Educator Shoes

Let the child's foot grow as it should. The Educator Shoe is the only shoe built to conform with the shape of the child's foot. The broad, foot form last, gives every comfort and ease of movement to the child's foot and prevents the pinched and cramped positions, which cause so many of the troubles with the feet in after years.

See our window display of Educators.

gun excavating for a cellar and expect to build a stone store building this fall or next spring.

Crops are looking well on North Table. Some are beginning to harvest small grain. Corn is looking good and farmers are laying it by with good prospects for a crop. We had the pleasure of eating dinner

with Lou Taylor Tuesday in his new dwelling which he had just moved into and ate their first meal in it. It is a \$5000 home that would do credit to many eastern country residences with hot and cold water and bath room when completed.
