The C. & N. W. depot at O'Neill burned to the ground Wednesday of last week during the high wind. Considerable of the contents were saved as the fire burned slowly at first. The origin of the fire is supposed to have been from a spark or cinder of a passing train blown under the depot and catching in some trash or rubbish.

Oswald Uehling was a witness in the case in which he had recovered cattle having his brand that were sold by T. J. Brown a couple of weeks ago and delivered at Arabia. His sons, John and Joe, and also Ed Belsky and Tom Byron were here as witnesses, they, too, having lost and recovered cattle in the same case.

This community was suddenly clothed in mourning when the word was passed around that Elder Scamhorn, who had been in poor health for some time, passed away at 1:50 this morning. The Elder was some better last week but began failing rapidly the fore part of this. Funeral services will be held from the M. E. church Sunday afternoon at 2 o'clock with Rev. Kuhler in charge. Former Pastor W. S. York will also be here to assist with the services.—Gordon Journal, April 8.

Numerous complaints have been made to the editor of the refusal of the Rosebud agent to permit the Indians to go off the reservation to trade. They complain of high prices at the agency and that they can buy much cheaper in Valentine, Crookston, Kilgore and Cody, but they are not permitted to go to these towns. The excuse, or reason given, mostly, is that there is "bad disease" in these places, and the Indians seem to have no recourse.

The management of the State Fair, recognizing the value of new attractions for the week, Sept. 5 to 9, are figuring on securing an aeroplane. There are several companies who are endeavoring to close contracts, but owing to the fact that the patentee of some parts of the aeroplane has secured an injunction against their use by some of the most successful aviators, which, if sustained by the courts will practically result in a monopoly for the Wrights, thereby placing the expense of such an exhibit so high as to prevent its general use this year.

Train for Omahans Hotel on Wheels

To take a modern hotel which will accommodate one hundred guests and pull it across Nebraska and South Dakota, would be something of an effort, but the Northwestern railway company has contracted to do about the same thing for the one hundred Omaha and South Omaha business men who are coming here in May.

The train will be a double-header all the way around, and will consist of 60-ft. dynamo baggage car, two new dining cars, a 14-section club car for the band accompanying the party, one 10-compartment sleeper, one 12-section drawing room and head-quarters sleeper, two 16-section sleepers and one 10-section observation car.

Speaking of a palace on wheels, the Northwestern and the Pullman companies have agreed to make this train one if possible. All cars being new and run through the shop especially for this trip in Nebraska and South Dakota.
