-four more persons shown to have performed exceptional service in the saving of a life. The list included, for the first time, a negro, John Hill of Atlanta. The largest award was that of a gold medal and \$3,600 to A. J. Hedger, superintendent of schools of Finney county, Kan. He ran two miles and entered a well seventy-two feet deep, where he worked two hours with shovel to save the life of a man caught in a cave-in.

KIDNEY TROUBLES

The kidneys are essential organs for keeping the body free from impurities. If they should fail to work death would ensue in very short time. Inflammation or irritation caused by some feminine derangement may spread to some extent to the kidneys and affect them. The cause can be so far removed by using Lydia E. Pinkham's Vegetable Compound that the trouble will disappear.

When a woman is troubled with pain or weight in loins, backache, swelling of the limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys, she should lose no time in commencing treatment with
