REST ON THEIR ARMS

POLITICIANS DELIBERATE ON BRITISH SITUATION.

Battle Lines Are Debated-Schemes for a Compromise Surcharge the Air -Reform of House of Lords Assured-Many Cabinet Changes.

London: With Premier Asquith on the continent and Chancellor Lloyd-George closely following him the politicians are all resting on their arms, discussing what lines of battle will be taken up in the new parliament.

The reform of the house of lords seems to be the one thing assured. Both parties support it now. The conservatives and the lords themselves are unwilling to adopt moderate changes immediately, lest reform measures which would knock the foundations from the upper house be carried. The result is likely to be the abolition of the hereditary principle, and no longer shall the second and succeeding generations be given a vote except those who shall prove their fitness to legislate, by service in the house of commons, in civil office or in the army or the navy.

Some cabinet changes are probable when the new government is formed. Reginald McKenna, who has been unpopular as first lord of the admiralty, will likely be dropped. He may be given a peerage. Richard Burton Haldane, secretary of state and war, may become head of the navy. John Burns, president of the local government board, will probably succeed Herbert J. Gladstone as home secretary. Winston Spencer Churchill will take the place vacated by John Burns, and they will each receive \$25,000 instead of \$12,500 as salaries, both places having been recommended by the last parliament, with the provision that the occupants should draw the increase during their tenure of ofice.

GOTHAM'S NEW SUBWAY.

Big Bore Most Expensive Railway System in the World.

New York: The new subway is going to be the most costly railroad in the world.

The present system cost \$35,000,000 to build and lay down. For equipment and extension \$45,000,000 more has been spent, making \$80,000,000 in all. The new system will cost \$100. 000,000 to bore and lay down and when ready for operation, with all stations built and an adequate equipment of power houses and cars, will demand in all the stupendous sum of \$240,000,000. This huge outlay will be expended on a strip of tracks but little more than 26 miles long, so that the average cost per mile will approximate \$9,237,650 Three sets of plans are under consider ation by the public service commission and none of them, it is estimated. will be adequate for more than ten years, giving a normal increase in the population.

STATE TO INVESTIGATE.

Horse Meat Being Used by Chicago Free Lunch Venders.

Chicago: In an official report to the Illinois state food commission made public State Inspector Hoey de clares that horses are being slaughtered by the wholesale and the meat is being sold and distributed for hu man consumption. The meat, he says, is being cut into roasts, steaks and sausages, and is being sold to free lunch venders in Chicago and to some farming districts and mining camps where foreign miners are employed.

Heretofore, says the report, it was the general belief that all horse meat prepared in Chicago was for shipment to Copenhagen, Denmark, and the fact that it is being put out for home consumption is looked upon as necessitat ing a new state law regulating the kill ing of horses.

Refused to Join Boycott.

Pittsburg, Pa.: A dozen foreigners discussed the meat boycott at breakfast in a Mulberry alley boarding house Sunday, and all except "Mic' Skovias, a Slav, agreed to eat no meat Skovias, delighted with having the breakfast to himself, tackled it so violently that he choken to death with the first mouthful.

W. C. Israel, Publisher of News-Chronicle, Marries Nurse.

Saved from the grave by the tender hands of a woman, Will C. Israel, a newspaper man of Benkelman, lived to win her love, and make her his wife. The bride was Miss Selma

About a year ago while visiting in Kansas City Mr. Israel was taken seriously ill and entered a sanatorium. After many weeks of care the nurse won the affections of her patient and slowly brought him back to health. Israel, freed fro mthe affliction of disease, quickly succumbed to the little love god and pursued an ardent courtship. When he returned to his home he carried with him the promise of Miss Nixon that she would be his wife.

NO EXTRA SESSION.

Gov. Shallenberger Will Not Convene Nebraska Legislature.

Gov. Shallenberger has issued a statement that he will not call an extra session of the legislature for the enactment of a new bank deposit guaranty law, as he has been asked to do. The governor says the constitutionality of the Oklahoma law, which is similar to the enactment in Nebraska that has been declared unconstitutional, is now pending in the United States supreme court and awaiting a decision. He says an extra session would not be justified.

The indorsement of the income tax law amendment by Nebraska, Gov. Shallenberger says, is not of vital interest at this time.

is Giving Them License. It became known at Nelson Tuesday that George S. Wombacher and Miss Mary Hofstetter, a couple from Lawrence, Neb., were married several days without being aware of it. These young people, wishing to be married by the priest of the local church, learned upon inquiry that it was necessary to get a license from the county court. They accordingly went to that official at Nelson, and informed him of their desire to become one. He, understanding they wished him to tie the knot, issued the necessary license, had them stand up, join hands and married them. He then made out the usual marriage certificate, took the usual fee, congratulated the couple and sent them on their way man and eur epishuore people sem pue euo wife, although the unsuspecting cou- Lalaran B Ad paoridal used Alinasal ple thought all this was merely the necessary form required to get a license.
