

YOURS

Yours for uniformity.
Yours for greatest leavening power.
Yours for never failing results.
Yours for purity.
Yours for economy.
Yours for everything that goes to make up a strictly high grade, dependable baking powder.
That is Calumet. Try it once and note the improvement in your baking. See how much more economical over the high priced trust brands, how much better than the cheap and big-can kinds.
Calumet is highest in quality—moderate in cost.
Received Highest Award—World's Pure Food Exposition.

MONEY MADE IN TWO WAYS.

"That palmist will tell you when you are going to die."
"And then run and tell the undertaker, I suppose, and get a commission on the business."

Does Engineering Work.
Mlle. Bandurin is superintendent of an engineering firm in Russia. She was graduated from the Women's Technological Institute in St. Petersburg, and has had practical experience in engineering. She built a steel warehouse for an army co-operative society, has been assistant engineer in building a bridge across the Neva and has done other important work.

Remarkable Young Lady.
From a feuilleton: "Her voice was low and soft; but once again, as Janet Fenn withdrew from the room and closed the door after her, the fiendish gleam came into her odorless eyes."
"If we hear any more of Janet we will let you know."—Punch.

A Fallen Idol.
"What makes you so sure the American public is fickle?"
"The reception a player who used to be on the home team gets when he comes visiting."

Brings Cheer to the breakfast table—Post Toasties with cream.
Crisp, golden-brown "crinkly" bits, made from white corn.
A most appetizing, convenient, pleasurable breakfast.
"The Memory Lingers"
Postum Cereal Co., Ltd.
Battle Creek, Mich.

NOTES FROM MEADOWBROOK FARM
By William Pitt

After all the market is more important than the soil. If an ideal soil (sandy loam) for gardening purposes is far remote from a good market, it is difficult to be financially successful. If, on the other hand, the soil is quite unfavorable, but near a good market and available supply of manure, it is comparatively easy to make a financial success of market gardening. It is important, however, to select soils which are naturally loose and friable if a mixed line of gardening is to be followed.

In preparing beds for flowers it should be remembered that most flowers which produce a yellow bloom should not have much organic matter in the soil. Red or purple flowers will do best on a soil with a reasonable amount of organic matter, and plants which are grown for their foliage should be attempted only on rich soils. We speak of that now because this is the ideal time to prepare next year's flower beds.

If you have only common cows, breed them to a male of standard dairy breed and the result will give grade animals. These half-blood grade animals bred in the same line will give animals more nearly pure bred, and this breeding and selection with judgment will result in a herd of high producing animals that will make money for the breeder or the man who buys them.

Trimming the orchard is imperative and trimming the hedge rows is just as important. An untrimmed orchard not only fails to produce fruit but is also unprofitable in the shabby appearance it gives the farm. The untrimmed hedge is even more objectionable as one gets his first impression from the outside.

Humus making crops are such grasses as timothy, clover, blue grass, brome grass and alfalfa. It has been found that grass land plowed and put into crops is under better conditions of moisture and freer from weeds than land that has grown grain continuously.

When the fowls begin molting they will practically cease laying. As the growing of new feathers is a heavy drain on the fowl extra feed should be given. A small amount of linseed meal can be given to an advantage. Feed wheat and oats rather than much corn.

Don't let the young orchard trees go into winter without protection. Anything that shades the bark will protect from sunscald but a covering that gives the tree immunity from both sunscald and gnawing from rodents is better.

A well drained soil with good elevation, slightly higher if possible than the surrounding area, fairly heavy in character, with a deep, strong, but not hard-pan subsoil furnishes the best conditions for successful apple growing.

While there is never any very large profit in selling either turnips or "greens," the crop is one that requires so little care and is so sure that it will pay anyone handy to a market to sow some for sale.

There are three kinds of bees in every thrifty hive—one queen, during the summer season several hundred drones, and the rest workers. These workers are all females, undeveloped queens.

This being the cement age, cement floors are good for the new poultry house, for they are dry and easily kept clean. They can be covered with dry earth in summer and cut straw in winter.

"Examine the horse's teeth frequently." It might be added that a most important time to do this is when you are being importuned to buy a horse that is "as sound as a roach."

We frequently see young colts following along the fields after their dams, walking many miles during the hot weather. Useless and poor business.

Generally when the comb of a fowl is bright colored, showing it to be full of blood, the fowl is in a healthy condition and the fowls are usually active.

Grass, clover, corn fodder and cow peas, when fed in green state, are relished by farm animals much more than after they are cured.

To groom the horse well after hard work, does not only clean the skin, but it prevents various parasitic diseases of the skin.

A farmer writes from Salina county, Nebraska: "Our apple orchard is on thin land and was badly neglected when we bought the place. After two years of heavy applications of stable manure we made that old orchard yield at the rate of 1,500 bushels of apples per acre in one year." The trees were so close together, however, and the yield so large that they were greatly weakened. We then took the bull by the horns and cut out every other tree and are going to have splendid results this year."

The udder of a cow has a good deal to do with her value as an economical producer. An ideal udder should not be too large, but should have sufficient capacity to allow the continued growth of the cells necessary in the manufacture of milk. The udder should be evenly balanced in front and behind and should be covered with soft, velvety hair and be free from blemishes and fleshiness. It should extend well forward and well up behind and the teats should be evenly placed.

Humus is a variable, infinite sort of matter, difficult to classify, chemically complex, sometimes highly nitrogenous and sometimes nearly nitrogen free, composed of mixed animal and vegetable matter—mostly the latter in its intermediate forms of decomposition, but not complete.

A little green corn will help out amazingly when the pastures get short these hot, dry days. Care must be used in feeding it, but it is doubtful if it can be made to bring a bigger profit than when fed green as a supplement to failing pastures. And you get full value for the entire crop when used in this manner.

It takes two-thirds of all the good cow eats to keep her alive and without loss of flesh, and the other third of ordinary good rations to enable her to give milk. The expense of two-thirds of the money earning rations has to be incurred when the cow is earning nothing.

Angora goats of both sexes will sometimes breed when five months old, and often at six months, but from the fact that they are at this age but a month or two from weaning time and are not nearly full grown, it is obvious that they should not be permitted to breed.

With native grass lambs or with lambs fresh from the range country, it would not be advisable to begin heavy grain feeding when first placed in the dry lot, as an abrupt change is not conducive to the best health nor to the best future gain with any class of animals.

With the present short pastures and promised advent of extremely dry, hot weather, it must be remembered that now is the opportune time to feed the sweet fodder corn we urged you to plant through these columns last spring for soiling purposes.

The profit from poultry depends upon economical feeding, from utilizing materials which would otherwise be wasted. When grain must be bought for supplying their principal needs close figuring is necessary to avoid loss.

Do not let the radishes that were left for seed become too ripe before the seed is gathered. When the pods break the seeds spread over a great deal of ground and are equal to a weed pest the following year.

In dressing fowls for market it pays to be particular in dressing them. A well dressed, dry picked fowl should bring several cents more per pound than one that has its skin torn and lots of pin feathers on it.

Unless a person is willing to pay attention to little details and not only do them once but as often as occasion may require, it would hardly be advisable for them to undertake poultry keeping for profit.

The young bees, hatched from August first on, will constitute the colony to be wintered, and for this reason it is wise to see that much brood is ready, even if we have to resort to stimulative feeding.

Do not allow the pullets to get too fat, as it will set them back in making a start at egg production. Besides, this overfat is apt to create too much animal heat, which often results in a molt out of season.

A clover crop in which Bladder Campion is prevalent should be cut early for hay, then deeply plowed and thoroughly fallowed during the balance of the season, preparatory to a hoed crop.

Water is a necessary constituent of milk and the cow must have it during the time it is being manufactured. The best plan is to have a supply where she can have access to it at all times.

In raising late hatched chicks it is always best to have separate quarters for them where they will not be trampled down and their feed stolen by the older and stronger birds.

If possible, keep the bees from casting more than one swarm, and you are certain, in a normal season, to get a nice surplus of honey.

Keep a few cats in the barns and give them milk at each milking. They will destroy the rats which eat the grain that lays in the barn.

ARE YOUR KIDNEYS WELL?

The kidney secretions tell if disease is lurking in the system. Too frequent or scanty urination, discolored urine, lack of control at night, indicate that the kidneys are disordered. Doan's Kidney Pills cure sick kidneys.

J. F. Haynie, 7th St., Forest Grove, Ore., says: "Doan's Kidney Pills saved my life. I was in bed for weeks, passed blood and was in terrible condition. Doan's Kidney Pills removed my trouble and I have not had an attack for over a year."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A STUNNER.

Secke—Mrs. Swellington is a stunning woman, isn't she?
Weeks—I should think so. She hit me with her automobile the other day, and it was two hours before I woke up.

TINY BABY'S PITIFUL CASE

"Our baby when two months old was suffering with terrible eczema from head to foot, all over her body. The baby looked just like a skinned rabbit. We were unable to put clothes on her. At first it seemed to be a few matted pimples. They would break the skin and peel off leaving the underneath skin red as though it were scalded. Then a few more pimples would appear and spread all over the body, leaving the baby all raw without skin from head to foot. On top of her head there appeared a heavy scab a quarter of an inch thick. It was awful to see so small a baby look as she did. Imagine! The doctor was afraid to put his hands to the child. We tried several doctors' remedies but all failed.

"Then we decided to try Cuticura. By using the Cuticura Ointment we softened the scab and it came off. Under this, where the real matter was, by washing with the Cuticura Soap and applying the Cuticura Ointment, a new skin soon appeared. We also gave baby four drops of the Cuticura Resolvent three times daily. After three days you could see the baby gaining a little skin which would peel off and heal underneath. Now the baby is four months old. She is a fine picture of a fat little baby and all is well. We only used one cake of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent. If people would know what Cuticura is there would be few suffering with eczema. Mrs. Joseph Kossmann, 7 St. John's Place, Ridgewood Heights, N. Y., Apr. 30 and May 4, '09."

Vermont Thrift.
Robert Lincoln O'Brien, editor of the Boston Transcript, is a great admirer of the thrift of the Vermonters, but thinks sometimes they carry it too far.

O'Brien was up in Vermont last summer and went to dinner with a friend who had some political aspirations. As they came to the door he heard the lady of the house say to the hired girl: "I see Mr. Jones has somebody with him for dinner. Take those two big potatoes down to the cellar and bring up three small ones."

Speaking of Fires.
Roy Bone, a brother of United States District Attorney Harry Bone, several years ago was a reporter on the Wichita Beacon. In going to a fire one of the members of the fire department was thrown from a hose cart and killed. Bone wrote a head, with this as the first deck: "Gone to His Last Fire."

The piece got into the paper and Bone was promptly "fired."—Kansas City Journal.

Local Enterprise.
Tourist—why do you call this a volcano? I don't believe it has had an eruption for a thousand years!
Guide—Well, the hotel managers in this region club together and keep a fire going in it every year during the season.—Meggendorfer Blaetter.

Important to Mothers
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson*. In Use For Over 30 Years. The Kind You Have Always Bought.

Sprouting Up.
"Don't you think, Mary, you are too old to play with the boys?"
"No, mamma; the older I get, the better I like them."—Judge.

WESTERN CANADA'S 1910 CROPS
Wheat Yield in Many Districts Will Be From 25 to 35 Bushels Per Acre

Land sales and homestead entries increasing. No cessation in numbers going from United States. Wonderful opportunities remain for those who intend making Canada their home. New districts being opened up for settlement. Many farmers will not this year, \$10 to \$15 per acre from their wheat crop. All the advantages of old settled countries are there. Good schools, churches, splendid markets, excellent railway facilities. See the grain exhibit at the different state and some of the County fairs.

Letters similar to the following are received every day, testifying to satisfactory conditions; other districts are as favorably spoken of:

THEY SENT FOR THEIR SON.
Maldreton, Sask., Canada, Aug. 25, 1910.
"My parents came here from Cedar Falls, Iowa, four years ago, and were so well pleased with this country they sent for their son to come. I have taken up a homestead near them, and am perfectly satisfied to stay here."
Leonard Douglas.

WANTS SETTLER'S RATE FOR HIS STOCK.
Stettler, Alberta, July 25, 1910.
"Well I got up here from Forest City, Iowa, last Spring in good shape with the stock and everything. Now, I have got two boys back in Iowa yet, and I am going back there now soon to get them and another car up here this fall. What I would like to know is, if there is any chance to get a cheap rate back again, and when we return to Canada I will call at your office for our certificates."
Yours truly, H. A. WIL.

WILL MAKE HIS HOME IN CANADA.
Brainerd, Minn., Aug. 15, 1910.
"I am going to Canada a week from today and intend to make my home there. My husband has been there six weeks and is well pleased with the country; so he wants me to come as soon as possible. He filed on a claim near Landis, Sask., and by his description of it it must be a pretty place."

Send for literature and ask the local Canadian Government Agents for Excursion Rates, best districts in which to locate, and when to go.

E. T. HOLMES, 315 Jackson Street, St. Paul, Minnesota
J. M. MAC LACHLAN, Box 116, Watertown, South Dakota

A Poor Roof Is a Needless Expense
You don't need to spend money for painting or patching your roof, or to have it regraded; neither will you have to replace it after a heavy wind storm, if you use **Galva-nite Roofing**. Galva-nite is coated on both sides with flaked Mica, a mineral that never wears out. This coating protects the heavy wool felt base and its three coats of mineral asphalt. Gravel or crushed stone in a roofing allows the weather to dry the oils out and it soon rots. Mica retains these oils and defies the weather. A one-piece roof is the result if you use Galva-nite, it cements and welds together. Let us send you samples and full information. **UNION ROOFING & MANUFACTURING CO.** 200 Union Road St. Paul, Minnesota

THE Famous Rayo Lamp
Once a Rayo user, always one.
The Rayo Lamp is a high grade lamp, sold at a low price. There are lamps that cost more, but there is no better lamp made at any price. Constructed of solid brass, nickel plated—easy to clean; an ornament to any room in any house. There is nothing known to the art of lamp-making that can add to the value of the RAYO Lamp as this lighting device. Every dealer everywhere. If not at yours, write for descriptive circular to the nearest agency of the **STANDARD OIL COMPANY (Incorporated)**

THORPE & HOBERG
Sioux City's Leading Jewellers, 511 Fourth Street

Make the Liver Do its Duty
Nine times in ten when the liver is right the stomach and bowels are right. **CARTER'S LITTLE LIVER PILLS** gently but firmly compel a lazy liver to do its duty. Cures Constipation, Indigestion, Sick Headache, and Distress after Eating. Small Pill, Small Dose, Small Price. **Genuine must bear Signature**

W. L. DOUGLAS HAND-SEWED SHOES
MEN'S \$2.00, \$2.50, \$3.00, \$3.50, \$4.00, \$5.00
WOMEN'S \$2.50, \$3.50, \$4
BOYS' \$2.00, \$2.50 & \$3.00
THE STANDARD FOR 30 YEARS
They are absolutely the most popular and best shoes for the price in America. They are the leaders everywhere because they hold their shape, fit better, look better and wear longer than other makes. They are positively the most economical shoes for you to buy. W. L. Douglas name and the retail price are stamped on the bottom—value guaranteed. **TAKE NO SUBSTITUTE.** If your dealer cannot supply you write for Mail Order Catalog. **W. L. DOUGLAS, Brockton, Mass.**

STOCKERS & FEEDERS
Choice quality; reds and roans, white faces or Angus bought on orders. Tens of Thousands to select from. Satisfaction Guaranteed. Correspondence Invited. Come and see for yourself.
National Live Stock Com. Co.
At either Kansas City, Mo., St. Joseph, Mo., S. Omaha, Neb.
THE GREAT DAIN HAY TOOLS
ARE THE BEST. ASK YOUR DEALER OR **JOHN DEERE PLOW COMPANY, OMAHA, NEB.**

PATENTS Watson E. Coleman, Wash. D.C. Books free. High class references. Best results. If afflicted with sore eyes, use **Thompson's Eye Water**

MICA AXLE GREASE
Keeps the spindle bright and free from grit. Try a box. Sold by dealers everywhere.
STANDARD OIL CO. (Incorporated)

PUTNAM FADELESS DYES
Color more goods brighter and faster colors than any other dye. One 10c package colors all fibers. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. **MONROE DRUG CO., Quincy, Illinois**

FREE Send postal for Free Package of Paxtine. Better and more economical than liquid antiseptics FOR ALL TOILET USES. **PAXTINE TOILET ANTISEPTIC**
Gives one a sweet breath; clean, white, germ-free teeth—antiseptically cleans mouth and throat—purifies the breath after smoking—dispels all disagreeable perspiration and body odor—much appreciated by dainty women. A quick remedy for sore eyes and catarrh. A little Paxtine powder dissolved in a glass of hot water makes a delightful antiseptic solution, possessing extraordinary cleansing, germicidal and healing power, and absolutely harmless. Try a Sample. 50c. a large box at drugists or by mail. **THE PAXTON TOILET CO., BOSTON, MASS.**

Salts and Castor Oil—bad stuff—never cure, only makes bowels move because it irritates and sweats them, like poking finger in your eye. The best **Bowel Medicine is Cascarets**. Every Salt and Castor Oil user should get a box of **CASCARETS** and try them just once. You'll see. 834

PILE—FISTULA Pay When CURED. AN RECTAL DISEASES cured without a surgical operation and GUARANTEED to last a LIFETIME. No chloroform, ether or other general anesthetics used. EXAMINATION FREE. Write for FREE BOOK. **DR. E. R. TARRY** 224 Bee Building Omaha, Neb.

OLD SORES CURED
Allen's Ulcerative Salve cures Chronic Ulcers, Bone Ulcers, Scrofulous Ulcers, Erysipelas, Carbuncles, Ulcers, Mercurial Ulcers, White Swelling, Milk Leg, Fever Sores, all sores. Postally no failure. 5c mail order. J. F. ALLEN, Dept. A, St. Paul, Minn.

W. N. U., SIOUX CITY, NO. 38-1910.
