

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me, I grew stronger, and within three months I was a perfectly well woman. I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs. Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letters strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

WORTH KNOWING.

Simple Remedy That Anyone Can Prepare at Home.

Most people are more or less subject to coughs and colds. A simple remedy that will break up a cold quickly and cure any cough that is curable is made by mixing two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight ounces of pure Whisky. You can get these in any good drug store and easily mix them in a large bottle. The mixture is highly recommended by the Leach Chemical Co. of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing.

Several of the ten commandments have been repealed, and the others amended.

Rabies Laid to Strange Cause.

In Baluchistan even the wolves go mad. In his book, "The Frontiers of Baluchistan," G. P. Tate writes: "The shepherds give a strange reason for the epidemic of rabies. According to them it was caused by the wild beasts eating dead larks. In some years, they said, the larks develop extraordinary vitality and pour forth such a flood of songs as they rise on the wing that they become suffocated and fall to the ground dead. A wild animal which eats one of those dead birds infallibly develops rabies. This is a widespread superstition and seems not unfamiliar to the natives of India who were with me."

WISHED DEATH MIGHT COME

To Relieve the Awful Suffering of Advanced Kidney Disease.

William Gibson, Greenup, Ky., says: "Three months I was in bed, and would have died, I believe, but for Doan's Kidney Pills. My doctor said the case was hopeless. My back felt as if it were being seared with a red-hot iron. The kidney secretions were painful, irregular and full of sediment. There were puffy spots beneath my eyes and my head pained terribly. I was miserable in every way and often wished death might relieve me. When I began taking Doan's Kidney Pills my condition was so serious that they had little effect, but I persisted, getting gradually better, and it was not a great while before I was cured. The effect has been lasting."

WORTH QUOTING

One beauty of having crowds in New York City, chirps the World, is that we are not left exactly lonesome when they are gone.

A nervous woman can be relied upon, thinks the Philadelphia Record, to solve the problem of perpetual emotion.

Fortune never wastes her time with men, insists the Washington Herald, who have neither the ability nor courage to seize the opportunities she offers.

Perhaps most arduous inventors are merely trying to devise a plan, suggests the Chicago News, to enable them to visit their castles in the air.

Says the Pittsburg Gazette-Times: Henry Hudson didn't make a cent out of his discovery of the river. If he were alive today he would never be admitted to the Explorers' Union.

"Dingoism," the new word introduced into Australian politics by way of antithesis to "jingoism," is derived from the name of the wild dog of the Antipodes—dingo.

When a man is proud of his stubbornness, confesses the Dallas News, it is a sign that he hasn't anything else to brag about.

Somebody has hit upon the idea of distributing a "family dollar" as a medal to commemorate the founding of a family. Quite appropriate, declares the Washington Herald. Can think of several families that never would have been founded if somebody hadn't gone hustling after dollars.

Almost every form of literature is represented in the Bible, claims the New York Press, from the war song, the lament and the lyric to the rhapsody and the philosophical drama. Parables, enigmas, proverbs, stories, biographies, epistles, orations and prayers are all found in this library of the literary activity of the Israelitish race.

A St. Louis man has had one thousand blue buttons made and will give them to men who agree to wear them, as a sign they are willing to give their seats in street cars to women, observes the Syracuse Post Standard. As St. Louis has about one hundred thousand males of streetcar age, the button distributor evidently places its gallantry at about 1 per cent.

At the University of Missouri is the first working school of journalism in the world, announces Lippincott's. As practical laboratory work, a daily paper with telegraph reports is issued. Walter Williams, its dean, tells of the vicissitudes he encounters in turning laymen into journalists. A student was sent in haste to cover a railroad wreck at a town a few miles away. It was almost time for the daily to go to press, and still no word had been received from the young man on the assignment. In desperation Dean Williams telegraphed, asking why the story was not forthcoming. The reply was: "Too much excitement. Wait till things quiet down."

France's cobbler poet and German's tailor dramatist, to whom preference has been made, must hide their diminished heads before two accomplished members of our British proletariat, boasts the Westminster Gazette. Strettham possesses a chimney-sweep who is an erudite authority on Egyptology and author of a work on the population question. A certain Yorkshire town can boast of a learned bargee, who has long been a deep student of Greek mythology. When his boat is moored to the wharf awaiting a cargo he spends the leisure time in the local reference library reading up his subject and making copious notes. His constant companion as he deftly steers his gulland ship along the canals is a well-thumbed translation of Herodotus.

The much discussed low grade or criminal bar in New York City has led a Judge of the Court of General Sessions to appoint three of the most prominent civil lawyers to defend persons charged with murder. The assignments have been accepted, and one of the attorneys has this to say: "It is only with us, and principally in New York City, that the flower of the bar has been drawn away from the higher sphere of advocacy by the temptation of money, to become highly paid clerks to financiers, and, too often, to assist them in keeping prayerfully within the law." For this the press and public also bear their share of the responsibility, through the importance and position which they give to the mere defense of private interests. As soon as we realize that the defense of life, liberty and reputation is more important to the community than the mere championship of money interests there will be a change for the better." He says further that in other civilized countries the defense of life and liberty is considered one of the highest duties of the lawyer, but that in New York City the practice of criminal law has become a reflection upon the lawyer.

Recipe for Catarrh.

The only logical treatment for catarrh is through the blood. A prescription, which has recently proved wonderfully effective in hospital work is the following. It is easily mixed.

"One ounce compound syrup of Sarsaparilla; one ounce Tonic compound; half pint first-class whiskey." These to be mixed by shaking well in a bottle, and used in tablespoon doses before each meal and at bedtime." The ingredients can be gotten from any well stocked druggist, or he will get them from his wholesale house.

It is too much to expect a romantic girl to express a soulful yearning over a red-hot cook stove in summer.

THANKSGIVING DAY.

Canada's Day of Thanks a Month Earlier than in the United States.

For some reason, better known to the Canadians themselves than to the people on this side of the line, our Canadian cousins celebrated their Thanksgiving a month or more earlier than we do. It may be that the Canadian turkey had become impatient, and sounded a note of warning, or it may be that the "frost on the pumpkin" declared itself. But whatever the reason, their Thanksgiving day is past. It may have been that the reasons for giving thanks so much earlier than we do were pushing themselves so hard and so fast that the Canadians were ashamed to postpone the event. They have had reasons, and good ones, too, for giving thanks. Their great broad areas of prairie land have yielded in abundance and here, by the way, it is not uninteresting to the friends of the million of Americans who have made their home in Canada during the past few years to know that they have participated most generously in the "cutting of the melon." Probably the western portion of Canada, comprising the provinces of Manitoba, Saskatchewan and Alberta, have the greatest reason of any of the provinces to express in the most enthusiastic manner their gratitude. The results in the line of production give ample reason for devout thanksgiving to Providence. This year has surpassed all others in so far as the total increase in the country's wealth is concerned. There is no question that Providence was especially generous. The weather conditions were perfect, and during the ripening and harvesting period, there was nothing to interfere. And now it was well it was so, for with a demand for labor that could not be supplied, there was the greatest danger, but with suitable weather the garnering of the grain has been successfully accomplished. There have been low general averages but these are accounted for by the fact that farmers were indifferent, relying altogether upon what a good soil would do. There will be no more low averages, though, for this year has shown what good, careful farming will do. It will produce 130 million bushels of wheat from seven million acres, and it will produce a splendid lot of oats, yielding anywhere from 50 to 100 bushels per acre. This on land that has cost but from \$10 to \$15 per acre—many farmers have realized sufficient from this year's crop to pay the entire cost of their farms. The Toronto Globe says: "The whole population of the West rejoices in the bounty of Providence, and sends out a message of gratitude and appreciation of the favors which have been bestowed on the country. The cheerfulness which has abounded with industry during the past six months has not obliterated the conception of the source from which the blessings have flown, and the good feeling is combined with a spirit of thankfulness for the privilege of living in so fruitful a land. The misfortunes of the past are practically forgotten, because there is great cause to contemplate with satisfaction the comforts of the present. Thanksgiving should be a season of unusual enthusiasm."

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.
