

MUNYON'S Eminent Doctors at Your Service Free

Not a Penny to Pay for the Fullest
Medical Examination.

If you are in doubt as to the cause of your disease, mail us a postal requesting a medical examination blank which you will fill out and return to us. Our doctors will carefully diagnose your case, and if you can be cured you will be told so; if you cannot be cured you will be told so. You are not obligated to us in any way, for this advice is absolutely free. You are at liberty to take our advice or not, as you see fit. Send to-day for a medical examination blank, fill out and return to us, and our eminent doctors will diagnose your case thoroughly, absolutely free.

Munyon's, 53d and Jefferson streets, Philadelphia, Pa.

Paper and Canvas.

In a book entitled "Stories of the English Artists," R. Davies and C. Hunt tell an interesting anecdote of Turner, the great landscape painter. He disliked to part with his pictures, and when he sold one, invariably wore a look of dejection and oppression. If a friend asked him what was the matter, he would sorrowfully explain, "I've lost one of my children this week."

Once a rich Birmingham manufacturer, Gilott by name, introduced himself to the painter, and stated that he had come to buy.

"Don't want to sell," or some such laconic rebuff, was the answer.

The manufacturer then drew from his pocket a bundle of bank-notes, about five thousand pounds' worth.

"Here paper," observed Turner, with grim humor, a little softened, however, and evidently enjoying the joke.

"To be bartered for mere canvas," replied Gilott, waving his hand at the "Building of Carthage" and its companions.

This tone of cool depreciation seemed to have a happy effect, and finally Gilott departed with some five thousand pounds' worth of Turner's pictures.

Paved streets of New York City are long enough to reach from the Atlantic ocean to Pike's Peak.

Libby's Food Products

Libby's Cooked Corned Beef

There's a marked distinction between Libby's Cooked Corned Beef and even the best that's sold in bulk.

Evenly and mildly cured and scientifically cooked in Libby's Great White Kitchen, all the natural flavor of the fresh, prime beef is retained. It is pure wholesome, delicious and ready to serve at meal time. Saves work and worry in summer.

Other Libby "Healthful" Meal-Time-Hints, all ready to serve, are:

- Peerless Dried Beef
- Vienna Sausage
- Veal Loaf
- Evaporated Milk
- Baked Beans
- Ohow Ohow
- Mixed Pickles

"Purity goes hand in hand with Products of the Libby brand".

Write for free Booklet,—"How to make Good Things to Eat".

Insist on Libby's at your grocers.

Roof on Plank Frame.

The sort of frame here pictured is called the plank system and is a hip roof braced from the sill and plates without post. The sketch explains itself, but to make certain that no mistake will occur a key to the numbers is given. No. 1 is the main side post buolt of two pieces of 2 in. x 8 in.; No. 2, purline post built of two pieces 2 in. x 8 in.; No. 3, purline roof support, one piece 2 in. x 8 in.—10 in.; No. 4, main tie, one piece, 2 in. x 8 in.; No. 5, sub-support, one piece, 2 in. x 6 in.; No. 6, stay, two pieces, 2 ft. x 4 in.; No. 7, tie, 2 in. x 8 in., or 2 in. x 6 in.; No. 8, strut, 2 in. x 6 in.; No. 9, sill or main cross tie, two pieces, 2 in. x 8 in.; No. 10, line showing pitch of roof; No. 11, main

PLANK SYSTEM FRAME.

plate, two pieces—top piece, one piece 2 in. x 10 in., and side piece, 2 in. x 8 in.; No. 12, purline plate, two pieces, 2 in. x 8 in.; No. 13, collar tie, 2 in. x 10 in., or 12 in.

Dry Potatoes for Food.

Consul Frank S. Hannah sends a report to the Department of Commerce and Labor relative to some recent experiments in the drying of potatoes under the auspices of the German Imperial Interior Department, which may offer a new field for farmers. The potatoes are reduced by this process to about one-quarter of their original weight, and can be kept in a good condition in this compressed form for an indefinite length of time. The military authorities have made thorough experiments with this product and have become convinced that its nutritious value is fully equal to that of corn, and that the dried potatoes can take the place of one-third of the former ration of oats. The fact that the potatoes are reduced to one-fourth of their original weight brings about a corresponding reduction in the price of freight, so that it will pay to grow more potatoes than has formerly been the case.—Michigan Farmer.

The Plain Farmer.

Speaking of farmers' institutes, one man says: "I would like to know what is in the mind of the working farmer in felt boots, who sits in the back seat." He adds: "A few people who are good talkers praise the work, but what about the silent ones who listen and say nothing?"

The Rural New Yorker, commenting on these statements, says: "The institute speakers can not do any wiser thing than to learn how to encourage and keep just this class of farmers. The retired farmers and successful men who make up a good share of the audience are well able to take care of themselves. It is pleasant to entertain them, and their praise gives a man a thrill of satisfaction. It is a truer service to the State, however, to gain the confidence of the plain farmer and help him."

The Work Horse in Summer.

Working horses from grass has never been our way, although a great many do it and keep their teams in very good fix. When there is only light work for a few days, our horses have the run of good pasture when not in the harness, but most of the time they are in the barn, where they get grain and bright hay three times a day. It seems to us they are better able to stand hot weather when on a hay ration, with grain, than when they get grain and green grass for their roughness. It probably does no more harm to a horse to sweat than it does a person. It is usually certain that when a horse is sweating freely he is taking no hurt, but a "grass sweat" can be avoided by feeding hay instead.—Twentieth Century Farmer.

Spiced Currants.

Spiced currants make an excellent relish to serve with meats. Allow to each pound of the fruit a pound of sugar. Make the syrup in the proportion of one pint of vinegar to each four pounds of sugar, two teaspoonsful each of mace, cinnamon and allspice, a teaspoonful each of cloves and salt. When boiling add the currants, cook twenty minutes and put up in glasses the same as jelly.

The Flavor of Butter.

It has been a generally accepted theory among teachers and writers on dairy subjects that the production of good butter necessitates the development of a certain amount of acid in the cream, for two reasons—to develop a desirable flavor and to improve the keeping quality. Recent investigations by the United States Department of Agriculture indicate, how-

ever, that butter made from pasteurized sweet cream has better keeping qualities and remains free from objectionable flavors for a longer time than butter made from sour cream.

Farmers Must Watch the Crop.

In order to determine what elements of plant food are deficient in a soil, it is necessary to carefully study the growing crop. Many farmers seem to be of the opinion that a chemical analysis of the soil will show the amount of plant food contained therein. This, however, is a mistaken idea. The chemist can only determine approximately the amount of nitrogen, phosphoric acid and potash in a soil, without specifically showing what proportion of these elements can be taken up by the growing plant. A large percentage of these elements is not available to plant food. Hence the necessity for them in an available form. We must turn, then, to the crop, and by watching it closely during its growth and by a careful examination when matured, see whether the soil is deficient in plant food and what elements are lacking.

Care of Setting Hens.

When siting the hens in order to keep the lice from bothering them, a good plan is to fill the nest boxes with wood shavings, preferably those that have some odor about them. Cedar shavings are excellent and so are cedar twigs, and the hens will appreciate the nest of such materials. Lice are a great drawback to a hen when she is on the nest, and many times they compel the sitter to leave her nest when she does not desire, and if there is anything the poultryman can do to keep the sitting hen comfortable he will be amply repaid for it in the end. The shavings are inexpensive and are easily destroyed. They do not pack hard in the boxes and are quite comfortable for the hen. Try some of them when siting a hen and see how useful they really are.—Rural World.

Live Stock and Prosperity.

Live stock is the chief element of agricultural prosperity. It is the foundation upon which both the present and future profits are established. We boast of our great wheat and corn crops, and we have a reason for so doing, but if we depend upon them alone we rob ourselves and our children by selling off the fertility of the soil with each year's crop. For many years the soil will continue to yield their crops, but they will get poorer and finally fall unless they are fed. How much better to make your farm richer instead of poorer; to get the benefits of the increased crops during your own lifetime and then leave a rich and valuable farm to your children after you have done with it. Live stock will do it as nothing else can.—Kansas Farmer.

A Celery Spray.

Celery blight can be controlled by spraying with ammonical carbonate of copper. To make this, dissolve 3 ounces copper carbonate in a pint of ammonia, and add 25 gallons of water. To make copper carbonate, dissolve 5 pounds copper sulphate (blue vitrol) in 5 gallons of water, also 6 pounds carbonate of soda in 5 gallons of water. Mix the two solutions slowly, stirring well. Let the mixture stand until next day to settle, after which pour off the liquid. Pour on 10 gallons of water, let stand until next day, and repeat the operation, after which strain and dry the blue powder, which is the copper carbonate.

Calculating Interest.

One of the shortest and simplest methods known for calculating interest is to multiply the principal by the number of days and divide as follows:
For 4 per cent, divide by 92.
For 5 per cent, divide by 72.
For 6 per cent, divide by 60.
For 7 per cent, divide by 52.
For 8 per cent, divide by 45.
Then point off four decimal places.
For instance, to find interest on \$360 for 92 days at 8 per cent, multiply \$360 by 92, divide by 45 and point off four decimal places. The result is \$7.36.

To Get Rid of Vermin.

My hogs got lousy last year before I knew it. I could not afford to build a new dipping tank, so I put into three quarts of hot soapuds one-half pint of kerosene oil, boiled and stirred vigorously for ten minutes. When the emulsion had cooled sufficiently I poured it through a sprinkling can along the backs and over the heads of the pigs. The ticks and lice quickly disappeared, but I repeated the dose twice more during the summer.—J. G. Barnes, Indiana.

Bogus Butter.

A recipe for making "fancy creamery butter"—of a kind—came out in the course of the prosecution of an oleomargarine case in the United States District Court in Chicago. It reads: "Take thirty pounds of white oleomargarine, sixty pounds of poor quality butter and thirty pounds of water; mix well and add coloring matter to suit." Four truckloads of the stuff made after this formula were seized by government officers.

There Is Profit in Sage.

Twenty-five cents' worth of sage seed will furnish about 1,000 plants. Enough sage can be picked the first year to pay for all the labor of sowing and picking the sage. Early in the spring the plants should be removed, set in rows 3 feet apart one way and half that distance the other. If the plants are planted in good soil and properly cultivated, they can be picked three times each year for several years.

Much Ado.
The poet and the artist were quarreling bitterly at the other end of the room.
"What's the matter with them?" asked a caller.
"They are comparing notes as to which makes the most money," was the explanation. "It's strange how people can quarrel about next to nothing, isn't it?"

The average attendance at the New York public schools is now 635,000, which is about 25,000 more than one year ago.

WHY PEOPLE SUFFER.

Too often the kidneys are the cause and the sufferer is not aware of it. Sick kidneys bring backache and side pains, lameness and stiffness, dizziness, headaches, tired-feeling, urinary troubles. Doan's Kidney Pills cure the cause. Nathan R. Hill, Stryker, Ohio, says: "Kidney troubles pulled me down until I was skin and bone. I could not work and finally took to bed. Doctors said I had gravel and advised an operation. The secretions were painful and sometimes almost stopped. Doan's Kidney Pills brought relief and finally a cure."
Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

France and Italy run national pawn shops.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, etc. a bottle.

You can never tell what a woman thinks by what she says.

SUCCESS FOR SEVENTY YEARS.
This is the record of Pinkett (Ferry) Pills. A reliable remedy for diarrhoea, dysentery and all bowel complaints. Get the genuine. 25c, 50c, and \$1.00.

England builds a battleship in two years, but France requires five.

It is a mother's duty to keep constantly on hand some reliable remedy for use in case of sudden accident or mishap to the children. Hamlin's Wizard Oil can be depended upon for just such emergencies.

The average marriage rate in Great Britain is sixteen in 1,000.

PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box 2, Notre Dame, Ind.

Beira, a little town in Agricola, is built almost entirely of galvanized sheet metal.

LOW FARES EAST Via New York Central Lines LAKE SHORE MICHIGAN CENTRAL BIG FOUR ROUTE

Extraordinarily low fares are being made this year by above routes to New York, Boston, Niagara Falls, resorts on the Sea Coast, at the Thousand Islands and in the Adirondack Mountains. Tickets are on sale every day during July, August and September, good returning within 30 days; give liberal stop-over privileges at Niagara Falls and other points and are good on boats on Great Lakes and Hudson River, in either direction, without extra charge. DIAMONDS & WATCHES ON CREDIT

YOU CAN EASILY OWN A DIAMOND OR WATCH, or present one as a gift to some loved one. Send for our beautiful descriptive catalog. Whatever you select therefrom we send on approval. If you like it, pay cash on delivery, balance in 8 equal monthly payments. Your credit is good. Our prices are the lowest. As a good investment nothing is safer than a Diamond. It increases in value. THE OLD RELIABLE ORIGINAL DIAMOND AND WATCH CREDIT HOUSE. Write today for descriptive catalog and WATCH CREDIT HOUSE also containing 100 illustrations. It is free. Be it soon. BROOKS & CO., Dept. C-16, 92 to 98 State St., Chicago, Ill.—Branches: Pittsburg, Pa. and St. Louis, Mo.

TOLD TO USE CUTICURA

After Specialist Failed to Cure Her Intense Itching Eczema—Had Been Tortured and Disfigured but Soon Cured of Dreadful Humors.

"I contracted eczema and suffered intensely for about ten months. At times I thought I would scratch myself to pieces. My face and arms were covered with large red patches, so that I was ashamed to go out. I was advised to go to a doctor who was a specialist in skin diseases, but I received very little relief. I tried every known remedy, with the same results. I thought I would never get better until a friend of mine told me to try the Cuticura Remedies. So I tried them, and after four or five applications of Cuticura Ointment I was relieved of my unbearable itching. I used two sets of the Cuticura Remedies, and I am completely cured. Miss Barbara Kral, Highlandtown, Md., Jan. 9, 1908." Potter Drug & Chem. Corp., Sole Props. of Cuticura Remedies, Boston.

The British Museum contains books written on oyster shells, bricks, tiles, bones, ivory, lead, iron, sheepskin and palm leaves.

DAISY FLY KILLER

Busted

Many a man goes broke—in Health—then wealth. Blames his mind—says it don't work right; but all the time it's his bowels. They don't work—liver dead and the whole system clogged with poison. Nothing kills good, clean-cut brain action like constipation. CASCARETS will relieve and cure. Try it now.

CASCARETS 10c a box for a week's treatment. AIDRUGISTS. Biggest seller in the world. Million boxes a month.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."
Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."
Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."
Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."
Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."
Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."
Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
