Democratic National Ticket For President:

> W. J. BRYAN of Nebraska.

For Vice President:

J. W. KERN of Indiana.

BRYAN'S PROPHECIES AND THEIR FULFILLMENT

PEOPLE.

Mr. Bryan has been abvocating the election of senators by the people for eighteen years, and predicting that the reform would come. Now candidate Taft confesses that personally he is "in- not continue to celebrate the clined to favor it''-although the | Fourth of July, if we permanent-Republican Convention turned it ly denied the principles of the

TARIFF REFORM.

has been pointing out the injustice of imperialism and the opposition of a high tariff to the farmers and to it is so great that the Republipredicting that they would turn can candidate for president has against it, and now public senti- been compelled to declare, in fament in favor of tariff reform is so vor of the independence of the Commission to ascertain the value great that the Republican Conven- Philippine Islands, although he of the railroads and has predicted tion was compelled to promise to puts the day of indepedence off that this reform would come. The call a special session of Congress for two generations. We are efter the fourth of March next spending on the army and navy when the election is over to revise more than \$120,000,000 a year in Taft admit that it would be well to the tariff.

THE TRUST QUESTION.

For fifteen years Mr. Bryan has been pointing out the evils of private monopoly and predicting that the trust would become intolerable. Now a majority of the people recognize that the private monopoly is indefensible and must go.

GUARANTEED BANKS.

Bryan has been trying to secure the protection of bank depositors by a law which will raise a guaranty fund by a small tax upon the bank deposits and he has predicted that the people would finally demand this reform. Sentiment in favor of it, has grown so rapidly in recent years that Oklahoma has adopted it. A Republican Gover nor in Kansas has called a session of the legislature to secure its a doption and it has been urged in ELECTION OF SENATORS BY THE both branches of the national congress. It is coming.

IMPERIALISM.

Mr. Bryan warned the country in 1900 against the evils of imperialism and predicted that we would Declaration of Independence. In our dealing with the Filipinos the For twenty years Mr. Bry an people have come to see the evils eleven years ago. What republi- worth. can will now say that imperialism is a success, or deny that its principles are dangerous?

THE LABOR QUESTION.

Mr. Bryan has, since 1896, been insisting that the laboring man be charged with indirect contempt For fourteen years Mr. and predicting that his right to a

ORGANIZATION DAY, SEPTEMBER 15.

The local clubs are the ground work of the state organization. The suc- structive statesmanshipcess of this campaign depends largely on the local clubs. It is therefore urged upon all true friends of Mr. Bryan to see to it that a local club is organized in every city and village, and when possible, in county precincts. September 15th has been designated as final organization day, for the organization of clubs where they have not already been organized. Let each voter who believes in the principles advocated by Mr. Bryan take it upon himself to see that his locality has a Bryan club at the close of that day.

No special form of organization is required, but should anyone engaging in the work desire forms and literature to guide him he can get them by addressing C. M. Gruenther, Sec'y, Columbus, Neb. Upon the organization of a club the president or secretary will kindly fill out and mail to the above address the following form:

	Nebr
To C. M. GRUENTHER, Sec'y: Columbus, Neb, Dear Sir:	
The name of cur club is	
President	Address
Secretary	Address
All new clubs, and also those al should be reported on this blank.	ready organized but not reported

jury trial would be recognized. Public sentiment is now overwhelmingly in favor of this proposition although Mr. Taft, the father of government by injunction, still refuses to endorse this reform.

MONEY.

For years Mr. Bryan pointed out the necessity for more money. The unexpected discovery of gold, and the consequent increase in the volume of money has brought the a lyantage which he claimed would follow from a larger circulation, and today we have fifty per cent day. per capita more than we had in 1896-twenty-two dollars per capita then, thirty-three dollars per capita now. What Republican would be willing to retire the increase and go back to the quantity that the country had when Republicans said we had enough?

WAR-LIKE SPIRIT.

The man who placed President Roosevelt in nomination in 1904 delivered a eulogy war, and represented President Roosevelt as the god of war. Mr. Bryan criticized the eulogy and male a plea of peace. Now the bringing of peace between Russia and Japan is not only credited to the president, but praised as his greatest public act. Who was right!

PUBLICITY.

Mr. Bryan has for a number of years favored a law compelling publicity as to campaign contribution before the election and he has predicted that the reform, would come. The Democratic platform and the Democratic committee have declared for this reform. The Republican convention turned it down, but Mr. Taft has at last been brought to the advocacy of publication after the election.

VALUATION OF RAILROADS. Mr. Bryan has for several years favored legislation which will authorize the Interstate Commerce Republican convention turned this down, but the President and Mr. excess of the amount spent on them | find out what the railroads are

INCOME TAX.

Mr. Bryan helped to frame the income 'tax law in 1894, and was bitterly denounced by the Republicans for so doing. He predicted road, the accident being caused, in that the people would finally come to it. Now the Republican presigiven a trial by jury when he is dent and the Republican candidate & N. W. railroad. In testimony, for president admitthat the income whereof, the said jurors have tax is just-although the Republi- hereunto set their hands the day can convention ignored the subject.

THREE KILLED IN WRECK NEAR KILGORE, NEBR.

About 3:30 o'clock last Sunday morning an extra ran into another extra about a half mile west of Kilgore, completely demolishing the way car and two stock cars.

Four stockmen were in the way care at the time, two of whom were killed outright and the other two injured, one fatally, and died Mon-

The dead: George Kennedy. Foster Speas. Malcomb M. Hawkins. The injured: S. F. Brower.

Doctors were summoned immediately and Drs. Compton and Hoxsey and Coroner Lewis went up in the baggage car of No. 6, which was sent down after them. The two dead and two wounded men were brought to Valentine about 9 o'clock Sunday morning and the injured were taken to Mrs. Sears' residence where one of them died at 7:42 the next

An inquest was held at 10 a. m. Monday at which the two train crews were in attendance. After the testimony of the train crews was taken the jurors expressed a desire to view the scene of the wreck and were taken there Tuesday forenoon on a special, returning in the afternoon. Through the courtesy of Judge F. M. Walcott, who is representing the rail road company, we were privileged to be one of the party. The special went a mile the other side of the wreck and then backed down slowly to the wreck, giving the coroner and jury a chance to view the curves and grades immediately preceding the wreck and to corroborate the testimony of the train

At 8 o'clock Tuesday evening the coroner and jury met at W. D. Armstrong's office and after due deliberation arrived at the following verdict:

"Find that the said above named parties came to their death from injuries received in a rear end collision on the morning of August 30, 1908, at about 3:30 a. m., about three-quarters of a mile west of Kilgore, Cherry county, Nebraska, on the C. & N. W. railour opinion, through the criminal negligence of the officials, the train dispatcher and trainmen of the C. and year aforesaid.

W. T. KINCAID. W. S. JACKSON. W. D. Armstrong.

H. W. GRAHAM. W. A. Pettycrew.

W. B. Hammond. Attest: Alfred Lewis, Coroner.

The testimony showed that the train which the above named stockmen were riding on left Cody at 3:00 a. m. and the train following left the coal chute at Cody at 3:13, the conductor getting onto the engine at the depot and handing the orders to the engineer who pulled on out.

The testimony also showed that the distance between Cody and Kilgore was about 16 miles, and that the head train was making about 25 miles an hour, while the train following was making 35 miles an hour—the speed limit.

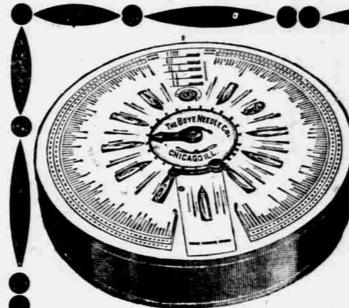

The flagman on the head train testified that as soon as he could get off he started back up the track to flag the train following which was only two or three minutes be

Nenzel is about half way be tween Cody and Kilgore and has no operator. If an agent had been kept at Nenzel the accident would probably never have happened, as the rules of the road forbid trains to leave stations less than 15 minutes apart.

The engineer and fireman on the rear train both jumped before hitting the way car and escaped without serious injury. The engine was badly wrecked.

210 sheep were killed.

The stockmen were from No-
