

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va. — "I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound."

Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound. — MRS. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham Laboratory at Lynn, Mass. From women who have been cured from almost every form of female complaint, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

There is no bronchitis or lung trouble that it will not relieve. Free from opiates or harmful ingredients. Fine for children. At all druggists, 25 cts.

Nebraska Legislature

Shoemaker's suffrage bill got a good vote on final passage and goes to the senate with strong support from both parties in the house.

House finance committee's bill is ready for introduction. Few changes of consequence made over last session.

The senate killed Representative Taylor's bill taxing mortgages, re-committed a Sunday baseball bill after it had failed to get enough votes to pass it and passed thirteen bills.

Appointment Raises Row. It is reported that the governor's appointment of Miss Ella McGinnis of O'Neill matron of the Lincoln hospital for the insane is the cause of the resignation of Miss Stiff, head nurse at the hospital and the proposed discontinuance of the nurses' training school at that institution. Some of the other officers and employees at the institution are not in harmony with Miss McGinnis and they do not take their meals at the same table. Miss McGinnis is a sister-in-law of Arthur Mullen, the governor's chief of inspectors. She was dismissed from the service of the state by Dr. Hay several months ago and her reinstatement by the present administration does not result in allaying the inharmoniousness that formerly existed.

Annual Fee From Corporations. The senate committee on miscellaneous corporations decided to report senate bill No. 98, by King of Polk, to be placed on the general file. The bill provides for an annual license fee to be collected by the state from corporations, the fee to range from \$5 to \$500 according to the capital stock of the companies. Senator King has agreed to have the bill amended so that it will not apply to banks which are taxed annually upon their capital stock or to other corporations that pay a license fee. The measure is considered one of considerable importance.

The Sunday baseball bill by Ransom of Douglas, senate bill No. 14, came up for passage. It had been amended to allow county commissioners in any county to issue permits for the playing of baseball, golf and for theaters and other moral amusements. The bill lacked two votes of having enough to pass it. Henry of Colfax and Donahoe of Holt being absent, both alleged friends of the bill. It received fifteen votes and sixteen were cast against it.

Senate Bills Passed. The senate passed the following bills Wednesday:

- By Brown of Lancaster—Requiring fire escapes on hotels and lodging houses over two stories in height.
- By Laverty of Saunders—To prevent the wearing of the uniform of the United States army or navy by unauthorized persons.
- By Miller of Lancaster—Deeding to the city of Lincoln backyard square.
- By Ransom of Douglas—To permit police judges to act in juvenile court cases in certain cases.
- By Ransom of Douglas—Providing a salary of \$1,200 for bailiffs of the district court of Douglas county.
- By Raymond of Scotts Bluff—For an experiment station in the irrigated region.
- By Raymond of Scotts Bluff—Providing that cities and towns may vote water bonds by a majority vote.
- By Randall of Madison—To permit a party to a suit to designate the newspaper that shall publish legal notice.
- By Randall of Madison—Making it unlawful for person to drink intoxicating liquors upon trains.
- By Thompson of Cumming—Making close season for muskrats from April 1 to January 1.
- By Raymond of Scotts Bluff—For the acquiring of sites for irrigation reservoirs by condemnation.
- By Raymond of Scotts Bluff—For the refunding of irrigation district bonds.
- By Thomas of Douglas—For maintenance and disbursement or relief and pension fund for firemen.

Bills Indefinitely Postponed. In a committee of the whole during the afternoon Wednesday the senate indefinitely postponed the following bills:

- By Taylor, taxing mortgages.
- By Randall, increasing the salary of the secretary of the state board of assessment from \$1,600 to \$2,000 a year.
- By Ketchum, amending the primary law.
- By Bahrman, to legalize the sale of lots by the county of Howard in the town of St. Paul.
- By Ollis of Valley, was ordered to third reading. It amends the primary law by providing for a rotated ballot and the counting of names of candidates written on the ballot and changes the date of the primary to the second Tuesday in August.
- By Fuller of Seward, to provide for the removal of public officers who appoint relatives to positions, was ordered to a third reading. This same action was taken in respect to senate bill No. 205, by Tibbets, for a lien upon horses and mules for shoeing.
- By King, to permit district judges to suspend sentence in felony cases during good behavior of the prisoner for his first offense.

House Bills Passed. The following bills were read a third time and passed by the house Wednesday:

- By the committee on public schools providing a method of distributing the state aid to weak school districts, and fixing the biennial amount at \$75,000.
- By Shoemaker of Douglas, A joint resolution to amend the franchise qualifications of those wishing to become citizens of the United States.
- By Bowman of Nuckolls, to prohibit under penalty the intimidation of voters by their employers so as to influence their vote.
- By Griffin of Burt, to extend the misdemeanor provisions of the present law relating to the disposition of refuse in drainage districts, so that now it includes road ditches emptying into such drainage ditches.
- By Baker of York, changing the time of holding the annual town meeting from April to March.
- By Fries of Howard, allowing counties to levy an emergency tax of one mill for the building of bridges.
- By Tanner of Douglas, providing

that the governor may send the papers of the state in which constitutional amendments shall be printed prior to an election.

By Ransom of Douglas, revealing the law which makes the Douglas county treasurer the city treasurer ex-officio.

By Howell of Douglas, providing for a general act to congress to issue \$500,000,000 in 2 per cent bonds for river and harbor improvements.

King of Polk Thursday made an extended speech in favor of his bill to reduce the list of fish and game wardens to one who shall have charge of the state hatcheries and the enforcement of the game laws. He said the state spends \$28,000 every two years for the fish and game department and only a few thousand dollars annually each for the health-state library commission and the board of charities and correction. He considered that this expenditure for the fish and game department was out of proportion to the other departments and that the game is the only one department of state that is made up entirely of men who enforce the laws and do nothing else. He thought the local officers ought to see to the enforcement of laws and permit the department to cut down expenses.

The committee of the whole did not object seriously to any portion of S. E. No. 91, introduced by the committee on highways and bridges, an act requiring one-half of the cost of road making to be paid by the state, 35 per cent by county and 15 per cent by the owners of land. It was ordered to a third reading and so was S. E. No. 99, by Laverty of Saunders, giving the state board of irrigation general supervision over highways.

Ollis of Valley, chairman of the committee on railroads, reported S. E. No. 201, by Thompson of Cumming back to the senate with the recommendation that it be indefinitely postponed. The bill makes a reduction of 20 per cent in the rate of unswitched wood in this state. The introducer of the bill made no objection to the report, and it was adopted.

The same committee recommended that S. E. No. 212 be indefinitely postponed. The report was adopted. This bill was introduced by Brown of Lancaster. It would establish a new rule of evidence by permitting parol testimony to establish the terms of a contract for transportation, regardless of the printing on a ticket or bill of lading which had been signed.

Bills which were placed on general file upon recommendation of this committee were S. E. No. 240, requiring railroads to furnish watering facilities at yards where stock are loaded for shipment and S. E. No. 266, requiring the erection of sheds for the protection of stock at such shipping yards.

When the Ollis resolution providing for the appointment of a committee to investigate a certain article which appeared in the State Journal, Diers offered an amendment. His amendment provided that a committee consisting of Tibbets, Myers and Miller be appointed with power to summon witnesses and require the production of papers and documents. The amendment carried. Myers thought that if one paper was to be investigated, all should be treated the same and an investigation should be had as to what has been said in regard to different senators. No amendment to this effect was offered, however, and the resolution as amended by Diers was adopted.

The committee on constitutional amendments recommended for the general file S. E. No. 268. This is the Ollis and Miller measure which has for its purpose the submission of a constitutional amendment which will leave the counties free to levy taxes for their own use. The tax to derive its revenue from the taxation of corporations and other sources. Upon recommendation of the same committee Donahoe's initiative and referendum amendment was also placed on the general file. Another bill which was placed on the general file was S. E. No. 10, by King, providing for an annual license fee for corporations.

The senate passed the following bills Thursday:

- By Humphrey of Lancaster—Enacting the Oregon plan of nominating United States senators.
- By Carr of Keya Paha—Commission merchants to take out licenses from the pure food commission.
- By Dolezal of Saunders—Prohibiting the sale of dynamite firecrackers and pistols for shooting blank cartridges after 1919.
- By Laverty of Saunders—The board of irrigation to be the state highway commission.
- By King of Polk—For the parole of first offenders convicted of felonies, or those convicted of them if convicted their degree of moral turpitude warrants such action.
- By Tibbets of Adams—Giving blacksmiths a lien on horses for shoeing them.
- By Fuller of Seward—Compelling telegraph, telephone and express companies to make a full exhibit of their books to the county assessors.

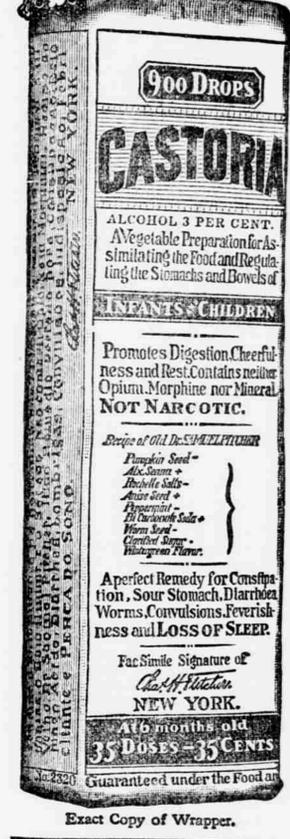

The senate, on recommendation of the committee on judiciary, indefinitely postponed S. E. 292, by Klein of Sage, prescribing a system of fees for clerks of the district court and placed on general file from the judiciary committee S. E. 196, by Ransom of Douglas, the district clerk's bill providing a new system of fees for clerks in Sage, Lancaster and Douglas counties. The bill as originally drawn applied only to Douglas county, but was amended to include the two smaller counties.

S. E. 142, by Ollis, regulating the practice of nursing and S. E. 237, by Tibbets, for the same purpose were indefinitely postponed on recommendation of the committee on medical affairs, and a house bill for the same purpose was put on general file and will doubtless be passed.

The last bill was introduced in the house Thursday night unless the governor makes a special request for the introduction of others. The total number introduced was 577, of which 94 were introduced Thursday. Two years ago the bills in the house numbered 558. The senate has three days more in which to introduce bills. The last bill introduced was by Shoemaker of Douglas, providing for Sunday baseball in Omaha between the hours of 3 and 5 o'clock, after the proposition has been submitted to a vote of the people. Several of the bills affect Omaha corporations and Omaha directly.

Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: **First**—The indisputable evidence that it is harmless; **Second**—That it not only allays stomach pains and quiets the nerves, but assimilates the food; **Third**—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory." Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place." Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent." Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's." Dr. Wm. J. McCann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home." Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy." Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."
