These women are only a few of thousands of living witnesses of the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. Not one of these women ever received compensation in any form for the use of their names in this advertisement—but are willing that we should refer to them because of the good they may do to other suffering women to prove that Lydia E. Pinkham's Vegetable Compound is a reliable and honest medicine, and that the statements made in our advertisements regarding its merit are the truth and nothing but the truth.

## A South Dakota Money Maker

**IMPROVEMENTS:** A seven-room house with good elstern. Barn 68x82, holds 150 tons hay, 20 head of horses and 100 head of cattle. Granary, 5,000 bu. capacity. Tool house. Two good wells. One windmill, pump and tank. Past half fenced in two parts, west half all under one fence. Fine grove of young trees on three sides of the house. It can't be beaten in the United States for a money-maker. Price is right.

The following crops per acre were raised on the above place last season: Durum wheat averaged 25 bu., which at 90c brought \$22.50 per acre. Barley averaged 27 bu., at 55c or \$14.85 per acre. Blue Stem wheat averaged 18 bu., at \$1.06, or \$19.08 per acre. Flax averaged 16 1/2 bu., at \$1.55, or \$25.54 per acre. Oats averaged 35 bu., at 46c, or \$16.10 per acre. Only 240 acres under cultivation, balance virgin sod.

What the other fellow can do you can do.

If this is too large, come up and let me fit you with a smaller farm.

**320 ACRES**  
of Wheat Land  
in Western Canada  
WILL MAKE YOU RICH

50 bushels per acre have been grown. General average greater than in any other part of the Continent. Under New Regulations it is possible to secure a Homestead of 160 acres free, and additional 50 acres at \$3.00 per acre.

The development of the country has made marvelous strides. It is a revelation, a record of conquest by settlement that is remarkable. Extract from correspondence of a National Editor, who visited Canada in August last.

The grain crop of 1908 will see many farmers \$20.00 to \$25.00 per acre. Grain-raising, Mixed Farming and Dairying are the principal industries. Climate is excellent; Social Conditions the best; Railway Advantages unequalled; Schools, Churches and markets close at hand.

Lands may also be purchased from Railway and Land Companies.

## COMMERCIAL AND FINANCIAL

CHICAGO.

An unusually low number of trading defaults reflects gratifying settlements this month, which generally is a time of heavy payments. Further testimony to the improving state of commerce is seen in increasing movements of factory outputs, general merchandise and grain. Money is also in wider demand for the leading industries and currency outgo exceeds the receipts, but discount rates for desirable paper remain favorable to borrowers and encourage a revival of enterprise. Production is yet upon a conservative basis.

The iron and steel branches obtain a fair aggregate of new demands, although the readjustment of prices causes revision of estimates and delays commitments for equipment, bridge and track needs. Some contracts are closed for lake freighters of heavy tonnage and this improved the shipbuilding outlook. Specifications become more plentiful for plates and structural shapes, and there is a moderate gain in forces at the rolling mills and forges.

Car construction steadily expands. Railroad plans assure much work, involving heavy outlays in the near future, and there is further accumulation of contemplated factory extensions and mercantile and hotel buildings.

Failures reported in the Chicago district number 18, against 27 last week, 30 in 1908 and 25 in 1907. Those with liabilities over \$5,000 number 6, against 10 last week, 11 in 1908 and 8 in 1907.—Dun's Weekly Review of Trade.

NEW YORK.

Trade and industrial developments have been slightly more favorable, the result being a better tone in various lines of trade and some enlargement of activity in spring demand from jobbers and from retailers. Helpful in this respect has been the arrival of better weather conditions, the advance of the season's trade toward an early Easter, large shipments of grain to market, attracted by high prices, the placing of some business in iron and steel induced by lower prices and the resumption of building operations at many cities after the winter shutdown.

Where jobbing demand has improved however, conservatism in buying has ruled, trade at first hands has remained pretty quiet and the enlargement of retail buying has not been very marked. Still, even collections show a slight gain.

Business failures in the United States for the week ending March 11 were 254, against 219 last week, 278 in the like week of 1908, 186 in 1907, 187 in 1906 and 186 in 1905.

Canadian failures for the week number 40, which compares with 33 last week and 31 in this week last year.—Bradstreet's.

TRADE AND INDUSTRY.

Chicago detectives took into custody the 16-year-old Michigan City, Ind., youths who confessed to having left their homes to "break the Chicago board of trade." They said they had a "system" to beat the market and produced between them \$900 with which they had expected to begin operations.

Preventing Paint Troubles.

It's easy enough to recognize the symptoms of poor paint, after it has been on a while—after its inherent tendency to crack and peel and scale and blister, etc., has developed into trouble. You know these paint "diseases" usually indicate adulteration or substitution in the paint materials. And you know the only remedy is repainting.

A little knowledge of paint and painting requirements, and how to make sure of the purity and quality of materials, would prevent all trouble, and save the big extra expense of repainting; just as a proper knowledge of simple health-laws, and observance of them, prevents sickness.

A complete painting guide, including a book of color schemes, specifications for all kinds of painting work, and an instrument for detecting adulteration in paint materials, with directions for using it, can be had free by writing National Lead Co., 1902 Trinity Bldg., New York, and asking for Houseowner's Painting Outfit No. 49.

A very simple guide in the purchase of white lead (the only sure and safe paint material) is the famous "Dutch Boy Painter" trademark; that trademark is an absolute guarantee of purity and quality.

Her Friends.

Fan—She used to be beautiful—before she found it out.

COVERED WITH HIVES.

Child a Mass of Dreadful Sores, Itching, Irritating Humors for Two Months—Little Sufferer in Terrible Plight—Cured by Cuticura.

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it. By scratching she caused large sores which were irritating. Her body was a complete sore, but it was worse on her arms and back. We employed a physician who left medicine, but it did not help her and I tried several remedies, but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. Mrs. G. L. Fridhoff, Warren, Mich., June 30 and July 13, '08."

Is It the Truth?

Bachelors, observes a writer, are fond of talking about the extravagance of women and giving that as the excuse for their not marrying while they know in their hearts that there are lots of women whom they might marry who are not extravagant, as regards clothes at least. But these women they look upon as dowdies, and don't want them for life partners, which goes to show that it is the extravagance of the bachelor that reacts and makes extravagant women.

## One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product, has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

### TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed, because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always when, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States, in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
