

A TEMPERANCE WORKER.

Says Peru-na is a Valuable Nerve and Blood Remedy.

MISS BEBBIE FARRELL
1014 Third Ave., Brooklyn, N. Y., is President of the Young People's Christian Temperance Association. She writes:

"Peruna is certainly a valuable nerve and blood remedy, calculated to build up the broken-down health of worn-out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn-out tissues. In my work I have had occasion to recommend it freely, especially to women."

"I know of nothing which is better to build up the strength of a young mother, in fact all the ailments peculiar to women, so I am pleased to give it my hearty endorsement."

Dr. Hartman has prescribed Peruna for many thousand women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

Man-a-Lin the Ideal Laxative.

Martha Washington

COMFORT SHOES

Thousands of women thoroughly enjoy the genuine relief and comfort of Martha Washington Comfort Shoes. They fit like a glove and feel as easy as a stocking. No bother about buttons or laces; they just slip on and off at will. Elastic at the sides prevents pinching or squeezing, and gives with every movement of the foot. Absolute comfort guaranteed.

Your dealer will supply you; if not, write to us. Look for the name and Trade Mark on the sole.

EVERY: Send the name of a dealer who does not handle Martha Washington Comfort Shoes, and we will send you free, postpaid, a beautiful picture of Martha Washington, size 15x20.

We also make the stylish "Leading Lady Shoes."

F. Mayer Boot & Shoe Company

MILWAUKEE, WIS.

"Solid Comfort"

Rubbing It In.

Thomas Beecham, the famous pill man, was a witty old gentleman. They tell a story about him and a grocer.

The grocer was guilty of some rather sharp practice on Mr. Beecham one day, and the latter stamped out of the shop roaring:

"You're a swindler, and I'll never enter your doors again."

Next day, though, he came back and bought five pounds of sugar.

"Dear me," said the grocer, smiling in a forgiving way. "I thought you were never going to enter my doors again."

"Well, I didn't mean to," said Mr. Beecham; "but yours is the only shop in the place where I can get what I want. You see, I am going to pot some bulbs and I need sand."

Nature Faux.

A member of the proletariat was admitted.

"Sir," he said, "the wolf has been at my door for months."

"Pooh, pooh, my good man," responded the fat capitalist. "Such is not the nature of the wolf. You have evidently been reading unscrupulous literature."—Philadelphia Bulletin.

Salt, sulphur and charcoal is the three-fold requirement of healthy hogs.

Unless the helper calf has well-shaped bag and teats it is better to sell her for veal.

That a horse well bedded, and it might be added, groomed daily, is half fed is so nearly exact that it approximates a full truth.

The best of anything always costs the most, though it isn't always safe to argue that the highest priced article or commodity is the best.

Boys who forget to comb their back hair and brush their boot heels often turn out to be the kind of farmers that have a big cocklebur patch on the back forty. So beware, boys.

A man ought to have the sign, "Beware" tacked up at the gate of his brood sow quarters so that when he started in each day to shovel their corn to them he would use a little more judgment than is commonly used.

The parts of an old harness that are to be oiled should be carefully cleaned, placed in a convenient vessel or covered with a good grade of harness oil; after soaking a couple of days, the straps should be taken out and hung up to dry.

An uncultivated field will lose its moisture very quickly, while a soil which is stirred to the depth of two or three inches so that a surface mulch is formed keeps its moisture because the upward movement of the moisture is checked.

Exclusive corn diet is bad for the brood sow. She cannot farrow strong pigs on such a fattening diet. Little corn should be fed, but rather a ration made up of foods rich in protein, such as wheat bran, ground oats and clover.

A milking stool out of the corral around which fence wire comes wound is the discovery of one resourceful farmer. He nails a bit of board on one end, to make the seat more comfortable, while he uses the anger hole in the other end to hang the stool on a nail when not in use.

Secretary of Agriculture Wilson estimates that more than \$600,000,000 must be regarded as value of the poultry and eggs produced on United States farms in 1907. The farm price of eggs December 1 this year was given at 18.2 cents, which is the highest for a long time, with the exception of 1905.

Pride in one's own farm, stock, etc., is all right, but don't let it become a stumbling block to you so that further progress towards better things is stopped. Always be on the lookout for the new idea and the new method which will increase the efficiency and profits of your farm.

A good way to find out whether the front of your farm presents a neat and tidy appearance is to take a photograph of it with the thought in mind of presenting one to your friends. After the photograph is taken you may change your mind on the subject, in which case it ought to result in a general cleanup.

Testing Butter.

There are several ways to tell renovated butter, and oleomargarine from fresh butter. One is by the simple boil test. This can be done in any home with no other apparatus than an oil lamp and a tin teaspoon. Take a lump of the butter the size of your first thumb joint and place it in the tin tablespoon. Light a common oil lamp, remove the chimney and hold the spoon containing the butter over the light so that the flame reaches the bottom of the bowl of the spoon. Hold it in this position until the butter boils. Oleo and renovated butter boil noisy, sputtering like a mixture of grease and water, and produce but little, if any, foam. Genuine butter boils with little or no noise and produces usually an abundance of foam. This is one of the most simple as well as the safest of tests.

Modern Fruit Without Seed.

At present the fruits in common use that have few or no seeds include bananas, pineapples and a certain kind of oranges, together with some other tropical fruits that do not reach the markets of the world in great quantities. Yet cultivators do not greatly despair of adding to this list—of eliminating the small and hard seeds of the strawberry, the raspberry, the blackberry and the currant, and of providing for the market the long-felt want, the seedless grape. Nor do they frown altogether on the enthusiastic fruit consumer, who looks forward to a future coreless apples and pears, of seedless cherries and plums.

In the meantime cultivators of fruit are much more anxious still further to improve the means of transportation than to provide more luscious fruit. Should they succeed it may prove pos-

HIS Winter Wheat Crop Realized
\$38 Per Acre—Oats \$37
Per Acre in Southern Alberta.

Colddale, Alta., Nov. 10th, 1907.
Sir—I beg to say that this year we had 33.4 acres of grain, consisting of 117 acres of spring wheat and 152 acres of oats. The average yield of wheat was 30 bushels per acre and oats 14 bushels. We were offered \$1.00 per bushel for wheat and 50 cents for oats making the acre values for the two crops \$38.00 and \$37.00, respectively.

We also had 50 tons of hay worth \$12.00 per ton, and 500 bushels of potatoes, worth 60 cents per bushel, totaling 321 acres of ground.

Our best yields this year were 15 acres of wheat, making 41 bushels per acre at \$1.00 per bushel, would be \$11.00 per acre; 47 acres of oats, yielding 95 bushels per acre were sold for 50 cents per bushel. Proceeds \$47.50 per acre.

I might add that 50 acres of our oats were "stubbled in."

During the spring of 1906 we hired about 300 acres broken by steam. We put in and harvested 35 acres of grain last year, but did the remainder of our breaking, worked up the ground and seeded this year's entire crop; put in 7 acres of alfalfa and 5 acres of garden potatoes, trees, etc., all with our four-horse team. During harvest we tired other teams; but, aside from this and part of the breaking, the one team did the work of raising practically 10,000 bushels of grain, worth \$12,000.

Yours truly,
W. H. PAWSON, JR.

Winter Wheat 25 to 30 Bushels to The Acre in Southern Alberta.

Warren, Alta., Jan. 9th, 1908.
Dear Sir—This is the first year of

farming in this settlement. Mr. A. L. Warner raised twenty-five hundred and fifteen bushels of fine winter wheat on one hundred acres of breaking, and Tenny Brothers had sixty acres that went thirty bushels per acre. The winter wheat that is in this year looks fine.

Spring wheat here went thirty bushels per acre; oats, fifty to eighty; barley, fifty, and flax ten to fifteen on sod.

The settlers here are all well pleased with the country. The stock have not required any feed except the grass up to this date and are all fat.

Yours truly,
F. S. LEFFINGWELL.

Information as to how to reach these districts can be secured of any agent of the Canadian government, whose advertisement appears elsewhere.—EL.

Goes Without Saying.

Conan Doyle had just notified Sherlock Holmes of his approaching marriage.

"Of course," he said, "I need not tell you that I have selected you as my best man. The position naturally belongs to you."

"Quite so," assented Sherlock Holmes, about mindfully shooting a charge of dope into his left arm.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one safe, effective, constitutional and safe treatment for Deafness, and that is Constitutional Remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, it will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CHILDREN TORTURED.

Girl Had Running Sores from Eczema—Boy Tortured by Poison Oak—Both Cured by Cuticura.

Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, and in about three weeks his hands and arms healed up. Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1907.

New Jersey farmer declares his life was saved by ghost of his wife.

The best security against chronic ill health is Garfield Tea! It insures a normal action of liver, kidneys, stomach and bowels, overcomes constipation and purifies the blood.

160 Acres Western Canada

Illustration Showing Mixed Farming Scene in

WESTERN CANADA

Some of the choicest lands for grain growing,

stock raising and mixed farming in the new districts of Saskatchewan and Alberta have recently been opened for settlement under the

Revised Homestead Regulations

Entry may now be made by proxy (on certain conditions), by the father, mother, son, daughter, brother or sister of an intending homesteader.

Thousands of homesteads of 160 acres each are thus now easily obtainable in these great grain-growing, stock-raising and mixed farming sections.

There you will find healthful climate, good neighbors, churches for family worship, schools for your children, good laws, splendid crops, and railroad connections.

Entry fee in each case \$1.00. For pamphlet, "Last Home West," particulars for terms, routes, best time to go and where to locate, apply to

W. D. Scott, Superintendent of Immigration, Ottawa, Canada, or E. T. Holmes, 115 Jackson St., St. Paul, Minn., and J. M. MacLachlan, Box 119, Watertown, So. Dakota. Authorized Government Agents.
