to be serviceable must be absolutely new.

A sure test of newness in rubber is its resiliency. If there's no bounce in it, it's either very old or it's not pure rubber.

We will explain this when you want to make any purchase in Rubber Goods.

The funniest of all farce comedy absurdities, Ole Olson in Spiritland will appear at the opera house May 5. The play is the latest and most up-to-date version of the Swedish dialect comedy and presents "Ole" amid new surroundings. Mr. Carl M. Dalton, who assumes the central character of "Ole Olson," is said to be the possessor of the most perfect Swedish comedy dialect yet presented to the public, and his wit and humor permeates the piece during the three acts, keeping the audience in a perfect roar of laughter and applause throughout the show. The supporting company is all that could be desired, and a large number of clever musical and advanced vaudeville specialties are given throughout the play. The regular house prices will prevail and reserved seats are now on sale at Chapman's.

## Cherry Co. School Notes.

Will anyone knowing the name and address of any child of school age deficient in sight or hearing kindly notify this office.

The next eighth grade examination for those desiring free high school certificates will be held in this office May 14 and 15. Any teacher who wants the questions for examination in her school on that date may obtain them by writing to the county superintendent about May 1st.

Teachers will be credited with reading circle work when they have attended five of the associations and prepared their papers or have sent in written answers to the questions found at the end of the chapters in Sherman's Elements of Composition and Literature and have read Metcalf's "Of Such is the Kingdom." Reports should be in by June 1.

The Valentine junior normal will begin June 7 and continue eight weeks. A conference of junior normal principals and county superintendents will be held in Lincoln April 23 and 24. When your superintendent returns she will be able to announce the further plans for the normal. Eighth grade graduates are especially invited to attend the summer school.

Two changes in school laws made by the last legislature will be of interest to the people of Cherry county: 1st. School districts unable to maintain nine months of school need not pay the tuition of resident pupils attending a high school in any other district. 2nd. On January 2, 1910 any territory which is not then a part of any school district shall by the county superintendent of the county in which such territory lies, either be organized into separate districts or attached to one or more adjoining districts.

A county superintendent is required to attach to one or more adjoining districts the territory of any school district that fails to maintain a public school for two consecutive years.
