A. M. Lotspeich of Wood Lake was in town yesterday getting out sale bills for his big stock sale of 315 head of cattle and some horses on Wednesday, June 29. He has quit the ranch and is now running a store in Wood Lake. Notice his big sale advertisement in this paper.

There were 2000 to 3000 people in town last Saturday to see Gollmar Bros. show. All day long the streets were swarmed and the side walks none too large or wide for convenience in moving along. The people came from all over the land up and down the railroad, in wagons, buggies, horse back, and a foot. They were here to see the big Gollmar Bros. show. All the big shows stop at Valentine and this one was enroute west, stopping only at the best towns, coming here from O'Neill and making the next stop at Chadron. These people are gentlemen to deal with and they give a good show. No grafters nor bad men are allowed in the bunch and every body is as safe as at home ploughing corn.

J. H. Quigley tells us that he will have his opera house completed about the 1st of July, with seating capacity of 400 to 500 persons, and a handsome stage the same size front as the old Church opera house, which is now being transformed into a hotel, leaving Quigley's opera house to take its place with the same capacity and stage front, big enough in the past and will be for several years to come under normal conditions. The new stage will be fitted with an asbestos fire proof curtain, which has been delayed awaiting inspection in New York to comply with fire regulations. We congratulate Mr. Quigley upon the fine furnishings and opera chairs, which are the best Valentine has had for a public hall or opera house. Those who desire to use the hall for dancing should make arrangements with Frank Fischer, jr., who has the management of the hall for same.

## Start in with a DEERE No. 9 Corn Planter

THE great accuracy of drop is what naturally interests you most. Deere's genuine edge selection of corn gives the highest accuracy of drop attainable. Repeated tests show ten to fifteen bushels per acre in favor of accurate planting. This, combined with many other exclusive, desirable features, makes the No. 9 a profitable investment. You profit by the increased yield due to perfect stand, by the additional years of service and freedom from break down.

Most progressive farmers and planters won't have any other. Best informed dealers refuse to consider handling any other. Investigate the time saving and profitable reasons why. Main shaft driven directly by traction wheels takes all the strain from check wire, and avoids side draft. Compensating valves insure perfect check regardless of team speed.

Instantly changed from check to drill drop. Tip-over hoppers—very convenient in changing plates. Plates for all kinds of corn. Five sets always furnished. Standard runner, stub runner, or single disc furrow openers, as ordered. Concave or open tire

and keep posted. We have but briefly mentioned some of the strong features above. Or drop us a post card, and we will promptly send detailed proofs free. Deere goods are of the highest standard, and satisfy the most exacting. Ask for our latest corn book. The whole subject of gathering, selecting, curing and testing the seed, as well as planting, treated in a small space, fully illustrated; a book for the man who wants better corn.
