Jackson P. Banks was arrested in Valentine last week by Sheriff Rosseter on a charge preferred by authorities in Stanton Mich. where Banks formerly lived. He has been dodging the law for the past two or three years and evading his pursuers. In the meantime he has been a Seventh Day Adventist and held meetings here and there. He is wanted in Michigan on the charge of rape on the person of a 12-year-old girl whom he and his wife had raised. Banks had continued his relations with this little girl for two or three years with his wife's knowledge and assistance and the wife later procured an abortion and since that time Banks and his wife have been traveling. They have managed to evade their pursuers for a long time and recently when Banks' sister bought a ticket to Cody Nebr she was followed and Banks and his wife were located. Sheriff Rosseter got \$50 reward for arresting and holding Banks until requisition papers could be obtained from Gov. Sheldon. Mr. Banks was permitted to remain at home and was guarded night and day by marshal Hilsinger, S. Q. Spain and Wm. Ward. The sheriff from Michigan arrived Monday night and the following morning took his prisoner, accompanied by Mrs. Banks, back to Stanton, Mich. Thus closes a chapter of Banks the adventist in our city.

BIG CIRCUS COMING

Everyone in the country will be glad to hear that the big Buchanan Bros. and Yankee Robinson combined railroad circus will visit this city Tuesday, August 18. This show is one of the largest in America and is without question the peer of all in the attraction line. The elephants, camels, tigers, lions, and the various animals that make up the menagerie, will all be here as announced in the advertising.

The shows travels in its own special train. The train may travel in one section through this part of the country where no particular grades are encountered, but as a general rule it travels in two sections. The first section, known as the flying squadron, carries the animals and the tents to house them. This first section also carries the cook department and commissary supplies. The second section of the show carries the "Big Show" outfit and the stables and minor shows with the circus. The first section is scheduled to arrive here at four o'clock in the morning on exhibition day. The second section will arrive three hours later, arriving here at seven in the morning. It is stated by representatives of the show that owing to the fact of the little grades between here and the last point of exhibition that a double-header will probably bring the whole show in one long train. This has not been definitely decided upon but is probable. In the later event the show will arrive at 6 o'clock in the morning and the unloading commenced without delay—the menagerie, cook houses, stables and side shows will be up before breakfast. Immediately after the morning meal the work of erecting the big tents for the big show, together with the properties for the big acts, will begin. This work will be completed before ten o'clock, giving ample time for the getting ready of the street parade which takes place promptly at noon.
