

Peruna a Tonic of Great Usefulness

HON. R. S. THARIN.

Hon. R. S. Tharin, Attorney at Law and counsel for Anti-Trust League, writes from Pennsylvania Ave., N. W., Washington, D. C., as follows: "Having used *Peruna* for catarrhal disorders, I am able to testify to its great remedial excellence and do not hesitate to give it my emphatic endorsement and earnest recommendation to all persons affected by that disorder. It is also a tonic of great usefulness."

Mr. T. Barnecott, West Aylmer, Ontario, Can., writes: "Last winter I was ill with pneumonia after having months, when I became quite well. I also induced a young lady, who was all run down and confined to the house, to take *Peruna*, and after taking *Peruna* for three months she is able to follow her trade of tailoring. I can recommend *Peruna* for all such who are ill and require a tonic."

Pe-ru-na Tablets.
Some people prefer to take tablets, rather than to take medicine in a fluid form. Such people can obtain *Peruna* tablets, which represent the solid medicinal ingredients of *Peruna*. Each tablet is equivalent to one average dose of *Peruna*.

SILVER PREFERRED TO GOLD.

Money a Relative Term—Value Depends on Locality.
"It is hard to define just what money is," said Colonel Louis E. Pitts of Missouri recently. "At best it seems to be a relative term—that is, what passes for money in one part of the world is regarded with suspicion at some other place."
"Gold is supposed to be the one circulating medium that passes current everywhere, but it is not true. In the far East, for instance, the natives positively refuse to take anything but silver. Gold is not money to them and in Washington or New York or any of the cities along the Atlantic coast when I hand a man a \$10 to \$20 gold piece to change he looks on me with suspicion. He almost says in so many words he would rather not have it. But let me hand out a worn and dirty bill and he accepts it without looking at it."

"Out in California bills are still more or less of a curiosity, and consequently the people are not accustomed to them. Go into a bank in San Francisco and tender a \$50 bill for change. The chances are the president of the bank and the entire staff of officials would be called into consultation as to its genuineness, and I doubt if there is a store in the town where a bill would be accepted and changed offhand."
"The silver coins in circulation in China," Pitts continued, "are objects of curiosity to foreigners. In China the coinage of money is left to private parties, and the amount of silver in a coin depends largely on the personal honesty of the man in charge of the particular mint. On this account each coin as it passes around in circulation is to be stamped with the initials of the merchant last having it in his possession. The last man stamping the coin is held responsible for any shortage in weight in the coin. The result is that the coins, from repeated stampings, resemble small saucers, and each one fits into the other when stacked in a pile."

Hard to Reach.
The numerous "help" who have "had" good characters but lost them "had" no worse off than the domestic mentioned in Illustrated Bits, whose search for employment was hindered by an untoward circumstance. Said the master of the house to an applicant: "Can't you find any work at all?" "Plenty, sir; but everybody wants references from me last employer." "Can't you get them?" "No, sir. He's been dead twenty-eight years."

FAIR IS A FAILURE.

Jamestown Exposition Has Proved an Abject Fizzle.
According to a Washington correspondent, the Jamestown exposition has proved an abject failure. It is hopelessly bankrupt. The government is to lose the million dollars it loaned, and a lobby is preparing to invade Washington to try to saddle the public treasury with the other \$2,000,000 of the exposition's debt.

The total liabilities of the exposition, according to official figures, will reach the sum of \$3,465,000. The total assets are \$710,000. Therefore the exposition is bankrupt to the tune of \$2,855,000. Second mortgage bonds will be due next month for \$370,000. There are first mortgage bonds due next year for \$400,000, and the exposition owes the United States government up to date \$888,000. The assets of the exposition consist of the permanent improvements to the real estate, estimated at \$600,000. Fixtures and furniture \$100,000 and unpaid stock subscriptions \$100,000. The exposition has cost over \$5,000,000. The buildings put up by the exposition company cost \$1,750,000. Those erected by the States \$1,500,000, and those by concessionaires \$1,600,000. The government and exhibitors each have spent about \$400,000. The total gate receipts to date have been about \$508,000. The daily expenses have been \$4,000. The expenses have from the beginning been greater than the receipts.

Perhaps the most potent reason for the exposition's failure is found in the purpose of a party of the original promoters to engineer a clever real estate speculation. It was figured that the exposition was to bring improvement to the barren waste of land which was chosen for the site, and the promoters were to profit by this unearned increment by becoming owners of this land. This influenced the choice of the exposition's site, and the most important reason for its failure was the inaccessibility of this site. To reach the place a boat trip from Washington of twelve hours was required, and there never has been a time when there were enough boats to handle the traffic comfortably. In addition to which there were no facilities at the exposition for covering the ground, and the visitor was subjected from the beginning to all manner of petty imposition and discomfort.

A determined effort will be made in Congress to foil the efforts of the lobby to try to make the government "a goat" for this losing speculation.

Hotel Home of the Wealthy.

Already more than one-half of the 800 living rooms in the new Plaza Hotel, which was recently completed at the corner of Fifty-ninth street and Fifth avenue, New York City, at the cost of \$12,500,000, have been taken in the form of suites as permanent homes for millionaires under yearly contracts. The rentals of these tenets vary from \$15,000 to \$30,000 a year. The suites include parlor, dining room, library and varying number of bedrooms, all opening upon a private hall, which in turn connects with a public hotel corridor. This insures privacy and a sense of family unity to each set of rooms. Warming and refrigerating apparatus in the private pantry is connected by chutes and tubes with the general kitchen in the basement, so as to give a dining service the advantage of a perfectly equipped hotel plant, but in the privacy of an individual home. Names prominent among those who have taken suites here are the Goulds, Gates and Vanderbilts. Single rooms may be rented for \$4 a day, and double rooms, with bath, for \$6 a day. The hotel will be fully occupied when it houses 600 people, because so many rooms are used as parlors and dining rooms.

Compensation for Motherhood.

Women of all sorts and conditions attended the recent National Union of Women Workers at London, England, to discuss plans for their betterment, and to protest against wage discrimination on account of sex. It was decided that the trades unions could not help the unskilled women workers, because it is too expensive to maintain such organizations. It was agreed that nothing could be expected from the individual employer, and that State intervention was their only salvation. Some of the leading spirits urged that working women should avoid marriage until after the age of 25 at least, thereby lessening the size of families and allowing time for more complete equipment for the duties of wifehood and motherhood. One speaker was greeted with enthusiasm when she urged a definite plan for the payment of motherhood, which, she said, was the only form of industry now unpaid.

Hurt Cancer Cure Demonstrated.

A public demonstration of the new "fulgurant" treatment for cancer has been made at Paris by Dr. Hart, in the presence of thirty prominent surgeons of all nations. Dr. Hart, whose home is at Marseilles, has used the treatment for eighteen months, and in 65 per cent of the cases the patients remain cured. By means of Gaffie's electric transformer he sends through an insulated probe an electric spark 5 inches long. This is applied with a fulgurant or flashing effect on the cancerous growth, thus destroying all the diseased tissues. Then the spark is used in lieu of a knife to volatilize the affected part. The wound is washed in water and antiseptic.

Providing the Supplies.

Egg-rolling on the White House lawn has long been an Easter custom in Washington. So has it been a custom in a neighboring Sunday school to give Easter eggs to the children.

Last Easter the superintendent of the school startled his hearers by this announcement: "Now, children, we will sing hymn number ninety-three. 'Begin, my soul, the exalted day,' after which I will distribute the eggs."

VETERAN OF THREE WARS.

A Pioneer of Colorado and Nebraska.
Matthias Campbell, veteran of the Civil War and two Indian wars, and a pioneer of Colorado, now living at 218 East Nebraska street, Blair, Neb., says: "I had such pains in my back for long time that I could not turn in bed, and at times there was an almost total stoppage of the urine. My wife and I have both used Doan's Kidney Pills for what doctors diagnosed as advanced kidney troubles, and both of us have been completely cured."

She Did Not Fear Death.

An old lady on her seventy-third birthday once said, "I do not mind getting old, and I do not fear death, but I live in constant dread of paralysis."
"For some time I have been wanting to tell you of the great good your wonderful Sloan's Liniment is doing here," writes Mr. James F. Abernethy, of Rutherford College, N. C. "In fact, all your remedies are doing noble work, but your Liniment beats all. In my eight years' experience with medicine I find none to go ahead of it, having tried it in very many cases. I know of one young man, a brick mason, who suffered from a partial, yet almost complete, paralysis of one arm. I got him to use your Liniment, and now he can do as much work as ever, and he sings your praise every day. I get all to use it I possibly can and know there is great virtue in it. I have helped the sale of your noble remedies about here greatly, and expect to cause many more to buy them, as I know they can't be beat."

Nathan Straus, an eastern philanthropist, has established in New York City a series of milk booths where pure sterilized milk is sold to the poor for one cent a bottle. Absolute antiseptic cleanliness is required by him in all branches of the enterprise. In cleansing the milk bottles he uses two things—hot water and BORAX. The glistening bottles testify to the effectiveness of this method.

NATURE PROVIDES FOR SICK WOMEN

a more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

LYDIA E. PINKHAM

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value. During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

Nothing Too Good For the American People

There is NOTHING TOO GOOD for the American people—that's why we started to make Cascarets Candy Cathartic. The first box made its appearance in 1896, and the enthusiastic endorsement of the people has been bestowed upon Cascarets ever since.

The sale today is at the rate of OVER A MILLION BOXES A MONTH, proving that the American people recognize, that what is BEST FOR THEM is none too good.

Why this enormous patronage?
The answer is simple: Cascarets are pure, clean, sweet, mild, fragrant, harmless but effective little tablets for the treatment and cure of Constipation and all Bowel Troubles. They are put up in neat little enamel boxes, easy to buy, easy to carry (in vest-pocket or purse), easy to take and easy of action, always reliable, always the same, they "work while you sleep" and wake you up feeling fine in the morning.

They not only regulate the movement and stimulate the muscular walls of the bowels, but they keep the ENTIRE CANAL CLEAN and antiseptic, forcing out and destroying all disease germs that breed in the accumulated filth unless promptly and regularly discharged. Therefore, they are a great preventive of disease, and may be taken continuously as a precautionary measure.

The new Pure Drugs Act, adopted by Congress on June 30, 1906, and in effect January 1, 1907, is a GOOD LAW and means better and PURER drugs for the American People. We endorse it and will live up to it in SPIRIT and LETTER—an easy task, as we have always been actuated by the same principles and no changes are required in our formula or package.

We adopted OUR OWN PURE DRUG LAW in 1896 when the first box of Cascarets came on the market and have lived and worked and produced under it ever since.

To-day, after a record of nearly 100,000,000 boxes sold, Cascarets STAND the greater in PURITY, QUALITY and MEDICINAL MERIT than any other preparation for Bowel trouble in all the world.

This should be a great argument for any one, to try Cascarets AT ONCE, and be healthier and happier for it. Some people have CHRONIC CONSTIPATION with all the horrors derived from it; others have HABITUAL CONSTIPATION from carelessness and neglect, but nearly EVERYBODY has OCCASIONAL CONSTIPATION, which, if not promptly taken care of is liable to result in its degeneration into the worse forms and cause great suffering and perhaps death.

Cascarets, if taken patiently and regularly, will remedy all of these awful troubles, but if taken promptly at the very first sign of an irregularity of the bowels, will act as the FINEST PREVENTIVE ever discovered and will keep all the machinery running in good order.

We advise you to get a little 10c box of Cascarets TO-DAY and carry it in your purse or vest pocket. Take one when you feel anything unusual about your bowels. Your own druggist will sell you the little box, under GUARANTY of satisfaction or money refunded. All druggists, 10c, 25c, 50c.

It is estimated that 5 per cent, or about \$85,000,000, of the annual income from American railroads goes to foreign investors.

Now Open for Settlement

Some of the choicest lands in the grain growing belts of Saskatchewan and Alberta have recently been opened for settlement under the Revised Homestead Regulations of Canada. Thousands of homesteads of 160 acres each are now available. The new regulations make it possible for entry to be made by proxy, the opportunity that many in the United States have been waiting for. Any member of a family may make entry for any other member of the family who may be entitled to make entry for himself or herself. Entry may now be made before the Agent or Sub-Agent of the District by proxy (on certain conditions), by the father, mother, son, daughter, brother or sister of an intending homesteader.

"Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 2 and 36, not reserved, may be homesteaded by any person the sole head of a family or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less."

The fee in each case will be \$10.00. Churches, schools and markets convenient. Healthy climate, splendid crops and good laws. Grain growing and cattle raising principal industries.

For further particulars as to Rates, Routes, Best Time to Go and Where to Locate, apply to W. D. Scott, Superintendent of Immigration, Ottawa, Canada, or E. T. Holmes, 315 Jackson St., St. Paul, Minn., and J. M. MacLachlan, Box 10, Watertown, So. Dakota. Authorized Government Agents.
