

Mr. Hayrick-Mandy, this here catalogue says that that artist got \$5,000 fer paintin' thet little picture.

Mrs. Hayrick-My gosh, Hiram! I wonder what on earth he'd charge fer paintin' a barn?

FOR THE SKIN AND SCALP

Because of its delicate, emollient, sanative, antiseptic properties derived from Cuticura Ointment, united with the purest of cleansing ingredients and most refreshing of flower odors, Cuticura Soap is unrivaled for preserving, purifying and beautifying the skin, scalp, hair and hands, and, assisted by Cuticura Ointment, for dispelling itching irritation and inflammation and preventing clogging of the pores, the cause of many disfiguring facial eruptions. All who delight in a clear skin, soft, white hands, a clean, wholesome scalp and live, glossy hair, will find that Cuticura Soap and Onticura Ointment realize every expectation. Cuticura Remedies are sold throughout the world. Potter Drug & Chem. Corp., sole proprietors, Boston, Mass. Send to them for the latest Cuticura Book, an authority on the best care of the skin, scalp, hair and hands. It is mailed free on request.

Could Wait.

"Why didn't you stay to ascertain how badly the man was injured?" demanded the judge.

"Why," explained the chauffeur. "I knew I could find out from the daily

Free Booklet, "Distemper, Causes and Cures." Special Agents wanted.

MAKING OF HANDKERCHIEFS IS FASCINATING WORK.

Girl Who Is Adept With Her Needle May Easily Provide Herself With a Supply of Handsome Ones.

Handkerchief making is fascinating work, and any girl who sews neatly in blue; tucks are made across the may easily provide herself with a sup- back and front of bodice, which is ply which will be a matter of pride drawn in at the waist where a narrow to herself and of envy to her less industrious associates.

French or Irish linen of the finest quality should be used for any handkerchiefs destined to carry elaborate embroideries, and the greatest care should be exercised in the cutting of the squares. To draw a thread in the four directions is the only safe way, as otherwise the delicate material is apt to twist and become unmanage-

When Armenian or any other very fine lace edging is used the handkerchief need not be hemstitched, although infinite care must be devoted to the hand hemming, as irregularly set stitches spoil the entire effect of the work.

Exceedingly narrow hemstitched borders are more than ever popular, and nearly always handkerchiefs so treated have corners embroidered delicately with wreaths, clusters or semidetached butterfly and flower designs. Sometimes only one corner is decorated with a rather large and elaborate spray pattern, or a medallion will inclose a small initial. Only when there is no other decoration should a monogram be employed.

Fancy lace stitches are blended with the embroidery patterns, as in the case of the lily pads, which show petals of fine netting, and the butterflies, with transparent wings. Sometimes a girl who embroiders indifferently but sews with extraordinary neatness appliques lace motifs upon the corner of a handkerchief and then cuts away the material from the under side, but this is difficult to accomplish, and a slip of the scissors means ruin to the entire piece of work.

Scallop borders are exceedingly an immense amount of time and is so bon velvet. heavy in proportion to the fabric that it is easily torn. The better way is to 30 inches wide, 1 yard silk.

buy a machine scalloped handkerchief of fine quality and embroider it daintily, than to devote hours of toil to a border which may be reduced to a ragged fringe the first time it is laun-

RACK FOR PIPE AND KEYS MAKING SCARFS AT HOME

Useful Little Article Which Can Be Some New and Very Attractive Ef-Easily and Quickly Made at Small Cost.

The useful little article shown in our sketch may be easily and quickly made and at a very small cost. It lined with soft white satin and left is arranged to hold three pipes and

four keys. painted or stained, or the wood may into points, each finished with a tasbe smoothly covered with linen, cloth, sel. or art serge and finished at the edges

The rack illustrated is made of wellplaned wood, bevelled at the edges,

and stained a nice dark oak. In the upper part three rings are screwed. and into these rings the pipes may be slipped and held in the manner shown. Two similar rings are screwed into the upper edge, and by which the rack is suspended from the wall.

At the base four small hooks are fixed in for hanging keys or other things on, both rings and hooks suitable for the purpose may be obtained at any iron-mongers at a trifling cost. "A" shows the kind of ring that the hook.

When covered with linen or serge, the rings may be screwed through the material into the wood, and the wood need not under those circumstances be painted or stained.

Hemming.

Fold the hem of whatever you wish to make the usual manner of the desired width, then fold it back, putting the edge of the hem and material together. Overcast it in the usual manner and when the hem is turned back and pressed it is much neater and and co ored ribbon beadings. quicker than the old manner of hemising, and as the overcasting stitches petticeats and a flounce reaching to on the right side run parallel with the warp of the material, makes it hard y discernible on the right side.

Curly Hair.

To keep hair in ourl moisten with water which has a third of its book rounds, 12% ounces of rowdered caswhite of the egg. Then twist and roll tile scap and 1% fitid owners of waup. It will star,' a great deal of fer. Let stand until a filly is formed. gammess before con int out

fects Which May Be Easily Obtained.

A black satin scarf of double width satin and three yards long can be plain across the bottom or lashed for a quarter of a yard in the middle of It may either be made of wood, and each end, and the half sections drawn

In diaphanous scarfs those of black lace and two colors of chiffon are dividing favor. Beautiful Spanish lace shawls in black and white are to be found just now much reduced. One to be made at home is of fine black net the full width. This can be embroidered over the whole surface with jet disks and spangles or the jet can be arranged as a deep border across each end and a narrow one along the lengths.

The scarf of black and white foulard, finished with white silk fringe or a black tassel, is simple enough. If the selvedge is not liked, the material can be turned back on the right side to a depth of a quarter of an inch and held in place by a line of chain stitch-

The double-toned chiffon scarfs are easily constructed. Choose contrast ing colors, as blue and green, purple and gray, pale violet and purple, two tones of pink or blue. Baste the two pieces carefully along the sides and ends, taking precautions that they are even, and do not draw apart.

Bind all around with two-inch ribbon of soft satin, or sew the edges of chiffon together with blind stitches, and having made a two-inch hem of should be procured, and "B" illustrates the two fabrics, one folded within the other, fagot it to the main scarf.

Latest in Petticoats.

Dress underskirts are of fine muslin or batiste. Lace is more used in trimming than embroidery, all trimmings being neat rather than elaborate. Allover embroidery, cambric. cluny, torchon and honiton edgings and ir rertions are best.

Under wash dresses, colored lawn, chambray and batiste petticoats are most popular. These are embroidered in white, with white lace insertions and

Among novelties are white muslin the knees, embreidered in color and finished with a teading run with ribten of the same shade.

For Cleaning Cleves.

Mix 8% fluid ounces of javelle water, one-helf fluid ounce of arta am-'then use with a please of final.

attention

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully fellowed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial."

—Mrs. Lena Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y .- "Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others."—Mrs. J. H. Breyere, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to cure

female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical. For 30 years Lydia E. Pinkham's Vegetable Gin Compound has been the standard remedy for

female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

DESTRUCTION AND

Union Roofing & Mfg. Co.,

St. Paul, Minn. Gentlemen: --

We desire to obtain samples of all the roofings which have been approved by the Underwriter Laboratories, Inc., and as we note that your "Galvanite (Prepared)", is on their approved list, we would be pleased to have you favor us with a fair sized sample, together with retail price per square. We intend placing this information in the hands of our Inspectors that they may know the difference between approved and unapproved roofings, enabling them to recommend only the approved ones. Thanking you in advance for your sample by early mail, we remain,

Very truly yours,

GAL-VA-NITE

TRIPLE ASPHALT COATED---MICA PLATED

ROOFING Is Approved of and Recommended by

The letter reproduced above was sent to us voluntarily by one of the big fire insurance companies that insures big, costly milling plants, and who demand, as a matter of protection on these extraordinary risks, that every precaution be taken in the construction of the plants to safeguard them as

Fire Insurance Companies

much as possible against fire. The fact that they approve and recommend Gal-va-nite indicates that they recognize that its fire-resisting qualities make it desirable for these

YOU might as well have the benefit of this quality on YOUR roofs. Put on Gal-va-nite and you reduce the cost of your insurance. You will be taking the minimum risk of having your buildings catch fire.

You will reduce your repair bills, as Gal-va-nite will last as long as your building without painting or repairing. And, you will be getting a roofing every roll of which is absolutely guaran-

teed. We make Gal-va-nite in our own factories and know just how each roll is made and we have confidence enough in it to back it up with our guarantee. We use a heavy wool felt, triple coated on both sides with mineral asphalt. It is then coated on both sides with flaked Mica, a mineral product that never wears out.

It is this coating of Mica that insulates Gal-va-nite against the danger of sparks and fire brands.

Gal-va-nite will not crack, and because it is pliable is easy to lay. One man with a hammer and jack knife can do it. Comes in rolls of 108 square feet with nails, cement and full directions for laying.

You can get Gal-va-nite at your dealer's. If not, write us and we will send you our free book on roofing together with samples of Gal-va-nite.
